The Group's operational focus on its Russian interests in steel, direct reduced iron and financial services, and its tinplate trading and value adding business, has resulted in an improved financial performance in 1999. I am pleased to report that, as anticipated, we have returned to profitability with a pre-tax profit of £3.3 million. No dividend is proposed for the year ended 31 December 1999 (1998 - £nil), although a resolution will be proposed at the forthcoming Annual General Meeting to restructure the Company's share capital to enable dividends to be paid when circumstances permit.

The Directors consider the Group is now strategically and financially focused.

## Steel

The Group's principal steel trading business remains centred on our export trading agreement with Oskol Electrometallurgical Kombinat ("OEMK"), Russia's most modern mini steel mill, in which we have a 9.3% direct interest.

The Group retains its investment in the associated undertakings of Wolff Steel Group, the largest being the venture with Corus plc in Afon Tinplate Company Limited, Swansea, Wales, a tinplate trading and value adding business in which the Group has a 36% equity stake and which continues to be profitable.

## Iron ore

On 10 April 2000 the Company announced that it had formed a new venture with Lebedinsky GOK ("Lebedinsky") to market and sell Lebedinsky's iron ore products and other supplies to the global market and to purchase raw materials and inputs for Lebedinsky and other iron ore mining companies in the CIS. The Directors regard this as a significant development for the Group. Lebedinsky, in which we have a 2% equity interest, is located 27 kilometres from OEMK and is the largest Russian iron ore mine and the richest iron ore deposit in the world. The new company LebGOK-Middle Traders AG of which we own 50% will be trading fully by June 2000.

# Financial services

The Group continues to earn financial service fees and we are optimistic that these will increase as the Russian Federation's investment climate continues to improve. In 1999 we generated a fee of US\$1.1 million from OAO Gazprom ("Gazprom") with whom we have a longstanding and valuable relationship for the provision of financial services, and this is an area of business we plan to develop. Gazprom, through its wholly owned subsidiary, Gazprominvestholding, has a significant interest in both Lebedinsky and OEMK, and is one of the Group's partners in the creation of Europe-Steel.com plc.

# Europe-Steel.com plc ("Europe-Steel")

Earlier this year your Company agreed to co-operate with Gazprominvestholding, a wholly owned subsidiary of OAO Gazprom, to invest in e-commerce opportunities in Russia, the rest of the CIS and Eastern Europe. OAO Gazprom is a Russian integrated energy company and accounts for 25% of world gas production and represents 8% of Russia's gross national product. The venture will build upon the Company's existing business base in steel trading. Europe-Steel will develop an e-commerce platform to trade steel products from mills in Russia and in due course the remainder of CIS and Eastern Europe. Europe-Steel is to develop a dedicated web-based market allowing steel producers in Russia, CIS and Eastern Europe to access their customers worldwide. Europe-Steel's site, which will be bilingual in Russian and English, will offer a real time price and trading facility as well as product and service information. Europe-Steel believes that its site will offer producers access to new customers, cut costs, improve customer service and so help them combat the falling profitability caused by cyclical prices. By the second quarter of 2000 Europe-Steel plans to have launched an online directory of Russian steel mills and distributors. By the fourth quarter of 2000 Europe-Steel plans to have its e-commerce platform in place.

On 16 March 2000 the company announced that Interfax Information Services Group ("Interfax Group") had subscribed for 11.2% and Hatch Associates Limited ("Hatch Beddows") had subscribed for 0.5% of

# Chairman's statement (continued)

Europe-Steel. Interfax Group is a leading worldwide provider of business, financial and political news with specific emphasis placed on markets of Europe and Asia. The Interfax Group focuses on supplying company and industry profiles, research, news from oil and gas, metal and mining, insurance, telecommunications, agriculture and other major corporate sectors. Hatch Beddows is a leading consultant to the mining, metallurgical, energy and infrastructure industries worldwide and will be advising Europe-Steel on all matters concerning the development of the website and the establishment of the trading platform.

Europe-Steel's shares are trading on OFEX and the shares currently stand at a premium of some 70% above the issue price of 50p. At this level the total capitalisation of Europe-Steel, in which Middlesex holds a 39.3% interest, is over £10.7 million.

I believe Europe-Steel represents the right strategy in developing the Group's internet interests and it is important for the Group to have become involved at an early stage. Shareholders can examine the website at www.europe-steel.com which provides a wide range of news on Eastern Europe and the various steel mills.

# Rights Issue and Placing

At an Extraordinary General Meeting on 16 November 1999, shareholders approved a one for six rights issue at 0.75p per share, which was underwritten equally by Oskmet AG (a company controlled by OEMK) and LebGOK Trading AG (a company controlled by Lebedinsky). In the event, 71.2% of the rights issue was taken up by shareholders, the balance of 28.8% was placed by the Company's stockbrokers, and the underwriting monies were utilised for the subscription for 67,533,853 ordinary shares by each of Oskmet AG and LebGOK Trading AG at 0.75p per share, giving them each a 6.25% interest in the Group, so that they can also benefit from our financial success. The net proceeds of approximately £1.83 million were used to finance the buy-out of the Group's minority interests in certain subsidiary companies and for general working capital.

# **Minority interests**

During 1999 we pursued our policy of simplifying the Group's corporate structure, where necessary terminating or buying out joint venture partners' interests. In August, the Swan Metals (Jersey) Ltd Shareholders' Agreement with Wmac Investment Corporation was terminated, and the profit arising of £211,000 is reflected in the attached financial statements.

At the EGM in November, shareholders also approved the acquisition of the minority interests in Revenant Limited, which holds the Group's investment in OEMK, and the minority interests in Middlesex OEMK plc. As a result, Sir David Alliance received a 5.2% interest out of Revenant's 14.5% investment in OEMK in settlement of the US\$7 million loan note owing to him, and a put and call option is in place in respect of this interest. We continue to retain our remaining direct 9.3% investment in OEMK.

# Appointment of Non - Executive Director

I am pleased to announce that Tom Chandos has joined the Board as a Non-Executive Director with effect from 22 May 2000. His investment banking and venture capital experience and his experience of business in Russia will prove to be valuable assets for Middlesex.

# Conclusion

These are interesting times for your Group, and I am confident that we are set to increase shareholder value and continue to build a significant business with our Russian partners.

Middlesex Holdings plc

# Chief Executive's review

As referred to in the Chairman's statement the year ended 31 December 1999 was a busy and successful year for Middlesex. Our financial performance has improved and the Group has returned to profitability. Turnover increased by 13% to £126.0 million (1998 - £111.5 million), operating profit is £1.9 million (1998 - an operating loss of £13.2 million) and pre tax profit is £3.3 million (1998 - pre tax loss of £14.1 million). Earnings per share is 0.1p (1998 - loss per share (1.4)p). Total equity shareholders' funds for 1999 are £13.7 million (1998 - £11.1 million), net current assets £1.9 million (1998 - net current liabilities - £2.8 million), and the retained loss has decreased to £4.4 million (1998 - £5.2 million). The Directors do not recommend the payment of a dividend for the year ended 31 December 1999 (1998 - £nil).

