**Report of the Director
for the Year Ended 31 January 2022**

The director presents his report with the financial statements of the company for the year ended 31 January 2022.

PRINCIPAL ACTIVITY

The principal activity of the company in the year under review was that of management consultancy.

REVIEW OF BUSINESS

The year covered by these accounts was a difficult one with the company recording a significant loss.

The loss recorded in the year relates largely to one particular contract which has now been completed. The full amount of the loss on this contract has been included within the accounts for the year.

The company's results were also negatively impacted by the Covid pandemic and in particular the availability of materials and labour. This, together with the industry wide increases seen in the costs of raw materials during the course of 2021 and 2022 continues to affect the ability of the company to complete ongoing contracts to time and to budget.

In these circumstances, management has taken the difficult decision to slim down the team with a view to reducing operating costs.

More positively, the company's forward workload is now very encouraging and the company is increasingly focussed on securing more rewarding business streams.
