Strategic report

For the year ended 31 October 2018

Principal activities

The principal activity of the company during the year was as a specialist provider of fixed fee, limited company accountancy and tax services to contractors and freelancers.

Business review and future developments

Turnover grew by 0.1% (2017: 3.4%) and underlying EBITDA fell by 18.3% (2017 grew by 12.0%), along with a small net decrease in client numbers of 1.2% (2017: 1.7%). A change in allocation of support costs across the Group resulted in a 21% increase in support costs for Nixon Williams in the form of a management recharge.

Given the nature of the business, the directors are of the opinion that analysis using any KPIs in addition to those already stated is not necessary for an understanding of the development, performance or position of the company. Although we expect the marketplace to be as competitive as ever, with continued focus on customer service and our extensive range of services we expect our turnover and EBITDA to grow in the foreseeable future.

Principal risks and uncertainties

The company has an active and robust corporate governance programme designed to manage strategic and tactical risks which could impact the business. Risks are clearly identified and monitored on a regular basis.

With clear objectives, and an experienced management team, the Company believes it is on course to continue its growth by being the pre-eminent, national provider of accountancy and tax services offered to contractors. The key risks and uncertainties currently facing the business are as follows:

Operating risk

Managing the Company's businesses is dependent upon the ability to process a large number of transactions efficiently and accurately. Operational risk and losses can result from fraud, employee errors, failure to properly document transactions or to obtain proper internal authorisation, failure to comply with regulatory requirements and business principles, resource shortages, equipment failures, natural disasters or the failure of external systems.

Although the Company has implemented risk controls and loss mitigation actions, and resources are devoted to developing efficient procedures and to staff training, it is only possible to be reasonably, but not absolutely, certain that such procedures will be effective in controlling the operational risks faced by the Company.

The Company recognise the competition within the marketplace however do not consider price risk to be a significant risk to the business.

Strategic report (continued)

Principal risks and uncertainties (continued)

Liquidity risk

The Company has a low exposure to liquidity risks as it continues to generate free cash-flows and has sufficient liquid assets to manage any short-term liquidity issues. However, the Company continues to monitor its commitments and liabilities to ensure that the Company is not exposed to liquidity risks.

Credit risk

The Company's principal financial assets are bank balances and cash, trade and other receivables.

The Company's credit risk is primarily attributable to its trade receivables. The amounts presented in the balance sheet are net of allowances for doubtful receivables. An allowance for impairment is made where there is an identified loss event which, based on previous experience, is evidence of a reduction in the recoverability of the cash flows. The Company has no significant concentration of credit risk, with exposure spread over a large number of customers.

Fraud risk management

The Company has implemented risk controls and maintains such internal check and accounting policies as it deems appropriate to prevent fraud within the Company.

Although resources are devoted to developing efficient procedures and to staff training, it is only possible to be reasonably, but not absolutely, certain that such procedures will be effective in preventing fraud.

Legislation risk

The Company's business model is reliant on their ability to ensure recurring services are provided to current contractor and freelance customers. As such any legislative changes which may alter the employment nature of certain customers is considered a business risk to the company. This is mitigated through the variety of routes to market available to the Company.

This report was approved by the board on 1 March 2019 and signed on its behalf.

K J Budge Director

Directors' report

For the year ended 31 October 2018

The directors present their report and audited financial statements for the year ended 31 October 2018.

Directors

The directors who served during the year to approval of financial statements were:

K J Budge

D A Kelly

Business review and future developments

The profit of the company for year was £2,370,695 (2017: £2,363,493) as noted on page 8.

Financial risk management

Measured taken towards financial risk management are enumerated within Strategic report on page 1 and 2 above.

Dividends

The directors do not recommend the payment of a dividend. (2017: fnil).

Directors liabilities

The company has granted an indemnity to one or more of its directors against liability in respect of proceedings brought by third parties subject to conditions set up in Section 234 of the Companies Act 2006. Such qualifying third-party indemnity provision remains in force as at the date of approving the Directors' report.

Going concern

The going concern assessment of the company is dependent on the going concern assessment of the Optionis Group as the company is an obligor to the Group's debt arrangements.