# Steel trading

Our steel trading businesses comprise:

- Middlesex OEMK plc and its 100% subsidiary, Oskmet (UK) Limited, which trades Russian steel products sourced from Oskol Electrometallurgical Kombinat ("OEMK"), primarily billets and round bars, with international customers. As at 31 December 1999 Middlesex had a 87.75% shareholding in Middlesex OEMK plc, the remaining 12.25% being held by Sir David Alliance, which the Company acquired on 31 May 2000;
- 2. Oskmet (DRI) Limited, a wholly owned subsidiary, which trades direct reduced iron sourced from OEMK in the form of metallised pellets with international customers; and
- Wolff Steel Group, whose core business is in tinplate trading and value adding, the largest one being a venture with Corus plc - our associated undertaking Afon Tinplate Company Limited.

These businesses generated gross profits of £5.6 million (1998 - £5.0 million) on turnover of £125.3 million (1998 - £110.0 million). Turnover was 14% higher than that in 1998 due to the improved global steel prices and physical volumes in 1999.

# Financial services

The Company provides financial services to our Russian partners on an ad hoc basis. During the year ended 31 December 1999 fees of US\$1.1 million (1998 - US\$1.5 million) were generated from OAO Gazprom and US\$120,000 (1998 - US\$nil) from Leucadia National Corporation. The Company is involved in a number of new assignments which may lead to the generation of fees in the year ending 31 December 2000.

# **Corporate transactions**

The Group has been very active with various corporate transactions in the year ended 31 December 1999 which has continued in year 2000. In August 1999, the amounts owing to the minority shareholders in Swan Metals (Jersey) Limited were settled and the balance of 40% equity stake not owned by the Group was acquired for a nominal sum.

A circular dated 21 October 1999 was sent to all shareholders convening an Extraordinary General Meeting to approve a one for six rights issue at 0.75p pence per share, a subscription for cash of up to 135,067,706 new shares at 0.75p per share, a part disposal of the investment in OEMK and purchase of minority shareholders in two Group subsidiaries. All the transactions were approved by shareholders and successfully completed by 31 December 1999.

The year 2000 has continued at the fast pace the Group experienced in 1999 and commenced with the exciting announcement that the Group had entered the age of e-commerce with a venture, called Europe-Steel.com plc, with OAO Gazprom to trade steel on the internet. The Group and OAO Gazprom have been joined by Interfax Information Services Group and Hatch Associates Limited as

# Chief Executive's review (continued)

strategic investors in Europe-Steel.com plc. I look forward to Europe-Steel.com plc's launch of its site carrying comprehensive data on the Russian steel market by the end of June 2000 and online trading facility by the end of the year.

The Group has recently announced that it has formed a venture with Lebedinsky GOK ("Lebedinsky") to market and sell Lebedinsky's iron ore products and other supplies to the global market and to purchase raw materials and inputs for Lebedinsky and other iron ore mining companies in the CIS.

# Conclusion

1999 was an important year for the Group which saw both a return to profitability and a restructuring which increased focus on the Group's core, profitable activities in the CIS. A good performance from the steel business was encouraging both in underlying terms and in the confidence it gives Europe-Steel.com plc, our steel trading e-business venture and for our iron ore export venture with Lebedinsky. The year has started well and we look forward to the future with confidence.

Chief Executive

8 June 2000 s

The Directors have pleasure in presenting their report on the affairs of the Group, together with the audited financial statements, for the year ended 31 December 1999.

# Principal activities and business review

The principal activity is as a holding company for subsidiaries involved in metal trading and financial services, principally in the Commonwealth of Independent States.

Further details of the business and future developments are given in the Chairman's statement and Chief Executive's review on pages 3 to 6.

Important events occurring after the end of the year are given in note 31 to the financial statements.

# Results and dividend

The consolidated profit after taxation and minority interest for the year amounted to £1,248,000 (1998 – loss - £13,444,000). The Directors do not recommend the payment of a dividend.

# Issues of shares and warrants

During the year, the following new ordinary shares were issued in the Rights issue and Placement:

	Date	Number
Rights issue	7 December 1999	135,067,706
Placement issue	7 December 1999	135,067,706

Details of warrants issued during the year are set out in note 20 to the financial statements.

# **Annual General Meeting**

Resolutions will be proposed at the Annual General Meeting as set out in the formal notice on pages 47 and 48. The following explanatory notes relate to Resolutions numbered 6 to 9 which will constitute Special Business:

- (i) Resolution 6 - The Directors currently have a general authority to allot unissued shares of the Company, but this expires on the conclusion of the Annual General Meeting. Resolution 6 is proposed as an Ordinary Resolution to provide the Directors with authority to issue ordinary shares up to an aggregate nominal value of £1,048,645.89 such authority shall expire on whichever is the earlier of the conclusion of the Annual General Meeting of the Company to be held in 2001 or the date falling fifteen months from the date of passing of this Resolution. Other than fulfilling the Company's obligations under its Employee Share Schemes, the Directors have no present intention of exercising this authority. This authority represents 38.8% of the present issued share capital.
- (ii) Resolution 7 is to renew the Directors' authority to allot relevant securities up to a nominal value of £135,000 representing 5.0% of the nominal value of the Company's issued share capital. This will provide the Directors with the authority to issue ordinary shares of 0.25p for cash when the Board considers it to be in the best interests of shareholders, such authority shall expire on whichever is the earlier of the conclusion of the Annual General Meeting of the Company to be held in 2001 or the date falling fifteen months from the date of passing of this Resolution.
- (iii) Resolution 8 - The Company's Articles of Association permit the purchase of the Company's own shares subject to obtaining shareholders' approval. The Directors consider that there may be circumstances in which it would be desirable for the Company to purchase its own shares in the market. For example, in certain circumstances, the price in the market may represent a substantial discount to what the Directors consider to be a fair reflection of the Company. Purchases would only be made if their effect would be expected to improve earnings per share and the Directors consider such purchases to be in the best interests of the Company. Accordingly, the Directors propose to seek a general authority at the

# **Directors' report (continued)**

# **Annual General Meeting (continued)**

forthcoming Annual General Meeting to purchase relevant securities in the market up to a nominal value of £135,000 representing up to 5.0% of the Company's issued ordinary share capital at or between the minimum and maximum prices specified in the Resolution. The terms of the Resolution comply with current Investment Protection Committee and London Stock Exchange guidelines. Any shares purchased under this authority would be cancelled and the number of shares in issue would be reduced accordingly. If given, the authority will expire fifteen months from the date of the Resolution or at the date of the next Annual General Meeting, whichever is earlier, when the Directors anticipate seeking its renewal.

