Directors' report for the financial year ended 5 March 2011

The directors present their annual report and the audited financial statements for the financial year ended 5 March 2011

Principal activities

The principal activity of the Company was the operation of passenger rail services which linked a number of cities and other destinations in England, Scotland and Wales

Following the termination of the franchise on 10 November 2007, the Company no longer has an ongoing operational business. As the directors do not intend to acquire a replacement trade, they have not prepared the financial statements on a going concern basis. The effect of this is explained in note 1 to the financial statements

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). As explained in note 1 to the financial statements, the directors do not believe that it is appropriate to prepare the financial statements on a going concern basis.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. **Notes to the financial statements
for the financial year ended 5 March 2011**

1. Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements, except as noted below

1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards

Under FRS 8 'Related party disclosures', the Company is exempt from the requirement to disclose transactions with related parties, which are part of the group, on the grounds that it is a wholly owned subsidiary undertaking of Virgin Rail Group Holdings Limited and the Company's results are consolidated in its parent company financial statements

Following the termination of the franchise on 10 November 2007, the Company no longer has an ongoing operational business. As the directors do not intend to acquire a replacement trade for the Company, they have not prepared the financial statements on a going concern basis. No adjustments were necessary to the amounts at which the net assets are included in these financial statements compared with the values at which they would have been stated had the going concern basis of accounting been adopted

1.2 Cash flow

The Company, being a subsidiary undertaking where 90% or more of the voting rights are controlled within the group whose consolidated financial statements are publicly available, is exempt from the requirement to draw up a cash flow statement in accordance with FRS 1 'Cash flow statements'

1.3 Turnover

Turnover comprises revenue recognised by the Company in respect of goods and services supplied, exclusive of Value Added Tax and trade discounts

Passenger revenue represents principally amounts attributed to the Company by the Railway Settlement Plan (which administers the income allocation system within the UK rail industry) for each financial period. Income is attributed based on models of certain aspects of passenger behaviour and to a lesser extent from allocations agreed for specific revenue flows

Revenue is recognised when all performance conditions associated with the revenue have been met

1.4 Franchise income

Revenue grants receivable in respect of the operation of the rail franchise are taken to the profit and loss account in the financial year to which they relate

1.5 Taxation

The charge for taxation is based on the result for the financial year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes. Tax charges and credits are accounted for through the same primary statement (being either the profit and loss account or the statement of total recognised gains and losses) as the related pre-tax items

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS19 'Deferred Tax'. A net deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Notes to the financial statements for the financial year ended 5 March 2011

1. Accounting policies (continued)

1.6 Dividends

Dividends unpaid at the balance sheet date are only recognised as a liability at that date to the extent that they are appropriately authorised and are no longer at the discretion of the Company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.

2. Turnover

	2011 £000	2010 £000
Passenger revenue	-	172

All turnover arose within the United Kingdom.

Passenger revenue in the prior year related to residual income from the CrossCountry franchise.

3. Franchise income

	2011 £000	2010 £000
Adjustments under the Supplemental Letter	252	965

Franchise income arose under the original Franchise Agreement between the DfT and the Company as supplemented by the July 2002 Arrangement and the Supplemental Letter. These arrangements were on the basis of the Company receiving a pre-tax profit margin equivalent to 1% of revenue and remain in place following the termination of the CrossCountry franchise to cover any residual costs and income.

4. Auditors' remuneration

	2011 £000	2010 £000
Fees payable to the Company's auditor for the audit of these financial statements	5	5

5. Staff numbers and costs

The company has no employees other than the directors, who did not receive any remuneration (2010: £Nil).

6. Interest receivable

	2011 £000	2010 £000
Bank interest receivable	2	6

8. Taxation

<i>Analysis of tax charge/(credit) in the financial year</i>		
UK corporation tax charge on income for the financial year	-	2
Adjustments in respect of prior financial years	(1)	(71)
UK group relief	1	-
Tax on profit on ordinary activities	-	(69)

Factors affecting tax charge/(credit) for the financial year

The tax assessed for the financial year is the same as (2010 lower than) the standard rate of corporation tax in the UK of 28% (2010 28%). The differences are explained below

	2011 £000	2010 £000
Profit on ordinary activities before tax	-	2
Current tax at 28% (2010 28%)	-	1
Effects of:		
UK tax losses not utilised or not recognised	1	1
Adjustments in respect of prior financial years	(1)	(71)
Total current tax charge/(credit) (see above)	-	(69)

Factors that may affect future tax charges

The Emergency Budget on 22 June 2010 announced that the UK corporation tax rate was to reduce from 28% to 24% over a period of four years from 2011. The first reduction in the UK corporation tax rate from 28% to 27% was enacted on 27 July 2010 and was to be effective from 1 April 2011. The Budget on 23 March 2011 announced further measures to reduce the UK corporation tax rate by an additional 1% from 27% to 26% with effect from 1 April 2011, and to 23% by 2014.

These changes will reduce the Company's future current tax charge accordingly. The measurement of deferred tax is based upon the expected change in rate to 27% as enacted at the balance sheet date. This had the effect of reducing the deferred tax asset unrecognised at the balance sheet date by £1,680. If the rate change to 26% had been substantively enacted on or before the balance sheet date it would have had the effect of reducing the deferred tax asset unrecognised at that date by a further £1,700.

The full anticipated effect of the announced further 3% rate reduction has not yet been quantified, although this will further reduce the Company's future current tax charge and reduce the Company's deferred tax asset accordingly.

The RPS is a shared cost scheme with costs being shared between the employer and the members on the basis of a 60/40 split.
