#### STRATEGIC REPORT

#### FOR THE YEAR ENDED 31 DECEMBER 2022

The directors present the strategic report for the year ended 31 December 2022.

#### Review of the business

The result for the year is shown on page 11. The directors are pleased with the operating performance in light of the volatile trading conditions experienced throughout the year that tollowed the outbreak of war in Ukraine during February 2022. This created severe disruption in supply chains still recovering from the pandemic and led to shortages of key raw materials. As in 2021 significant price escalation ensued and this only really subsided towards the end of the year. As a result, operating profit reduced from £4,747,381 to £4,577,980 in 2022 as raw material increases could only be recovered in arrears. The net asset position at the end of the year was £13,876,862 (2021 - £10,722,925).

#### Principal risks and uncertainties

The principal risks and uncertainties for the main two Philmar (Holdings) Limited businesses of Exol Lubricants (Rotherham) Limited and Exol Lubricants Limited are managed together with the subsidiaries of Philmar (Holdings) Limited. We refer to the subsidiaries of Philmar (Holdings) Limited as "the group" or "the Philmar group.

The war in Ukraine: In late February 2022, Russia invaded Ukraine and sent the European base oil markets into a tailspin. Following this event, we saw unprecedented price escalation as the major European players tried to meet the consequential surge in demand amidst rising feedstock prices. Market tightness, however, subsided towards the end of the year and as we stand the costs of energy, fuel and packaging are now at more typical levels.

Product availability and pricing: The group companies' source raw materials and finished goods on a global basis and negotiate with a dedicated strategic supply base established over many years. During 2022 it was necessary to foster new relationships across the world due to supply chain issues in mainland Europe and we believe this will provide benefits to our customers in ensuring continuity of supply for many years to come.

Environmental risks: the group places considerable emphasis upon environmental compliance and in this respect is fully compliant with all aspects of ISO9001 & 14001. We also utilise the expertise of industry partners for specialist areas such as packaging waste.

Credit risk: The group maintains strong relationships with all customers and adheres to established credit control parameters. Appropriate credit terms and limits are agreed with all customers and the continued management of this area continues to be critical as the cost-of-living crisis creates problems for businesses and individuals alike. The group also operates with credit insurance for an element of the customer base.

The effect of legislation or other regulatory activities: The group continually monitors relevant regulation and legislation often with the help of trade bodies such as the UK Lubricants Association.

New product, project, and technology risk: a comprehensive range of products has evolved through anticipating and exceeding the needs of the lubricant sector. All new technologies and products involve business risk but close relationships with our customers and suppliers will always be key to mitigating against this and in 2022 the business was able to launch a number of new products into the market with great success.

All appropriate measures are taken to protect the group's intellectual property rights and minimise infringement.

Litigation: the group is subject to litigation from time to time. The outcome of legal action is always uncertain and may prove more costly and time consuming than anticipated. The Philmar group of companies always perform activities in such a way as to minimise this risk and under certain circumstances legal expenses are covered by insurance.

Competitive risk: all companies operate in increasingly competitive markets. Product and business innovations or technical advances by competitors could adversely affect the group. The diversity of operations and flexibility in the business model reduces the possible impact of action by any single competitor.

Interest rate risk: Working capital is closely managed within both businesses to ensure any financing requirements are minimized at all times. Consequently the increase in interest rates over the past year has been managed without any significant effect on business cash flow.

#### STRATEGIC REPORT (CONTINUED)

#### FOR THE YEAR ENDED 31 DECEMBER 2022

#### Key performance indicators

The following KPI's are part of the tools used by management to monitor the business performance:

<u>KPI</u>	<u>2022</u>	2021	<u>Measure</u>
Return on capital employed	28.5%	43.1%	Profit before tax / net assets
Current ratio	1.45	1.27	Current assets : current liabilities
Stock turnover	16.57	15.37	Cost of sales / stock
Debtors days	68	84	Trade debtors / turnover x 365
Creditors days	13	12	Trade creditors / cost of sales x 365
Sales per employee (£'000)	1,008	831	Turnover / avg number of employees
Operating profit per employee (£'000)	44	47	Operating profit / avg number of employees

#### Other information and explanations

The directors will target further growth in 2023 whilst ensuring the needs of our existing customer base continue to be met with most supplier product allocation restrictions introduced in 2022 now lifted. Following significant investment in the Rotherham site, we will look to exploit the opportunities presented through reduced waste throughout the production process with the installation of a state of the art "pigging" solution which was fully operational in April 2023. Further investment in our fleet of vehicles to ensure compliance with constantly evolving emissions requirements will also be made in 2023 and new lab equipment will further enhance our monitoring and testing capabilities at both sites.