Resolution 9 - The profit and loss account of the Company as at 31 December 1999 reveals a (iv) deficit carried forward of £5,740,709. This deficit has arisen as a result of the substantial provisions which were made in the Company's financial statements for the year ended 31 December 1998 against the carrying values of certain investments, following the economic problems experienced in the Russian Federation. Accordingly, the Company is presently unable to pay dividends and could only do so if the deficit were to be eliminated through future profits. The sum of £15,444,137 is currently standing to the credit of the Company's share premium account as a result of issues of equity at a premium to the nominal value of the Company's shares, and a resolution will therefore be proposed at the Annual General Meeting to reduce the amount standing to the credit of the share premium account by an amount equal to £5,740,709.

Subject to compliance with the relevant statutory procedure and to the confirmation of the High Court, it is intended to reduce the amount standing to the credit of the share premium account by an amount equal to £5,740,709 to eliminate the deficit on the profit and loss account.

The reduction will not be effective until the High court has granted an Order confirming the reduction of the share premium account. It is proposed that as soon as practicable following the passing of the resolution approving the reduction at the Annual General Meeting, the Company will apply to the High Court for the appropriate Order.

As a condition of the making of the Order, the Court will require the Company to give certain undertakings for the protection of creditors as at the date the reduction becomes effective. The broad effect of these undertakings will be that if any assets incorporated in the Company's accounts at 31 December 1999 are undervalued or if any provision in the accounts is subsequently released, any future profits arising in respect of these items will be treated as an undistributable reserve and will not be available for the payment of dividends.

Resolution 9, which will be proposed as a Special Resolution, is to reduce the amount standing to the credit of the Company's share premium account by an amount equal to £5,740,709.

# Corporate Governance

In June 1998 the Combined Code was issued by the London Stock Exchange (the "Code"). This Code is based on the Report of the Hampel Committee and sets out Principles of Good Corporate Governance and Code Provisions, which consolidate the work of the earlier Cadbury and Greenbury Committees. Section 1 of the Code is applicable to companies.

The Group has adopted the transitional approach for internal control aspects of the Combined Code as set out in the letter from the London Stock Exchange to listed companies dated 27 September 1999 and has reported on internal financial controls. The internal control procedures required by

The Code establishes fourteen Principles of Good Governance which are split into the four areas

The Company is controlled through the Board of Directors which comprises four Executive and four described below. Non-Executive Directors. The biographies of four Non-Executive Directors and the two Executive Directors seeking re-election are set out on page 9. The Executive Chairman is primarily responsible for the efficient working of the Board. He ensures that all Directors receive sufficient relevant information on financial, business and corporate issues prior to meetings. The Chief Executive is responsible for the implementation of the strategy and policy set by the Board and the day-to-day

During the past year the Board has met formally on a quarterly basis and on other occasions as required. The Board has a formal schedule of matters which are specifically reserved for its decision. management of the business. The Board is responsible for overall Group strategy, approval of acquisitions, disposals and capital expenditure, treasury and consideration of significant financing matters.

The Board of Directors has agreed that, if necessary, a Director may in the furtherance of his duties seek independent professional advice at the Company's expense. Directors also have access to the advice and services of the Company Secretary. All Directors are subject to election by the shareholders at the first Annual General Meeting after their appointment. Although not formally required in accordance with the Articles of Association, the Board has resolved that all Directors will be subject to re-election by rotation at least every three years.

The Board has established three standing committees – the Audit Committee. Remuneration Committee and Nominations Committee (as from 13 April 1999). The Committees operate within defined terms of reference.

The Remuneration Committee comprises the senior Non-Executive Director - | G West (Chairman). I P A Wolff and Lord Chandos as from 22 May 2000. The Committee meets at least twice a year to consider and determine the remuneration, whether by way of salary or otherwise, of the Executive Directors. The Chief Executive attends the meetings of the Committee to discuss the performance of other Executive Directors and makes proposals as necessary, but he is not present when his own remuneration is being considered. The Committee has access to professional advice from inside and

The Report of the Board to the shareholders on Directors' Remuneration is set out on page 15 and outside the Company. includes details of the Directors' service contracts.

# Relations with Shareholders

There is regular dialogue with institutional and individual shareholders. The Company responds quickly to inquiries received orally or in writing from individual shareholders on a variety of topics. All shareholders are given at least twenty working days notice of the Annual General Meeting at which the Chairman of the Company, Audit, Remuneration and Nominations Committees are available for questions.

# Accountability and Audit

Detailed reviews of the performance and financial position of the Group are included in the Chairman's statement and Chief Executive's review on pages 3 to 6. The Directors' responsibilities for the financial statements are described on page 16.

The Directors acknowledge their responsibilities for the Group's system of internal financial control, which is designed to safeguard the Group's assets against unauthorised use or disposal, ensure the maintenance of proper accounting records and provide reliable financial information for use within the business and for publication. In fulfilling these responsibilities and on the basis that a system of internal financial control can provide only reasonable but not absolute assurance against material financial misstatement or loss and that it relates only to the needs of the business at the time, the Board has conducted for 1999 an annual review of the effectiveness of the system of internal financial control on the basis of the criteria set out in the Guidance for Directors 'Internal Control and Financial Reporting' issued in December 1994. The Group's internal financial controls are structured to provide reasonable assurance that problems are identified and appropriate remedial action taken promptly.

As permitted by the London Stock Exchange, the Company has complied with Code provision D.2.1. on internal control by reporting on internal financial control in accordance with the Guidance for Directors on 'Internal Control and Financial Reporting' that was issued in December 1994.

The Board has considered the financial risks to the Group and the principal features of the Group's system of internal financial control are as follows:

An established management structure comprising the Board, with its committees, and senior managers.

As might be expected in a Group of this size, which is highly entrepreneurial and operates in emerging economies, a key control procedure is the day-to-day involvement of the Executive Chairman, Chief Executive and Finance Director.

The Board reviews quarterly financial and management information for the Group and each of the operating companies and receives regular reports from the Chief Executive.

The Board also undertakes, inter alia, a detailed review of major transactions and approves new investments.

Although the Group does not currently have an internal audit function, the Board reviews the need for this additional control on a regular basis, taking into account the size of the Group and the nature of its operations.

## Audit Committee

The Audit Committee comprises solely the Non-Executive Directors with the senior Director - J G West being the Committee Chairman and J P A Wolff , I P Spratling and Lord Chandos as from 22 May 2000, the other members. The Committee meets at least twice a year. At the invitation of the Committee Chairman, the external auditors, Executive Chairman, Chief Executive and Finance Director attend the meetings. The Committee overviews the monitoring of the Group's internal controls, accounting policies and financial reporting and other matters as may be required by the Board.