In assessing the Going Concern of the Group the directors have considered both the current trading performance of the Group and the latest approved forecasts for a period of at least a year from the date of approval of these financial statements. In performing this review, they have considered specific assumptions and risks to achieving forecast outcomes and have considered absolute liquidity as well as the ability to operate with the Group's current financing facilities which are subject to formal covenant tests.

The Group's ability to operate within our covenant limits depends on its ability to deliver forecast results and the overall management of cash. Based on the history of delivering forecasts and delivering working capital improvements, the directors have applied reasonable downside sensitivities and also considered mitigating factors that would be available to manage any increased level of risk against the tightest measurement periods. Based on these circumstances and our latest review, the directors do not consider there is any outcome that could be reasonably foreseen that would cast doubt on the company's ability to continue as a going concern.

Directors' report (continued)

For the year ended 31 October 2018

Statement of directors' responsibilities in respect of the financial statements

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the statement of comprehensive income of the company for that year. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 102, have been followed, subject to any material departures disclosed and explained in the financial statements;
- · make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

The directors are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Disclosure of information to auditors

The directors at the time when this Directors' report is approved have confirmed that:

- so far as that director is aware, there is no relevant audit information of which the company's auditors are unaware; and
- that director has taken all the steps that ought to have been taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Independent auditors

The auditors PricewaterhouseCoopers LLP have indicated their willingness to continue in office, and a resolution that they be reappointed will be proposed at the annual general meeting. This report was approved by the board on 1 March 2019 and signed on its behalf.

K J Budge Director

Independent auditors' report to the members of Nixon Williams Limited

Report on the audit of the financial statements

Opinion

In our opinion, Nixon Williams Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 31 October 2018 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report and Financial Statements (the "Annual Report"), which comprise: the statement of financial position as at 31 October 2018, the statement of comprehensive income, the statement of changes in equity for the year 31 October 2018; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

ISAs (UK) require us to report to you when:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified
 material uncertainties that may cast significant doubt about the company's
 ability to continue to adopt the going concern basis of accounting for a period
 of at least twelve months from the date when the financial statements are
 authorised for issue.

We have nothing to report in respect of the above matters.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern. For example, the terms on which the United Kingdom may withdraw from the European Union, which is currently due to occur on 29 March 2019, are not clear, and it is difficult to evaluate all of the potential implications on the company's trade, customers, suppliers and the wider economy.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic Report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (UK) require us also to report certain opinions and matters as described below.

Strategic Report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and Directors' Report for the year ended 31 October 2018 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic Report and Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of directors' responsibilities in respect of the financial statements set out on page 3 and 4, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as

they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us: or
- certain disclosures of directors' remuneration specified by law are not made;
 or
- the financial statements are not in agreement with the accounting records and returns

We have no exceptions to report arising from this responsibility.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 October 2018

1. Company information

Nixon Williams Limited is a limited liability company incorporated and domiciled in England & Wales.

The Registered Office is 4 Calder Court, Amy Johnson Way, Blackpool, Lancashire FY4 2RH.

2. Basis of preparation

These financial statements have been prepared in accordance with applicable United Kingdom accounting standards, including Financial Reporting Standard 102 – 'The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland' (FRS 102'), and with the Companies Act 2006. The financial statements have been prepared on the historical cost basis as modified by the recognition of certain financial assets and liabilities measured at fair value through statement of comprehensive income.

The financial statements are presented in Sterling (f) which is the functional currency and rounded to the nearest f.

The individual financial statements of Nixon Williams Limited have also adopted the following disclosure exemptions:

- categories of financial instruments;
- key management personnel disclosure;
- items of income, expenses, gains or losses relating to financial instruments;
- exposure to and managements of financial risks;
- the requirement to present a statement of cash flows and related notes; and
- related party disclosures relating to transactions entered into between two or more wholly owned members of the group.

Going concern

After reviewing the Company's performance, forecasts and projections, the directors have a reasonable expectation that the Company has adequate resources to continue to operate within its current facilities for the foreseeable future. The Company therefore continues to adopt the going concern basis in preparing its financial statements.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

3. Significant judgements and estimates

Preparation of the financial statements requires management to make significant judgements and estimates. The items in the financial statements where these judgements and estimates have been made include:

PI Provision

The Company provides for both specific known claims, and calculated expected future claims. The provision is based on various factors, such as historical data, current outstanding client claims and managements knowledge of probable settlement costs.