Sales and marketing: In 2023 we will further invest in the latest packaging solutions and will continue to pursue the latest approvals which will support the development of new markets at home and overseas in line with the group's strategy.

Environment: New methods of achieving greater environmental effectiveness are continually being examined and we aim to continue to meet and exceed the standards set out in ISO9001 & 14001. We will embark on the process of gaining accreditation for ISO45001 during 2023.

IT: We will further exploit the opportunities created by our Microsoft Teams conferencing facilities during 2023 in our drive to reduce unnecessary travel. We also upgraded to the latest version of Microsoft GP at the end of Q1 2023 and in doing so further expand the e-commerce solution enjoyed by our customers.

#### Section 172 (1) Statement

The s172(1) statement for the Philmar (Holdings) Limited group is included in the Strategic report of Philmar (Holdings) Limited, the ultimate holding company, and the statement applies equally to all of the group's subsidiaries as the group is managed as one operation.

On behalf of the board

Mr S Everitt **Director** 

10 November 2023

#### **DIRECTORS' REPORT**

#### FOR THE YEAR ENDED 31 DECEMBER 2022

The directors present their annual report and audited financial statements for the year ended 31 December 2022.

#### **Principal activities**

The principal activity of the company continued to be that of the manufacture and distribution of lubricants.

#### Results and dividends

The results for the year are set out on page 11.

No ordinary dividends were paid. The directors do not recommend payment of a final dividend.

#### **Directors**

The directors who held office during the year and up to the date of signature of the financial statements were as follows:

Mr D B Frogson Mr S Everitt Mr Scott Donaldson Mr Stephen Dunn

#### **Auditor**

In accordance with the company's articles, a resolution proposing that PricewaterhouseCoopers LLP be reappointed as auditor of the company will be put at a General Meeting.

#### Energy and carbon report

Exol Lubricants Limited, being a large UK entity under the Companies Act 2006, meet the SECR criteria as set out in the Companies (Directors' Report) and Limited Liability Partnerships (Energy and Carbon Report) Regulations 2018. This report includes energy and carbon information which relates to all group companies.

The SECR comparison below relates to the two main trading entities within the group, all other entities have no emissions.

Energy consumption 2022 2021 kWh kWh
Aggregate of energy consumption in the year 4,090,529 2,988,458

#### **DIRECTORS' REPORT (CONTINUED)**

#### FOR THE YEAR ENDED 31 DECEMBER 2022

Emissions of CO2 equivalent	2022 metric tonnes	2021 metric tonnes
Scope 1 - direct emissions		
- Gas combustion	52.88	62.99
- Fuel consumed for owned transport	547.18 ———	440.19
	600.06	503.18
Scope 2 - indirect emissions		
- Electricity purchased	282.36	254.03
Scope 3 - other indirect emissions		
- Fuel consumed for transport not owned by the	6.11 ———	2.36
Total gross emissions	888.53	759.57
		<del></del>
Intensity ratio		
Per 1000 litres produced	0.015	0.013

#### Quantification and reporting methodology

This report has been compiled in line with the March 2019 BEIS 'Environmental Reporting Guidelines: Including streamlined energy and carbon reporting guidance', and the EMA methodology for SECR Reporting. All measured emissions from activities from which the organisation has financial control over are included as required under The Companies (Directors' Report) and Limited Liability Partnerships (Energy and Carbon Report) Regulations 2018, unless otherwise stated in the exclusions statement. The carbon figures have been calculated using the UK Government GHG Conversion Factors for Company Reporting for all fuels. (https://www.gov.uk/government/publications/greenhouse-gas-reporting-conversion-factors-2020).

#### Intensity measurement

The chosen intensity measurement ratio is total gross emissions in metric tonnes CO2e per 100 litres produced, the recommended ratio for the sector.

#### Measures taken to improve energy efficiency

Energy Efficiency Actions Ongoing and those undertaken through 2022/23:

- Further investment in 2 fuel efficient Scania G450 vehicles and a Scania Highline Euro 6 in 2023.
- Replaced diesel fork-lift trucks with electric Aisle Master 20SHE trucks.
- · Further developed Microsoft Teams conferencing facilities at Wednesbury to prevent unnecessary travel.
- In 2023 the Group will complete the installation of a state of the art "pigging" system at Rotherham, reducing wastage and increasing the efficiency of the blending process.
- Solar panels installed at Wednesbury in 2022 reducing electricity consumption in line with the Groups sustainability strategy.