# Accountability and Audit (continued)

Nominations Committee

The Nominations Committee comprises solely the Non-Executive Directors with the senior Director - J G West being the Committee Chairman and J P A Wolff, J P Spratling and Lord Chandos as from 22 May 2000, the other members. This Committee discusses and agrees the proposed nomination. which is then put forward for approval by the Board.

After due consideration, with reference to the disclosure as made in note I(a) to the financial statements, and having made appropriate enquiries, the Directors have formed a judgement, at the time of approving the financial statements, that the Group has adequate resources to continue in operational existence for the foreseeable future. Accordingly the Directors continue to adopt the going concern basis in preparing the financial statements.

# **Compliance Statement**

The Listing Rules require the Board to report on compliance with the forty-five Code provisions throughout the accounting period. Save for the limited exceptions outlined below, the Company has complied throughout the accounting period ended 31 December 1999 with the provisions as set out in Section 1 of the Code.

> A.1.6 No formal training is provided to Directors on the first occasion that he or she is appointed to the Board. Discussions are held between the new Director and the Company Secretary during which the new Director is provided with written documentation concerning his or her responsibilities as a director of a listed company. On the appointment of any future Directors, if the Company considers it necessary to provide the new Director with formal training, appropriate arrangements will be made.

A.5.1 During the period 1 January 1999 to 12 April 1999 the Company did not have a Nominations Committee. There was a formal procedure process under which the Non-Executive Directors discussed and agreed proposed nominations, which were then put forward for approval by the Board. A decision to form a Nominations Committee was taken at the Board Meeting held on 13 April 1999.

A.6.2 Although not formally required in accordance with the Articles of Association, the Board has resolved that all Directors will be subject to re-election by rotation every three years. All Directors are subject to election by the shareholders at the first Annual General Meeting after their appointment.

Approved by the Board of Directors and signed on behalf of the Board.

# Report of the Board to Shareholders on Directors' Remuneration Year ended 31 December 1999

The Remuneration Committee comprises the senior Non-Executive Director – J G West (Chairman), I P A Wolff and Lord Chandos as from 22 May 2000.

The Committee determines, inter alia, the annual remuneration package of Executive Directors and the grant of share options to Executive Directors. The remuneration of the Non-Executive Directors is determined by the Board. No Director plays a part in any discussion about his or her own remuneration.

There are five main elements of the remuneration package for Executive Directors, being basic salary, discretionary bonus, pension contributions, car allowance and share option incentives. Basic salaries are comparable to sector market rates. Discretionary bonuses are paid at the sole discretion of the Committee based on the individual's contribution to the Company in the previous calendar year. The granting of share options is used to incentivise Executive Directors.

The Company has a policy of granting options to Executive Directors under the Executive Share Option Scheme and Executive and Employee Share Incentive Schemes in order to provide an additional incentive and to take account of the contribution made by an individual to the Company's development. These share options are granted at the Board's discretion after considering the prevailing market price and the price at which previous options have been granted. No options have been granted at below the market price prevailing at the time. Details of Directors' share options outstanding at 31 December 1999 are disclosed in note 9 to the financial statements.

Lord Owen, A F Moshiri and I Falconer have contracts of service, which will be available for inspection at the forthcoming Annual General Meeting. They all expire on not less than twelve months notice. The Company is obliged to pay damages for the unexpired portion of a contract, if it is terminated early.

A A Ugarov is employed on terms which permit termination without notice by either party. J G West has a contract which expires on the date the Annual General Meeting is held in 2001. J P A Wolff has a contract, which expires on the date the Annual General Meeting is held in 2002, but will be retiring at the forthcoming Annual General Meeting. I P Spratling has a fixed term contract expiring 31 December 2000. Lord Chandos has a contract, which expires on the date the Annual General Meeting is held in 2003. Lord Owen and I Falconer, who are standing for re-election at the forthcoming Annual General Meeting, have service agreements, which are terminable on twelve months notice. Lord Chandos who is also standing for re-election at the forthcoming Annual General Meeting, has an unexpired term of over three years on his fixed term contract.

All Directors are entitled to accept appointments outside the Company, subject to Board approval, and to retain payments from such sources.

Lord Owen, A F Moshiri and I Falconer are the only Directors entitled to pension arrangements, under which the Company makes contributions (subject to a maximum of £21,000 and £18,120 per annum for Lord Owen and A F Moshiri, respectively) of 35%, 20% and 15% of basic salary per annum respectively to pension schemes on their behalf. No other payments to Directors are pensionable. There have been no other changes in the terms of Directors' pension entitlements during the year and there are no unfunded pension promises or similar arrangements for Directors.

The remuneration of the Non-Executive Directors is determined by the Board, and is based upon fees paid to non-executive directors of similar companies. The remuneration is in the form of fees payable either to the individual Directors or to their companies. Non-Executive Directors are not eligible for any pension arrangements.

This report should be read in conjunction with note 9 to the financial statements which constitutes part of this report and which contains full details of all elements in the remuneration package of each Director and of Directors' share options.

Approved by the Board of Directors and signed on behalf of the Board.

# Statement of Directors' Responsibilities

Company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company and the Group as at end of the financial year and of the profit and loss of the Group for that year. In preparing those financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed.

The Directors are responsible for keeping proper accounting records, which disclose with reasonable accuracy at any time the financial position of the Company and the Group and to enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for the Group's system of internal financial controls and for safeguarding the assets of the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

# Report of the auditors on the financial statements to the members of Middlesex Holdings plc

We have audited the financial statements on pages 18 to 46 which have been prepared under the accounting policies set out on pages 23 and 24.

# Respective responsibilities of Directors and auditors

The Directors are responsible for preparing the Annual Report, including as described on page 16 the financial statements, which are required to be prepared in accordance with applicable United Kingdom law and accounting standards. Our responsibilities, as independent auditors, are established by statute, the Auditing Practices Board, the Listing Rules of the London Stock Exchange, and by our profession's ethical guidance.

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Act 1985. We also report to you if, in our opinion, the Directors' report is not consistent with the financial statements, if the Company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law or the Listing Rules regarding Directors' remuneration and transactions with the Company and other members of the Group is not disclosed.

We review whether the corporate governance statement on page 14 reflects the Group's compliance with the seven provisions of the Combined Code specified for our review by the Stock Exchange, and we report if it does not. We are not required to consider whether the Board's statements on internal control cover all the risks and controls, or form an opinion on the effectiveness of the Group's corporate governance procedures or its risk and control procedures.

We read the other information contained in the Annual Report, including the corporate governance statement, and consider whether it is consistent with the audited financial statements. We consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements.

