### Statement of directors' responsibilities

Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing those financial statements, the directors are required to:

- \* select suitable accounting policies and then apply them consistently;
- \* make judgements and estimates that are reasonable and prudent;
- \* state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- \* prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

**1. Accounting policies**

**a) Accounting convention:**

These accounts have been prepared in accordance with applicable accounting standards under the historical cost convention, adopting the following principal accounting policies.

**(b) Turnover:**

Turnover comprises sales to customers of goods and services net of value added tax.

**(c) Stock:**

Stock is valued at the lower of cost and net realisable value.

**(d) Deferred Taxation:**

The company has applied FRS19 in accounting for deferred taxation. The general principle is that deferred tax is recognised as a liability or asset if the transactions or events that give an obligation to pay more tax in future or a right to pay less tax in future have occurred by the balance sheet date, although deferred tax is not provided on timing differences arising when a fixed asset is revalued without there being any commitment to sell the asset.

**(e) Leases:**

Assets acquired under finance lease agreements, including hire purchase agreements are capitalised and the corresponding liability is included in creditors. Finance lease interest is charged to the profit and loss account on a straight line basis over the period of the agreement. Operating lease rentals are charged to the profit and loss account of the period to which they relate.

**(f) Depreciation:**

Depreciation on the fixed assets of the company has been provided as follows:

Freehold land	- 0%
Freehold buildings	- 2% per annum on a straight line basis
