[illegible]	• The purpose of each of the Administrations was to achieve a better result for that Company's creditors as a whole than liquidations

[illegible]	• Trading ceased on 30 June 2015. In the subsequent period, most of the outstanding trading liabilities have been settled and receipts collected An estimated trading surplus of £4 3m has been generated across the Trading Companies
	• Debtor collections have continued, with pre administration book debt recoveries in the period of £6 9m and total recoveries now exceeding £45m in PPX Europe, and £24m in TPC These debts were assigned to the Secured Creditors who have both been repaid in full (£22 8m to RBSIF and £40 4m to ING), with the surpluses being available to the administration estates

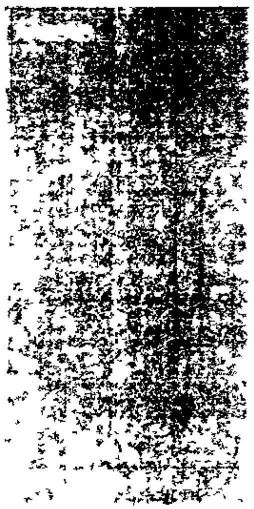
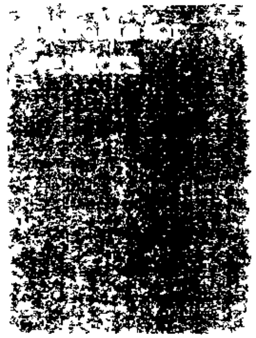
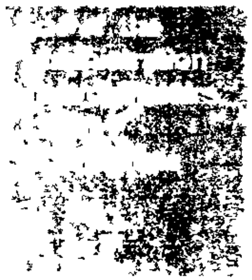
Commentary



- The basis on which the Administrators were to be paid was fixed by reference to time costs for the Trading Companies, PPX Europe, PPX Investments and PPX Treasury
- The basis on which the Administrators were to be paid for Contract Paper Limited, Howard Smith Paper Limited, Paperlinx (UK) Limited, Paperlinx Brands (Europe) Limited, Pinnacle Film & Board Sales Limited, Precision Publishing Papers Limited, Robert Horne UK Limited, Trade Paper Limited, The M6 Paper Group Limited, Sheet and Roll Convertors Limited and W Lunnon & Company Limited was approved as a fixed fee of £25,000 plus VAT for each company, to be drawn if and when funds permit
- The Administrators' total time costs incurred across all companies, where fees are being paid on a time cost basis, during the period was £1,405,198, bringing the total to date for the administrations to £6,628,327
- The Administrators have drawn fees of £1,882,396 in the period across the Trading Companies, PPX Investments and PPX Treasury Total fees drawn to date across all Companies are £3,731,250 Further detail on the Joint Administrators' remuneration is on page 15



- The Secured Creditors have been paid in full
- Preferential creditors are expected to be paid in full
- The two defined benefit Pension Schemes have withdrawn their claims against TPC, materially improving dividend prospects for creditors of TPC
- Given the intercompany claims, which effectively move some of the realisations between the Companies, unsecured creditors of all of the Companies are likely to receive a dividend The dividend rate is likely to vary significantly between the Companies and will be dependent on the level of recoveries additionally received from PPX NL Holdings (the recoveries from which flow through intercompany accounts to different PPX UK Companies)



- The period of the administrations was not extended The administrations ended on 3 April 2016 under paragraph 83 Schedule B1 to the Act The Companies are all now in Creditors' Voluntary Liquidation ("CVL"/"Liquidation")
- The Administrators became the Joint Liquidators as agreed in the Proposals
- The Liquidators will look to pay preferential creditor and unsecured creditor dividends in the Liquidations as soon as practicable

5	Following the meeting of creditors on 10 June 2015, Creditors' Committees were formed for TPC, HSPG and RHG No creditors committees were appointed in respect of the remaining companies
6	The basis of the Joint Administrators' remuneration for TPC, RHG and HSPG was fixed by the Creditors' Committees by reference to the time properly given by the Administrators and their staff in attending to matters arising in the administrations calculated at the prevailing standard hourly charge out rates used by Deloitte at the time when the work is performed, plus VAT The Joint Administrators have approval to draw up to 75% of their time costs incurred, plus VAT If they wish to draw time costs in excess of this amount, further specific committee approval is required. Summary of the Joint Administrators' proposals