#### Statement of disclosure to auditor

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information of which the company's auditor is unaware. Additionally, the directors individually have taken all the necessary steps that they ought to have taken as directors in order to make themselves aware of all relevant audit information and to establish that the company's auditor is aware of that information.

#### **Future developments**

Please refer to the future developments section of the strategic report.

## DIRECTORS' REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2022

On behalf of the board

Mr S Everili

10 November 2023

## DIRECTORS' RESPONSIBILITIES STATEMENT FOR THE YEAR ENDED 31 DECEMBER 2022

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- · select suitable accounting policies and then apply them consistently;
- · make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

## Independent auditors' report to the members of Exol Lubricants Limited

#### Report on the audit of the financial statements

#### **Opinion**

In our opinion, Exol Lubricants Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2022 and of its profit and cash flows for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual report and financial statements (the "Annual Report"), which comprise: Balance sheet as at 31 December 2022; Profit and loss account, Statement of comprehensive income, Statement of changes in equity and Statement of cash flows for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

#### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

#### Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the members' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the company's ability to continue as a going concern.

Our responsibilities and the responsibilities of the members with respect to going concern are described in the relevant secons of this report.

# Independent auditors' report to the members of Exol Lubricants Limited (continued)

#### Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The members are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic report and Directors' report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as described below.

#### Strategic report and Directors' report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic report and Directors' report for the year ended 31 December 2022 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic report and Directors' report.

#### Responsibilities for the financial statements and the audit

#### Responsibilities of the members for the financial statements

As explained more fully in the Directors' responsibilities statement, the members are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The members are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the members are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the members either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

# Independent auditors' report to the members of Exol Lubricants Limited (continued)

#### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations related to UK tax legislations, employment laws and regulations, health and safety legislation and anti-bribery and corruption laws, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the financial statements such as the Companies Act 2006 and relevant tax legislation. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting of inappropriate journal entries and management bias in accounting estimates. Audit procedures performed by the engagement team included:

- Auditing the risk of management override of controls, including through testing journal entries and other adjustments for appropriateness, testing accounting estimates (because of the risk of management bias), and evaluating the business rationale of significant transactions outside of the normal course of business.
- Evaluation of management's controls designed to prevent and detect irregularities
- · Reviewing minutes of meetings of those charged with governance to check any non-compliance with laws and regulations
- Reviewing financial statement disclosures and testing to supporting documentation to assess compliance with applicable laws and regulations
- · Incorporating elements of unpredictability

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

## Independent auditors' report to the members of Exol Lubricants Limited (continued)

#### Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

#### Other required reporting

#### Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- · we have not obtained all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- · certain disclosures of members' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Mark Kingsbury (Senior Statutory Auditor)

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

#### 1 Accounting policies

#### Company information

Fxol Lubricants Limited is a private company limited by shares incorporated in England and Wales. The registered office is All Saints Road, Wednesbury, West Midlands, WS10 9LL.

#### 1.1 Accounting convention

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention, [modified to include the revaluation of freehold properties and to include investment properties and certain financial instruments at fair value]. The principal accounting policies adopted are set out below.

The principal accounting policies applied in the preparation of these consolidated and separate financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### 1.2 Going concern

At the time of approving the financial statements, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Thus the directors continue to adopt the going concern basis of accounting in preparing the financial statements.

#### 1.3 Turnover

Turnover is recognised at the fair value of the consideration received or receivable for goods and services provided in the normal course of business, and is shown net of VAT and other sales related taxes. The fair value of consideration takes into account trade discounts, settlement discounts and volume rebates.

When cash inflows are deferred and represent a financing arrangement, the fair value of the consideration is the present value of the future receipts. The difference between the fair value of the consideration and the nominal amount received is recognised as interest income.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer (usually on dispatch of the goods), the amount of revenue can be measured reliably, it is probable that the economic benefits associated with the transaction will flow to the entity and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue from contracts for the provision of professional services is recognised by reference to the stage of completion when the stage of completion, costs incurred and costs to complete can be estimated reliably. The stage of completion is calculated by comparing costs incurred, mainly in relation to contractual hourly staff rates and materials, as a proportion of total costs. Where the outcome cannot be estimated reliably, revenue is recognised only to the extent of the expenses recognised that it is probable will be recovered.