# Basis of opinion

We conducted our audit in accordance with United Kingdom Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the Directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the circumstances of the Company and the Group, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

## Uncertainties

In forming our opinion we have considered the adequacy of the disclosure made in note I(a) dealing with the uncertainties concerning the Group's significant investments in the Russian Federation. We consider that this matter should be drawn to your attention but our opinion is not qualified in this respect.

# Opinion

In our opinion the financial statements give a true and fair view of the state of affairs of the Company and the Group as at 31 December 1999 and of the profit of the Group for the year then ended and have been properly prepared in accordance with the Companies Act 1985.

# Notes to the financial statements Year ended 31 December 1999

### ١. Basis of preparing the financial statements

(a) The Directors have always recognised that investing in and trading with the Russian Federation has a degree of political, regulatory and economic risk. The Directors pay close attention to the monitoring and management of such risks, particularly in relation to the Group's investments, in order to ensure the Group's continued ability to trade. Having considered these issues the Directors believe it appropriate to prepare the financial statements on a going concern basis. The financial statements do not include any adjustments that would result from the crystallisation of any such risk.

### **(b)** Accounting policies

The financial statements are prepared in accordance with applicable accounting standards. The particular accounting policies adopted are described below.

### (i) Accounting convention

The financial statements are prepared under the historical cost convention.

### (ii) Basis of consolidation

The Group financial statements consolidate the financial statements of the Company and all operating subsidiaries.

### (iii) Acquisitions

On the acquisition of a subsidiary, fair values are attributed to the Group's share of net tangible assets. Where the cost of acquisition exceeds the values attributable to such net assets, the difference is treated as purchased goodwill, and from I January 1998, is capitalised and, where appropriate, amortised over its estimated useful life which it is anticipated will not be more than twenty years. Where the cost of acquisition is less than the values attributable to such net assets, the difference is treated as negative goodwill. Any negative goodwill is recognised in the profit and loss account in the periods expected to benefit. Up to 31 December 1998 all purchased and negative goodwill has been written off or credited to reserves in the year of acquisition. In the year ended 31 December 1999 the negative goodwill relating to the subsidiaries which were sold or ceased trading has been recognised in the profit and loss account.

### Intangible fixed asset (iv)

The distribution agreement is depreciated in equal annual amounts over the period of the agreement, being 10 years. Provision is made for asset impairment if the asset's recoverable amount (the higher of net realisable value and value in use) falls below its carrying value.

### (v) Tangible fixed assets and depreciation

Depreciation is provided on an equal annual instalment basis over the anticipated useful working lives of the assets at the following rates:

Motor vehicles

- at 25% to 50% on cost.

Plant and machinery - at 15% to 25% on cost.

Office equipment

- at 15% to 25% on cost.

Provision is made for asset impairment if the asset's recoverable amount (the higher of net realisable value and value in use) falls below its carrying value.

Mining leases are stated at cost, together with exploration and development expenditure incurred less provision for any impairment to their carrying value.

# (vii)

Except as stated below, investments held as fixed assets are stated at cost less provision for any impairment to their carrying values.

In the consolidated accounts, shares in associated undertakings are accounted for using the equity method. The consolidated profit and loss account includes the Group's share of profits and losses of associated undertakings at or below operating profit and the consolidated balance sheet includes the Group's share of net assets of its associated undertakings within fixed assets investment. The financial results for all of the Group's associated undertakings are based on audited financial statements to 31 December 1999, except for ISE International Furniture Limited, which has an accounting reference date of 30 June, and the unaudited management accounts for the year ended 31 December 1999 have been used.

# Notes to the financial statements (continued) Year ended 31 December 1999

# 1. Basis of preparing the financial statements (continued)

# (b) Accounting policies (continued)

### (viii) Stocks

Stocks and work-in-progress are stated at the lower of cost and net realisable value. In general, cost is determined on a first in first out basis, and includes materials, direct labour and production overheads appropriate to the relevant stage of production. Net realisable value is based on estimated selling price less all further costs to completion and all relevant marketing, selling and distribution costs.

## (ix) Turnover

Turnover represents sales of goods, less returns, and services invoiced to external customers, excluding Value Added Tax.

## (x) Foreign exchange

Transactions of UK companies denominated in foreign currencies are translated into sterling at the average rate. Monetary assets and liabilities of UK companies denominated in foreign currencies at the balance sheet date are translated at the rates ruling at that date. These translation differences are dealt with in the profit and loss account.

The financial statements of UK companies, which report in foreign currencies and foreign subsidiaries, are translated into sterling at the closing rate of exchange for the balance sheet and at the average rate for the profit and loss account. The difference arising from the translation of the opening net investment in subsidiaries at the closing rate is taken direct to reserves.

### (xi) Leases

Rental costs under operating leases are charged to the profit and loss account in equal annual amounts over the periods of the leases.

## (xii) Pensions

A subsidiary company operates a defined contribution scheme, the funds of which are externally invested and held separately from the Company and the Group. The contributions to this scheme are charged to the profit and loss account as they arise. The cost of providing the money purchase scheme for three of the Directors is charged to the profit and loss account as it arises.

Interest on bank loans of £115,000 (1998 - £106,000) and bank charges of £193,000 (1998 - £224,000) have been included in cost of sales as these expenses are trade finance related.

The release of interest payable on minority shareholder's loan of £1,199,000 credit is in accordance with the Deed of Settlement dated 21 October 1999, whereby Sir David Alliance agreed to release the Group from all amounts owing to him in respect of any interest due but unpaid and dividends (Notes 17 and 30).

<del>-</del>	851	(905)

The taxation charge for 1999 is low compared to the profit on ordinary activities before taxation mainly due to profits in overseas subsidiary companies which are not liable for UK corporation tax. The taxation credit for 1998 is low compared to the loss on ordinary activities before taxation mainly due to losses in overseas subsidiary companies which cannot be relieved against UK profits and non-allowable provisions against the carrying value of investments.

The Inland Revenue has raised queries in the year regarding the historical tax affairs of the Group. The enquiries are in their early stages, and the Inland Revenue has not yet indicated whether they intend to raise further assessments. In the circumstances, no provision has been made in respect of this issue. Whilst a liability may crystallise at some time in the future, it is currently too early to predict the outcome of the enquiry.

The bank overdrafts of a subsidiary undertaking and its subsidiaries and associates are secured by a fixed and floating charge over their assets. One of the Company's bank loans, amounting to £nil at 31 December 1999 (1998 - £98,000) is secured on the Company's investment in Riceman Insurance Investments plc. The Group's bank overdrafts and loans amounting to £1,226,000 at 31 December 1999 (1998 - £1,827,000) are secured on trade debtors (Note 16).

