- ii) The recommendations of SORP 2 (Accounting by Charities) have been followed, when practicable, in the preparation of these accounts.

b) **Tangible fixed assets and depreciation**

Depreciation is calculated to write down the cost or valuation of all tangible fixed assets to their estimated residual values on the reducing balance basis, as follows:-

Fixtures, fittings and equipment - 15% per annum

The cost of toys purchased is not capitalised, and is written off to Income and Expenditure Account as and when incurred.

c) **Value Added Tax**

V.A.T., being irrecoverable, is included as part of of the expenditure to which it relates.

d) **Fund accounts**

The Company's general funds consist of funds which it may use for its charitable purpose by discretion.

e) **Voluntary income**

- i) All voluntary income is credited to income on receipt. Should a donor require a sum to be set aside and invested to provide income for the Company's charitable purpose, such income would be classified as an endowment. No such donations occurred in this accounting period.
- ii) Grants receivable are credited to income immediately.
- iii) As it is impracticable to value gifts of toys when they are received, only the amounts received when they are sold will be included as income.

f) **Income from services**

The Company provides child care services, for which it charges a fee, which is included in income as and when received. Any fees owing at the year end are included in income and treated as debtors. Any fees paid in advance are excluded from income and treated as creditors.