#### 1.4 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2022

#### 1 Accounting policies

(Continued)

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Freehold buildings

Motor vehicles

2% straight line basis

Plant and equipment Fixtures and fittings

10% to 33.3% straight line basis 10% to 33.3% straight line basis

15% to 25% straight line basis

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to profit or loss.

#### 1.5 Impairment of fixed assets

At each reporting period end date, the company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Recognised impairment losses are reversed if, and only if, the reasons for the impairment loss have ceased to apply. Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

#### 1.6 Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the stocks to their present location and condition.

Stocks held for distribution at no or nominal consideration are measured at the lower of cost and replacement cost, adjusted where applicable for any loss of service potential.

At each reporting date, an assessment is made for impairment. Any excess of the carrying amount of stocks over its estimated selling price less costs to complete and sell is recognised as an impairment loss in profit or loss. Reversals of impairment losses are also recognised in profit or loss.

#### 1,7 Cash and cash equivalents

Cash and cash equivalents are basic financial assets and include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2022

#### 1 Accounting policies

(Continued)

#### 1.8 Financial instruments

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company's balance sheet when the company becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

#### Basic financial assets

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

#### Other financial assets

Other financial assets, including investments in equity instruments which are not subsidiaries, associates or joint ventures, are initially measured at fair value, which is normally the transaction price. Such assets are subsequently carried at fair value and the changes in fair value are recognised in profit or loss, except that investments in equity instruments that are not publicly traded and whose fair values cannot be measured reliably are measured at cost less impairment.

#### Impairment of financial assets

Financial assets, other than those held at fair value through profit and loss, are assessed for indicators of impairment at each reporting end date.

Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows have been affected. If an asset is impaired, the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in profit or loss.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been, had the impairment not previously been recognised. The impairment reversal is recognised in profit or loss.

#### Derecognition of financial assets

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire or are settled, or when the company transfers the financial asset and substantially all the risks and rewards of ownership to another entity, or if some significant risks and rewards of ownership are retained but control of the asset has transferred to another party that is able to sell the asset in its entirety to an unrelated third party.

#### Classification of financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

#### NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

#### FOR THE YEAR ENDED 31 DECEMBER 2022

#### 1 Accounting policies

(Continued)

#### Basic financial liabilities

Basic financial liabilities, including creditors, bank loans, loans from fellow group companies and preference shares that are classified as debt, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

#### Other financial liabilities

Derivatives, including interest rate swaps and forward foreign exchange contracts, are not basic financial instruments. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. Changes in the fair value of derivatives are recognised in profit or loss in finance costs or finance income as appropriate, unless hedge accounting is applied and the hedge is a cash flow hedge.

Debt instruments that do not meet the conditions in FRS 102 paragraph 11.9 are subsequently measured at fair value through profit or loss. Debt instruments may be designated as being measured at fair value through profit or loss to eliminate or reduce an accounting mismatch or if the instruments are measured and their performance evaluated on a fair value basis in accordance with a documented risk management or investment strategy.

#### Derecognition of financial liabilities

Financial liabilities are derecognised when the company's contractual obligations expire or are discharged or cancelled.

#### 1.9 Equity instruments

Equity instruments issued by the company are recorded at the proceeds received, net of transaction costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

#### 1.10 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

#### Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2022

#### 1 Accounting policies

(Continued)

#### Deferred tax

Deferred tax liabilities are generally recognised for all timing differences and deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Such assets and liabilities are not recognised if the timing difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting end date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the profit and loss account, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity. Deferred tax assets and liabilities are offset when the company has a legally enforceable right to offset current tax assets and liabilities and the deferred tax assets and liabilities relate to taxes levied by the same tax authority.

#### 1.11 Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of stock or fixed assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the company is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

#### 1.12 Retirement benefits

Payments to defined contribution retirement benefit schemes are charged as an expense as they fall due.

#### 1.13 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessees. All other leases are classified as operating leases.

Assets held under finance leases are recognised as assets at the lower of the assets fair value at the date of inception and the present value of the minimum lease payments. The related liability is included in the balance sheet as a finance lease obligation. Lease payments are treated as consisting of capital and interest elements. The interest is charged to profit or loss so as to produce a constant periodic rate of interest on the remaining balance of the liability.

