Depreciation

Depreciation of fixed assets is provided on a straight line basis at the following annual rates calculated to write off their cost or valuation less any residual value over their estimated useful lives:

Motor vehicles	20% - 25%
Fixtures and fittings	10% - 33%

Leases and hire purchase contracts

Assets which are financed by leasing and similar arrangements that give rights approximating to ownership are capitalised in the balance sheet and are depreciated over their useful lives. Outstanding obligations under such agreements net of interest are included as liabilities within creditors. Deferred taxation

Provision is made for deferred taxation, using the liability method, on all timing differences to the extent that it is probable that a liability or asset will crystallise in the foreseeable future.