The Group's other loans included loans from the then minority shareholders in subsidiaries and were as follows:

Sir David Alliance

- £nil (1998 - £5,084,000). Interest was payable at 8% per annum on £4,348,000 (1998 - £4,217,000) until 16 November 1999, when in accordance with a Deed of Settlement dated 21 October 1999 the US\$7.0 million (£4,348,000) capital amount of the loan note was offset by the transfer to Sir David Alliance of a 5.2% equity interest in Oskol Electrometallurgical Kombinat. Sir David Alliance has agreed to release the Group from all amounts owing to him in respect of any interest due but unpaid and all dividends or entitlement to dividends which in aggregate were US\$1,931,000 (£1,199,000) (Notes 7 and 30).

Wmac Investment Corporation

- £nil (1998 - £686,000) was interest free. In accordance with a Termination
Agreement dated 19 August 1999 the Company agreed to pay US\$320,000
(£199,000) cash and to transfer 0.32% of the 2% equity in Lebedinsky GOK with a
value of US\$480,000 (£293,000) to Wmac Investment Corporation in full and final
settlement of all amounts the Group owed to Wmac Investment Corporation
(Note 30).

Included in other creditors at 31 December 1999 is £9,165,000 (1998 - £2,926,000) due to Oskol Electrometallurgical Kombinat. This amount relates to the payment to be made for the deliveries of steel and direct reduced iron purchased by the Group for resale.

The Deposited Loan Stock 2006 is repayable to the stockholders on 14 days notice.

The amount owing in respect of OEMK option of £4,321,000 (1998 - £nil) is in accordance with the Deed of Settlement dated 21 October 1999 whereby the Company and Sir David Alliance ("Sir David") agreed that the Company would have an option to repurchase the 5.2% investment in OEMK (Note 12) within three years of the transaction being approved by the Company's shareholders at an Extraordinary Shareholders Meeting, which was

held on 16 November 1999, at which the Company's shareholders approved the transaction. Sir David has an option to sell his 5.2% investment in OEMK to the Company at the conclusion of the three years. The exercise of these options would require the Company to pay to Sir David the original purchase price - US\$31.50 per share (US\$7.0 million in aggregate) plus 50% of the excess of the OEMK share price over US\$31.50 per share to a maximum share price of US\$118.50 per OEMK share (Note 30).

The other loan is an unsecured loan of £nil (1998 - £75,000) which was interest free and was redeemable on 30 June 2000. This loan was owed by a subsidiary company, which was disposed of with effect from 30 November 1999 (Note 30).

### 19. Financial instruments

The Group has in this Annual Report formally adopted FRS 13 (Derivatives and Financial Instruments: Disclosures) issued by the Accounting Standards Board. The disclosure as required by FRS 13 has a limited impact on the Group as its investment and trading activities are funded by shareholders' funds. The Group's only derivative is the call/put option to re-acquire a 5.2% interest in OEMK (Note 30) and the Group does not trade in financial instruments. Short term debtors and creditors have been excluded from all FRS 13 disclosures, with the exception of the currency risk disclosures.

The Group's treasury policies and debt financing operations are:

- i) Funds generated by the trading activities, surplus to immediate financing requirements, are held on either current accounts or short term deposit accounts, until required to settle liabilities.
- ii) The only debt is trading related, whereby in certain instances, short-term bank loans and overdrafts, secured on trade debtors, are used to finance working capital of the trading operation.

# a) Currency risk

The Group publishes its financial statements in sterling, which is also the currency in which the majority of its administrative expenses are denominated. The majority of its investment and trading operations are conducted in UK and overseas subsidiaries which report in US dollars as this is the currency in which their investment and trading activities to gross margin level and related fixed and current assets and current liabilities are denominated in. As a result, the Group is subject to foreign currency exchange gain/loss due to exchange rate movements between sterling and US dollars which will affect the Group's transaction costs and the translation of the results and underlying net assets of these subsidiaries. The £1 - US dollar exchange rates used in preparing the financial statements were: average – US\$1.61 (1998 – US\$1.66) and year end – US\$1.61 (1998 – US\$1.66).

The Group's net investment in operations as at 31 December 1999 denominated in US dollars was £7.3 million.

The following analysis of net monetary liabilities shows the Group's currency exposures. The amounts shown represent the transactional exposures that give rise to the net currency gains and losses recognised in the profit and loss account. Such exposures comprise the monetary assets and monetary liabilities of the Group which are not denominated in the functional currency of the operating unit involved as at 31 December 1999.

### b) Interest rate risk

At 31 December 1999, the currency and interest rate profile of the financial assets and liabilities of the Group was as follows:

£000         Sterling       2,553         US dollar       2,938	Financial assets	1999

The estimated fair values shown above have been calculated on the basis that cash and short term deposits and bank overdrafts and loans are all cash. The comparative other loans and long term borrowings have all been fair valued at their net carrying amount as they were all settled in 1999. The fair value of the call/put option has been calculated using market rates prevailing at the year end.

7 December 1999	135,067,706	338	Rights issue
7 December 1999	135,067,706	337	Placement

A circular dated 21 October 1999 was sent to all the Company's shareholders setting out the details of a one for six rights issue at 0.75p per share underwritten 50% by Oskmet AG (a company controlled by OEMK (Note 30)) and 50% by LebGOK Trading AG (a company controlled by Lebedinsky). In the event the underwriting monies were not fully utilised in taking up the rights issue shares then the underwriters agreed to subscribe for such number of shares at 0.75p per share to utilise the balance. At the Extraordinary General Meeting held on 16 November 1999 the Company's shareholders approved the transactions. The last date of acceptance was 7 December 1999 and valid acceptances were accepted in respect of 96,124,774 new shares (approximately 71.2% of the shares on offer). The remaining 38,942,932 shares were placed by the Company's stockbroker's Hichens, Harrison & Co plc. The underwriting monies were not utilised for the rights issue and 135,067,706 new shares at 0.75p were issued, the recipients of these shares have agreed not to dispose of their respective shareholdings for a period of three years, save with the consent of the Company's stockbrokers. The shares were allotted for cash and the proceeds were used to fund the transactions as set out in the circular to the Company's shareholders dated 21 October 1999 and for working capital.

The Deed of Settlement dated 21 October 1999 sets out the details of the Warrant Instruments which were executed as deeds of the Company following the Company's shareholders' approval at the Extraordinary General Meeting held on 16 November 1999. The terms of the Warrant Instruments are that Sir David Alliance and Oskmet AG (a company controlled by OEMK (Note 30)) are entitled to subscribe for 20 million new shares in the Company each at a price of 1.5p per share during a three year subscription period commencing on the 16 November 1999. Any warrants outstanding thereafter will lapse.

