#### DIRECTORS' REPORT

The directors present their report and the financial statements for the year ended 31 March 2007

### Business review and principal activities

The company is a wholly owned subsidiary of Severn Trent (W&S) Limited

The company's principal activities are providing consultancy and management services to its worldwide customer base. The directors are not aware of any likely major changes in the company's activities in the next year.

As shown in the company's profit and loss account on page 8 the company's sales have increased by £682,000 to £2,390,000 and reflects the value of work undertaken on consultancy and management projects. The profit after tax has decreased by £672,000 to £338,000. Of this reduction £1,993,000 related to the prior year's recovery of bid costs. The profit after tax also benefits from an improved tax position.

The balance sheet on page 9 shows net assets are consistent with the prior year. The cash position has increased by £5,541,000 to £10,658,000. The majority of this movement was caused by the repayment of loans received from Severn Trent Plc and Severn Trent (W & S) Limited, together £3.678,000.

Other KPI's focus on health and safety standards where statistics are monitored to include RIDDOR's (Reporting of Injuries, Diseases and Dangerous Occurrences) (2007 0, 2006 0), non RIDDOR injuries (2007 0, 2006 1), and near misses (2007 6, 2006 4)

#### Principal risks and uncertainties

Competitive pressure from around the world puts continuing pressure on the business' order book. To ensure the order book is maximised the business works closely with key clients which include the World Bank, the European Bank for Restructuring and Development (EBRD), the Asian Development Bank (ADB), various European Union bodies, the Department for International Development (DFID) and the Swedish International Development Agency (SIDA). Longer term management contracts provide the company with the stability which helps mitigate this risk, e.g. Jordan - NGWA contracts

The company does have contracts in various currencies which provides exposure to movements to the pound exchange rate. Currently, management do not judge these to be of sufficient exposure to require specific hedging instruments to be put in place.

#### Results and dividends

The profit after taxation for the year amounted to £338,000 (2006 £1,010,000)

During the year the company did not pay a dividend (2006 fmil)

#### Future developments

Marketing activities in the future will continue to be centred on the worldwide consultancy business and key territories in Europe, looking to expand the company's longer term management contracts

#### **DIRECTORS' REPORT (continued)**