#### 1.14 Foreign exchange

Transactions in currencies other than pounds sterling are recorded at the rates of exchange prevailing at the dates of the transactions. At each reporting end date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the reporting end date. Gains and losses arising on translation in the period are included in profit or loss.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2022

#### 2 Judgements and key sources of estimation uncertainty

In the application of the company's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

Management does not consider there to be any significant judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses, in the preparation of the financial statements.

	Adjustment in respect of prior periods	-	1,460
	Total deferred tax	19,507	234,287
	Total tax charge	805,318	1,023,368

The actual charge for the year can be reconciled to the expected charge for the year based on the profit or loss and the standard rate of tax as follows:

	2022 £	2021 £
Profit before taxation	3,959,255	4,620,291
Expected tax charge based on the standard rate of corporation tax in the UK of 19.00% (2021: 19.00%)  Tax effect of expenses that are not deductible in determining taxable profit  Tax effect of income not taxable in determining taxable profit  Adjustments in respect of prior years  Effect of change in corporation tax rate  Depreciation on assets not qualifying for tax allowances  Effects of group relief / other reliefs  Rounding differences	752,258 25,071 (12,036) 20,081 2,060 15,452 2,433 (1)	877,855 21,520 - (873) 124,866 - -
Taxation charge for the year	805,318	1,023,368

In the Budget 2020, the government announced that the corporation tax main rate (for all profits except ring fence profits) for the years starting 1 April 2020 and 2021 would remain at 19%. In the Spring Budget 2021, the UK Government announced that from 1 April 2023 the corporation tax rate would increase to 25% (rather than remaining at 19%, as previously enacted). This new law was substantively enacted on 24 May 2021. In the Autumn Statement in November 2022, the government confirmed the increase in corporation tax rate to 25% from April 2023 will go ahead.

Finance lease payments represent rentals payable by the company for certain items of plant and machinery. Leases include purchase options at the end of the lease period, and no restrictions are placed on the use of the assets. The average lease term is between 1 and 3 years. All leases are on a fixed repayment basis and no arrangements have been entered into for contingent rental payments.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2022

#### 19 Deferred taxation

The following are the major deferred tax liabilities and assets recognised by the company and movements thereon:

		Liabilities 2022	Liabilities 2021
	Balances:	£	£
	Accelerated capital allowances	540,530	520,274
	STTD's	(4,840)	(4,091)
		535,690	516,183
			2022
	Movements in the year:		£ 2022
	Liability at 1 January 2022		516,183
	Charge to profit or loss		17,447
	Effect of change in tax rate - profit or loss		2,060
	Liability at 31 December 2022		535,690
20	Retirement benefit schemes		
		2022	2021
	Defined contribution schemes	£	£
	Charge to profit or loss in respect of defined contribution schemes	141,276	129,112

The company operates a defined contribution pension scheme for all qualifying employees. The assets of the scheme are held separately from those of the company in an independently administered fund. At the end of the year there were outstanding pension contributions of £25,474 (2021 £21,533).

#### 21 Share capital

Ordinary share capital	2022	2021	2022	2021
	Number	Number	£	£
Issued and fully paid Ordinary shares of £1 each	401,000	401,000	401,000	401,000

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2022

#### 22 Operating lease commitments

At the reporting end date the company had outstanding commitments for future minimum lease payments under non-cancellable operating leases, which fall due as follows:

	2022	2021
	£	£
Within one year	67,891	99,021
Between two and five years	26,823	92,492
	94,714	191,513

#### 23 Ultimate controlling party

The immediate parent company is Philmar Petroleum Limited.

The ultimate parent company is Philmar (Holdings) Limited, incorporated in England and Wales, the registered office is All Saints Road, Wednesbury, West Midlands, WS10 9LL. The largest group in which the results of the company are consolidated is that headed by Philmar (Holdings) Limited. The consolidated financial statements of this group are available to the public and may be obtained from Companies House, Crown Way, Maindy, Cardiff, CF4 3UZ.

#### 24 Events after the reporting date

Subsequent to the year end, in Q2 of 2023 a key customer contract was not renewed. Given the size of the contract a restructuring of the business was subsequently announced in Q2 as the volume of business in the remainder of the year and following years is expected to reduce by around 19% as a result. As this event occurred following the end of the reporting period, no adjustments to the financial result or position as at 31 December 2022 have been made.

#### 25 Cash generated from operations

	2022	2021
	£	£