The following options to subscribe for ordinary shares have been granted under the Executive Share Option Scheme, and the Executive and Employee Share Incentive Schemes ("the Option Schemes") to 19 employees:

# Major non-cash transactions

In accordance with the Deed of Settlement dated 21 October 1999 the US\$7 million Revenant Limited loan note

#### Consolidated cash flow statement (continued) 25

# Major non-cash transactions (continued)

owing to Sir David Alliance was offset by the transfer to Sir David Alliance of a 5.2% equity interest in OEMK. Sir David Alliance also agreed to release the Group from all amounts owing to him in respect of interest due but unpaid and all dividends proposed but unpaid. In accordance with the option arrangements with Sir David Alliance whereby the Company can repurchase the 5.2% equity investment in OEMK in the next three years, the investment has been retained on the consolidated balance sheet under fixed assets and there is a corresponding creditor: amount falling due after more than one year (Note 30).

In accordance with a Termination Agreement dated 19 August 1999 the Company agreed to pay on behalf of Swan Metals (Jersey) Limited US\$320,000 cash and to transfer 0.32% of the 2% equity investment in Lebedinsky GOK with a deemed value of US\$480,000 in full and final settlement of all amounts owing to Wmac Investment Corporation ("Wmac"). On 30 September 1999 an associated company of Wmac – Leucadia National Corporation agreed to transfer back to the Company the 0.32% of the 2% equity investment in Lebedinsky in settlement of a US\$120,000 financial service fee it owed to the Company (Note 30).

#### Commitments 26.

In accordance with a steel supply and pre-export agreement the Group is committed to purchase, from OEMK, steel for immediate re-sale to customers, of up to £nil at 31 December 1999 (1998 - £15,060,000).

The Company has a commitment of US\$6,988,000 (£4,340,000) being the maximum possible undiscounted future liability it is to incur on the exercise of the options it has with Sir David Alliance (Note 30). The fair value of this option is disclosed in Note 19(c).

At 31 December 1999 the Company had a commitment to purchase for cash, by no later than 31 May 2000, 1,225,000 ordinary shares of US\$1 each in Middlesex OEMK plc from Sir David Alliance at par (Note 30). This commitment was completed on 31 May 2000 with the purchase of the shares.

At 31 December 1999 the Group and Company had no capital commitments (1998 - £nil).

# Contingent liabilities and guarantees

Oskmet (UK) Limited's ("Oskmet") bank has a charge over all its assets as security for any borrowings which Oskmet may have from the bank. The Borrowings under their facility at 31 December 1999 were £nil (1998 - £538,000).

Middlesex OEMK plc and Oskmet have a cross guarantee for bank borrowings of up to £7,764,000 at 31 December 1999 (1998 - £7,530,000).

Wolff Steel Limited has provided guarantees in respect of bank borrowings of two of its associated undertakings. At 31 December 1999 the maximum liability under the guarantees was approximately £1.8 million (1998 - £1.6 million). At 31 December 1999 £1,300,000 (increased to £1,350,000 subsequent to 31 December 1999) was held on a fixed deposit account as security for part of the guarantees of £1,242,000 (Note 25). £250,000 of the guarantees of approximately £1.8 million has been released subsequent to 31 December 1999.

The Company has guaranteed the bank loans and overdraft of one subsidiary amounting to £1,226,000 (1998 – two subsidiaries - £1,827,000).

# Operating lease commitments

At 31 December 1999, Sir David Alliance, holds 1,225,000 ordinary shares representing 12.25% of the issued ordinary shares of US\$1 each of Middlesex OEMK plc. In accordance with the Deed of Settlement dated 21 October 1999 signed by the Company, Sir David Alliance, Revenant Limited, Middlesex OEMK plc and Oskmet AG (the "Deed of Settlement") Sir David alliance sold 1,225,000 ordinary shares representing 12.25% of the issued ordinary shares of US\$1 each of Middlesex OEMK plc, to the Company at par, on 30 November 1999. The Company was committed by 31 May 2000 to the purchase of the 1,225,000 ordinary shares representing the 12.25% it did not already own of the issued ordinary shares of US\$1 each of Middlesex OEMK plc from Sir David Alliance at par at 31 December 1999. This commitment was completed on 31 May 2000 with the purchase of shares (Note 26). In 1998 a loan note which Sir David Alliance had advanced to Middlesex OEMK plc was repaid. The loan note accrued interest of 10% per annum and £111,000 was paid to Sir David Alliance in 1998.

At 31 December 1999, Middlesex OEMK plc owed to Oskol Electrometallurgical Kombinat ("OEMK") £2,958,000 (1998 - £1,155,000). At 31 December 1999, Middlesex OEMK plc owes to Oskmet AG £491,000 (1998 - £nil). Up to 16 November 1999 Oskmet AG, a company controlled by OEMK, held 2,450,000 ordinary shares representing 24.5% of the issued ordinary shares of US\$1 each and 50,000 "A" ordinary shares representing 100% of the issued "A" ordinary shares of Middlesex OEMK plc. In accordance with the Deed of Settlement dated 21 October 1999 Oskmet AG sold 2,450,000 ordinary shares representing 24.5% of the issued ordinary shares of US\$1 each and 50,000 "A" ordinary shares representing 100% of the issued "A" ordinary shares of £1 each of Middlesex OEMK plc to the Company at par on 16 November 1999. Oskmet AG provided administrative services to the Group for the period 1 January to 16 November 1999 for which it is due to receive a dividend from Middlesex OEMK plc on its 'A' ordinary shares of 10% of the profit being £184,000 (1998 - £55,000). Middlesex OEMK plc's 100% subsidiary Oskmet (UK) Limited has purchased, for resale, £82,352,000 (1998 - £62,267,000) worth of steel products from OEMK in the year ended 31 December 1999.

At 31 December 1999, Oskmet (DRI) Limited owed to OEMK £3,637,000 (1998 - £1,283,000). Oskmet (DRI) Limited has purchased, for resale, £12,775,000 (1998 - £23,154,000) worth of direct reduced iron product from OEMK in the year ended 31 December 1999.

At 31 December 1999, the Company owed to OEMK £2,077,000 (1998 - £488,000) and owed to Oskmet AG £1,985 (1998 - £nil).

The Deed of Settlement dated 21 October 1999 sets out the details of the Warrant Instrument which were executed as deeds of the Company following the Company's shareholders' approval at the Extraordinary General Meeting held on 16 November 1999. The terms of the Warrant Instruments are that Sir David Alliance and Oskmet AG are entitled to subscribe for 20 million new shares in the Company each at a price of 1.5p per share during a three year subscription period commencing on 16 November 1999. Any warrants outstanding thereafter will lapse (Note 20).

