## Strategic report

### Business review and principal activities

The company is a wholly owned subsidiary of Severn Trent Plc

The company does not trade

There have not been any significant changes in the company's principal activities in the year under review. The directors are not aware, at the date of this report, of any likely major changes in the company's activities or prospects in the next year.

The company's loss for the financial year after taxation was £25,000 (2015: £23,000)

The company does not trade and the company's directors do not believe that further key performance indicators for the company are necessary to enhance the understanding of the development, performance or position of the business.

### Principal risks and uncertainties

#### *Treasury management*

The Severn Trent group manages its treasury operations on a group basis. Financial risk management is performed by Severn Trent's Group Treasury department. This includes assessment and mitigation of price risk, credit risk, liquidity risk and interest rate cash flow risk. The group's treasury management policies and operations are discussed in Severn Trent Plc's Annual Report and Financial Statements (which does not form part of this report).

### Going concern and financial position

The directors have considered the financial position and future prospects of the company. The company participates in the group's pooled banking arrangements and receives funding from the Severn Trent group in the form of intra-group loans. When existing loans reach maturity the appropriate funding will be established as required to ensure such obligations can be met. After making enquiries, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the report and annual financial statements.
