**Notes to the Abridged Financial Statements
for the year ended 31 December 2001**

1. Accounting Policies

1.1. Accounting convention

The financial statements are prepared under the historical cost convention

The company has taken advantage of the exemption in FRS1 from the requirement to produce a cashflow statement because it is a small company.

1.2. Turnover

Turnover represents the total invoice value, excluding value added tax, of sales made during the year.

1.3. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Plant and machinery	-	8 years
Fixtures, fittings and equipment	-	8 years
Motor vehicles	-	5 years

1.4. Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period.

1.5. Pensions

Pension benefits are funded over the employees' period of service by way of contributions to a Defined Contribution Scheme. The company's annual premiums are paid in accordance with the rules of the scheme and are charged to the profit and loss account as the related expenditure is incurred.