Progress against the Proposals

	Progress against the Proposals
8 & 9	The Joint Administrators considered that the most effective method to formally conclude the Administration was that the Companies enter Liquidation to enable distributions to be made to preferential and unsecured creditors
10	The Joint Administrators were discharged from liability as per Paragraph 98, Schedule B1 of the Act at the date of conversion to Liquidation

Statutory tasks

During the administrations we have carried out the following tasks which primarily relate to fulfilment of statutory and compliance obligations and other tasks of an administrative nature

- case set-up and management
- statutory reporting and appointment notifications
- correspondence and CDDA reporting
- case reviews, cashiering functions and closing preparation

These tasks are a necessary part of the engagement but do not generate any direct financial benefit for creditors

Trading

As previously reported, trading ceased on 30 June 2015 and has to date generated a trading surplus of c£4 3m across the Trading Companies There remain some trading liabilities to settle (insurance, rates, electricity) which may reduce this surplus Further breakdown of the trading outcome can be found in Appendix A

Business Sales

No further business sales were completed in the period

However, as part of the sale of the Independents, tax losses were to be group relieved for additional consideration As a result, £162k has been released in the period (total to date £700k) The Liquidators are also in discussions to group relieve further losses to the Independents which may generate additional recoveries

In addition, under an intercompany debt settlement agreement reached with PaperlinX Ireland, c£5k is to be received each month until 31 May 2017

Property

The Birmingham property held by TPC has been sold in the period for £149k A small rent debt from the tenant is outstanding and is being pursued by the Liquidators

Following the insolvency of the existing tenant and the sale of its business to Palletways (UK) Ltd, a new lease is in the process of being incepted (with Palletways (UK) Ltd) for RHG's property in Cumbernauld Once this lease is signed, the property will be marketed for sale as an investment property with the benefit of the tenancy

Debtors

Debtor collections have continued, with pre administration book debt recoveries in the period of £6 9m and total recoveries now exceeding £45m in PPX Europe and £24m in TPC These debts were assigned to the Secured Creditors who, as was reported in the last report, have both been repaid in full (£22 8m to RBSIF in respect of the TPC debtors, and £40 4m to ING in respect of PPX Europe), with the surpluses being available to the administration estates

Moreton Smith Receivables Ltd ("MSR") has been instructed to finalise collection of the remaining balances, with Shoosmiths LLP also continuing to work on specific cases where legal disputes had arisen before the appointment of MSR

Other assets

Trademarks owned principally by RHG and PPX Brands have been sold in the period generating realisations in the period of £137k (total £186k) Metis Partners Limited ("Metis") acted as our agents in arranging the brand sales

The final sales of plant and machinery and office equipment (managed by Hilco Appraisal Ltd acted as our agents) completed at the start of the period generating further realisations of £100k

Intercompany claims

Recoveries of between £10m to £15m (dependent on the outcome of some material claims) from the insolvency of PPX NL Holdings, are anticipated between PPX Treasury and PPX Europe However, the timing of receipt is uncertain and once received the funds will flow through the waterfall of intercompany claims to other of the UK Companies

Receipts and payments account

Receipts and payments accounts are provided in Appendix A The transactions are for the period of the administrations along with notes to the receipts and payment account

Information for creditors

Secured Creditors

RBSIF was the secured creditor of TPC by way of fixed and floating charges granted in May 2010 and July 2014 RBSIF was paid £22 8m in full settlement of its secured claim at the end of June, and has since granted a release

ING was treated as a secured creditor of PPX Europe due to its ownership of the RHG and HSPG debtor books It was paid in full at the end of July with secured distributions totalling £40 4m Again, the security has since been released

Preferential creditors

TPC Claims totalling c £257,000 have been received

RHG Claims totalling c £296,000 have been received

HSPG Claims totalling c £101,000 have been received

No distribution to preferential creditors has been made to date, but the Liquidators expect to be in a position to pay preferential creditors in full within the next six months, subject to the claims being agreed

None of the other companies have received, or are expected to receive, any preferential claims

Prescribed Part

The Prescribed Part does not apply in any of the PPX UK companies, as there are no remaining creditors secured by way of floating charges