Oskmet AG acted as a 50% underwriter in the Company's one for six rights issue as set out in the circular dated 21 October 1999 and which was approved by the Company's shareholders at the Extraordinary General Meeting held on 16 November 1999. As a result of the rights issue being 100% subscribed none of the underwriting monies were applied for that purpose; instead the underwriters subscribed for new shares in the Company at 0.75p per share, resulting in Oskmet AG acquiring 67,533,853 shares in the Company (Note 20).

In accordance with a Termination Agreement dated 19 August 1999 signed by the Company, Leucadia National Corporation ("Leucadia"), Wmac Investment Corporation ("Wmac") and Swan Metals (Jersey) Limited ("Swan") it was agreed to terminate the Swan Shareholders' Agreement. Swan undertook aluminium trading in Tajikistan, which ceased in 1996 and has not undertaken any new business since then. Swan was owned 60% and 40% by Middlesex and Wmac, respectively. Middlesex on behalf of Swan agreed to pay US\$320,000 (£199,000) cash and transferred 0.32% of the 2% equity investment it has in Lebedinsky GOK with a deemed value of US\$480,000 (£293,000) (Notes 12 and 25) in full and final settlement of the shareholder's loan by Wmac to Swan (Note 17). As part of this agreement Middlesex acquired Wmac's 40% equity interest in Swan for a nominal consideration of US\$1. On 30 September 1999 Leucadia transferred the 0.32% of the 2% equity investment it had acquired in Lebedinsky GOK back to the Company in settlement of a US\$120,000 (£73,000) financial service fee it owed to the Company (Note 12).

In accordance with the Deed of Settlement dated 21 October 1999 the loan note of US\$7 million, which Sir David Alliance had advanced to Revenant Limited ("Revenant"), was settled by the transfer, at cost, of a 5.2% equity interest in Oskol Electrometallurgical Kombinat ("OEMK") reducing Revenant's holding from 14.5% (carrying value -£11,726,000) to 9.3% (£7,521,000). The Company retains an option to repurchase the shareholding at cost within three years from 16 November 1999 being the date the transaction was approved by the Company's shareholders at an Extraordinary General Meeting. Sir David Alliance has an option to sell his shareholding, at cost, to the Company at the conclusion of the three years. The exercise of the options would require the Company to pay to Sir David Alliance 50% of the excess of the share price over US\$31.50 per OEMK share to a maximum of US\$118.50 per

OEMK share. Sir David Alliance has also waived the accrued but unpaid interest on his loan note and declared but unpaid dividend by Revenant. As part of the agreement the Company acquired Sir David Alliance's 40% equity interest in Revenant for a nominal sum of US\$1. The Company has also agreed not to dispose or pledge in whole or in part without the prior consent of Sir David Alliance, any of its 36% equity investment in Afon Tinplate Company Limited until the date which is the first anniversary date of the date of the exercise of the options save in the event the Company wishes to sell the whole or part of its shareholding in Afon Tinplate Company Limited upon the exercise of the options (Notes 7,12,17,18,19 and 26).

Mukand International Limited, which owns the other 50% shareholding in Wolff Pipelines Limited, which was a subsidiary of the Group, as the Group had total management control, has advanced an unsecured loan to Wolff Pipelines Limited of £75,000 which is interest free and is redeemable on 30 June 2000.

On 7 August 1998 the Company disposed of its 45% equity interest in Agrifarm International Limited ("Agrifarm") for a cash consideration of £17,000. In addition M A Alikhani procured the repayment to the Group by Agrifarm of £633,000 in full and final settlement of the shareholder's loan due to the Group.

The Company owned a 23.3% equity interest in Dominion Energy PLC during the period 1 January 1998 to 6 October 1998 (date shareholding disposed of). During this period the Group received £36,000 for accounting and other services

#### Events occurring after the end of the year 31.

Reduction of investment in CTSC MIFK Interfin ("Interfin")

On 2 February 2000 the Company announced that as part of the financial restructuring of Interfin, it had disposed of half of its 40% investment in Interfin for a cash consideration of Russian Roubles 1 million (approximately US\$40,000). The Company had fully provided for the cost of this investment (originally £274,000) in its 1998 financial statements.

#### Creation of Europe-Steel.com plc ("Europe-Steel") (b)

On 7 February 2000 the Company announced that it had agreed to co-operate with Gazprominvestholding, a wholly-owned subsidiary of OAO Gazprom to invest in e-commerce opportunities in Russia, the rest of the CIS and Eastern Europe. OAO Gazprom is a Russian integrated energy company and accounts for 25% of world gas production, representing about 8% of Russia's gross national product. The venture will build upon the Company's existing business base in steel trading. Europe-Steel was formed as a 50:50 venture with initial share capital of £550,000 to develop an e-commerce platform to trade steel products from mills in Russia and in due course the reminder of the CIS and Eastern Europe. Europe-Steel is to develop a dedicated web-based market allowing steel producers in Russia, CIS and Eastern Europe to access their customers worldwide. Europe-Steel's site, which will be bilingual in Russian and English, will offer a real time price and trading facility as well as product and service information. Europe-Steel believes that its site will offer producers access to new customers, cut costs, improve customer service and so help them combat the falling profitability caused by cyclical prices.

On 16 March 2000 the Company announced that Information Services Group ("Interfax Group") had subscribed for 11.2% and Hatch Associates Limited ("Hatch Beddows") had subscribed for 0.5% of Europe-Steel. Interfax Group is a leading world-wide provider of business, financial and political news with special emphasis placed on the emerging markets of Europe and Asia. The Interfax Group focuses on supplying company and industry profiles, research, news from oil and gas, metal and mining, insurance, telecommunications, agricultural and other major corporate sectors. Hatch Beddows is a leading consultant to the mining, metallurgical, energy and infrastructure industries world-wide and it will be advising Europe-Steel on all matters concerning the development of the website and the establishment of the trading platform. Arrangements had been made for Europe-Steel to raise £650,000 by means of a placing of 1,300,000 new ordinary shares of 1p each at 50p per share representing 10.2% of the enlarged issued share capital of Europe-Steel and an application would be made for Europe-Steel's issued ordinary shares to be traded through OFEX.

On 6 April 2000 the Company announced that the placement of £650,000 at 50p per share had been successfully completed, giving Europe-Steel a value of over £6.5 million, and that trading on OFEX was to commence on that day. Following the placement the Company has a 39.3% investment in Europe-Steel. By the end of June 2000 Europe-Steel's site will carry comprehensive data on the Russian steel market and by the end of 2000 it will offer an online trading facility.

# Creation of venture with Lebedinsky GOK ("Lebedinsky")

On 10 April 2000 the Company announced that it had formed a new venture with Lebedinsky to market and sell Lebedinsky's iron ore products and other supplies to the global market and will purchase raw materials and inputs for Lebedinsky and other iron ore mining companies in the CIS.