Unsecured creditors and Creditors' Committees

We have maintained a regular dialogue with the PPF in respect of the claim of the two defined benefit Pension Schemes Initially, a joint and several claim of £180m was submitted in each of TPC, RHG and HSPG On the basis of its current advice, the PPF has withdrawn its claim against TPC

The current submitted claims are £153m in RHG and £27m in HSPG, albeit both claims are expected to rise when final assessments are raised

The withdrawal of the PPF's claim in TPC will have a material impact on the dividend available to unsecured creditors of TPC

HMRC has submitted an £8 5m group claim in respect of VAT, where the Companies have joint and several liability We currently anticipate that (with the anticipated receipt from PaperlinX NL Holdings) this group VAT claim should be paid in full, and as such the marshalling of this claim is currently being considered

Information for creditors
Outcome

Claims process

Unsecured creditors are invited to submit their claims to the Liquidators by completing a proof of debt form which is available on the website and which should be sent to the address on page 5, marked for the attention of Paperlinx If you have submitted a claim in the Administrations you do not need to submit a claim in the Liquidations

The Administrators started work to agree creditor claims and this will be continued by the Liquidators

The Liquidators will consider if it is appropriate to make an interim distribution to creditors during 2016, or whether distributions should be delayed until the receipt of the dividend from Paperlinx NL Holdings

The Liquidators expect to give more details on dividend prospects by company in their first report expenses

Review of transactions

Since the last report to creditors, the Administrators have reviewed the receipts and payments accounts of all the Companies to ensure costs are matched to associated realisations, and costs and realisations are appropriately allocated between companies and categories As a result of this review, a number of reallocations have been made within the trading accounts and across the Companies receipts and payments accounts

Allocation of trading profit and debt collection costs

General Trading Notes

Reallocation (from trading) of costs relating to debt collection process

Included within the trading costs are £595k of costs that relate to the maintenance of the credit control function in Northampton to collect the pre administration trade debtors These costs have been apportioned in accordance with the total book debts at the date of administration, 60% to PPXE and 40% to TPC

Allocation of trading profit / costs

In the Joint Administrators' Proposals trading accounts were shown separately for RHG, HSP and TPC However, as noted in subsequent reports, during the course of the administrations it become apparent that this resulted in trading costs and realisations falling largely into which ever entity the invoices were raised to/from In practice, the businesses (both before and after administration) had a level of mutual reliance and cost sharing

As such the Administrators have considered it appropriate that all trading receipts and payments should be shown in one trading account, with the resulting trading surplus being split between the four trading entities, being RHG, TCP, HSPG, and PPXSE

Trading profit has been allocated between the four trading entities based on % of opening stock held (by TPC, RHG and HSPG) and to give a mark up on costs paid by PPXSE and to recognise it had its own sales income during the administration (from third party storage services it provided)

Allocation of trading profit and debtor collection costs	%	Profit Allocation	Debtor cost Allocation	Net

Joint Administrators' trading account for TPC, RHG, HSPG and PPXSE from 1 April 2015 to 3 April 2016

Notes

In the Joint Administrators' proposals trading accounts were shown separately for RHG, HSP and TPC However, as noted in subsequent reports, during the course of the administrations it become apparent that this resulted in trading costs and realisations falling largely into which ever entity the invoices were raised to/from In practice, the businesses (both before and after administration) had a level of mutual reliance and cost sharing As such the Administrators have consider it appropriate that all trading receipts and payments should be shown in trading account, with the resulting trading surplus being split between the four trading entities, being RHG, TCP, HSPG, and PPXSE

Since the last report to creditors the Administrators have reviewed the receipts and payments accounts of all the Companies to ensure costs are matched to associated realisations, and costs and realisations are appropriately allocated between companies and categories As a result of this review, a number of reallocations have been made within the trading accounts and across the Companies receipts and payments accounts

1 Suppliers collecting their stock paid a pallet collection charge to contribute towards the costs incurred by the Administration estates in holding open the sites

2 At appointment the UK companies still maintained the payroll for Northern Irish employees This was subsequently passed to PPX Ireland, but until such time the Administration estates were reimbursed for this cost

3 Licence fees charged to the buyers' of the business are included as trading costs as the matching rental cost is included as a trading cost In the last reported trading account this receipt was not included within trading However, the associated rental (and ancillary) costs incurred that relates to these receipts is now also included within the trading account The net position on licence fees and rental costs is nil

4 Included within the trading costs are £595k of costs that relate to the maintenance of the credit control function in Northampton to collect the pre administration trade debtors These costs have been apportioned in accordance with the total book debts at the date of administration, 60% to PPXE and 40% to TPC

5 Trading profit has been allocated between the four trading entities based on % of opening stock held (by TPC, RHG and HSPG) and a to give a mark up on costs paid by PPXSE and to recognise it had its own sales income during the administration (from third party storage services it provided)

Receipts and Payments Accounts

The Paper Company Limited

Receipts and payments account for the period 1 April 2015 to 3 April 2016

Notes

Since the last report to creditors, the Administrators have reviewed the receipts and payments accounts of all the Companies to ensure costs are matched to associated realisations, and costs and realisations are appropriately allocated between companies and categories. As a result of this review, a number of reallocations have been made within the trading accounts and across the Companies receipts and payments accounts

1 In the Joint Administrators' proposals trading accounts were shown separately for RHG, HSP and TPC. However, as noted in subsequent reports, during the course of the administrations it become apparent that this resulted in trading costs and realisations falling largely into which ever entity the invoices were raised to/from. In practice, the businesses (both before and after administration) had a level of mutual reliance and cost sharing. As such the Administrators have consider it appropriate that all trading receipts and payments should be shown in trading account, with the resulting trading surplus being split between the four trading entities, being RHG, TCP, HSPG, and PPXSE

The "Trading Profit" shown is less the debt collection costs allocated to TPC and RHG (as more fully explained in the note 4 on the Trading Account")

2 Movement in period relates to reallocation to other entities as noted above

3 TPC's book debts were subject to an invoice finance arrangement with RBSIF. RBSIF has been repaid in full and the debts reassigned to TPC. For transparency, debtor recoveries have been shown gross, and the settlement of RBSIF has been shown on the R&P, albeit these monies were received directly into trust accounts and it is only the debtor surplus that as been passed to the Administrators

4 Any intercompany loans receivable or payable largely arise following the reallocation of trading profits, transfer of book debt receipts and costs from RHG and HSPG to PPXE, and the general review of receipts and payments accounts. These funds will be transferred between the companies in due course

Receipts and Payments Accounts

Paperlinx Services (Europe) Limited

Receipts and payments account for the period 1 April 2015 to 3 April 2016

Notes

Since the last report to creditors, the Administrators have reviewed the receipts and payments accounts of all the Companies to ensure costs are matched to associated realisations, and costs and realisations are appropriately allocated between companies and categories As a result of this review, a number of reallocations have been made within the trading accounts and across the Companies receipts and payments accounts

1 In the Joint Administrators' proposals trading accounts were shown separately for RHG, HSP and TPC However, as noted in subsequent reports, during the course of the administrations it become apparent that this resulted in trading costs and realisations falling largely into which ever entity the invoices were raised to/from In practice, the businesses (both before and after administration) had a level of mutual reliance and cost sharing As such the Administrators have consider it appropriate that all trading receipts and payments should be shown in trading account, with the resulting trading surplus being split between the four trading entities, being RHG, TCP, HSPG, and PPXSE

2 Any intercompany loans receivable or payable largely arise following the reallocation of trading profits, transfer of book debt receipts and costs from RHG and HSPG to PPXE, and the general review of receipts and payments accounts These funds will be transferred between the companies in due course

1 The "Debt Collection Costs" under this heading represent the allocation of trading costs related to the operation of the credit control operations until 16 October 2015 See note 4 of the Trading Account for further details

2 As noted in the reports, the book debts of RHG and HSPG were assigned to PPXE and then assigned further by PPXE to ING INGF has been repaid in full and the debts reassigned to PPXE For transparency, debtor recoveries have been shown gross, and the settlement of ING has been shown on the R&P, albeit these monies were received directly into trust accounts for ING and it is only the debtor surplus that as been passed to the Administrators

3 Any intercompany loans receivable or payable largely arise following the reallocation of trading profits, transfer of book debt receipts and costs from RHG and HSPG to PPXE, and the general review of receipts and payments accounts These funds will be transferred between the companies in due course