4. Principal accounting policies

4.1 Intangible assets

Intangible fixed assets are measured at cost less accumulated depreciation and any accumulated impairment losses.

Amortisation is charged so as to allocate the cost of the intangible assets over its estimated useful life, using the straight-line method. Intangibles are amortised over the following useful economic life:

Computer software

3 years

4.2 Tangible Assets

Tangible fixed assets are measured at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is calculated to write down the cost less estimated residual value of all tangible fixed assets, other than freehold land, over their expected useful lives, using the straight-line method. The rates applicable are:

Long term leasehold improvements
 Fixtures, fittings and office equipment
 Software
 125 years
 4 years
 3 years

4.3 Impairment of assets

At each reporting date fixed assets are reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If there is an indication of possible impairment, the recoverable amount of any affected asset is estimated and compared with its carrying amount. If estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised immediately in statement of comprehensive income.

If an impairment loss subsequently reverses, the carry amount of the asset is increased to the revised estimate of its recoverable amount, but not in excess of the amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in statement of comprehensive income.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

4. Principal accounting policies (continued)

4.4 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership of the leased asset to the Company. All other leases are classified as operating leases.

Rentals payable under operating leases are charged to a statement of comprehensive income on a straight-line basis over the lease term, unless the rental payments are structured to increase in line with expected general inflation, in which case the group recognises annual rent expense equal to amounts owed to the lessor.

4.5 Provisions for liabilities

Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that the company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting year, taking into account the risks and uncertainties surrounding the obligation.

Where the effect of the time value of money is material, the amount expected to be required to settle the obligation is recognised at present value using a pre-tax discount rate. The unwinding of the discount is recognised as finance cost in statement of comprehensive income in the year it arises.

The company recognises a provision for dilapidations which represents the best estimate of future reparations costs in relation to leases occupied by the company.

4.6 Taxation

Current tax is recognised for the amount of income tax payable in respect of the taxable profit for the current or past reporting years using the tax rates and laws that that have been enacted or substantively enacted by the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date, except as otherwise indicated.

Deferred tax assets are only recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. If and when all conditions for retaining tax allowances for the cost of a fixed asset have been met, the deferred tax is reversed.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

4. Principal accounting policies (continued)

4.6 Taxation (continued)

Deferred tax is recognised when income or expenses from a subsidiary or associate have been recognised, and will be assessed for tax in a future year, except where:

- the company is able to control the reversal of the timing difference; and
- it is probable that the timing difference will not reverse in the foreseeable future.

Deferred tax is calculated using the tax rates and laws that that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

Except for changes arising on the initial recognition of a business combination, the tax expense / (income) is presented either in statement of comprehensive income, other comprehensive income or equity depending on the transaction that resulted in the tax expense / (income).

Deferred tax liabilities are presented within provisions for liabilities and deferred tax assets within debtors. Deferred tax assets and deferred tax liabilities are offset only if:

- the company has a legally enforceable right to set off current tax assets against current tax liabilities, and
- the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously.

4.7 Turnover

Fee income represents the fair value of consideration received or receivable and represents the amounts receivable for services provided during the year to clients. Fair value reflects the amount agreed in the form of contractual charges for each type of service. Fee income is stated net of Value Added Tax and recharges for disbursements.

Services provided to clients are recognised straight line over the year of service. Services provided to clients during the year which at the balance sheet date have not been invoiced to clients are recognised as fee income and accrued within the statement of financial position. Amounts which have been invoiced as at the year-end but where the service has not been delivered at that time are included within deferred income within the statement of financial position. Amounts are not allocated to specific services given that services occur evenly throughout the year.

4.8 Employee benefits

Short-term employee benefits and contributions to defined contribution plans are recognised as an expense in the year in which they are incurred.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

4. Principal accounting policies (continued)

4.9 Financial instruments

The company has chosen to adopt the Sections 11 and 12 of FRS 102 in respect of financial instruments.

4.9.1 Financial assets

Basic financial assets, including trade and other receivables, cash and bank balances and investments in commercial paper, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

Such assets are subsequently carried at amortised cost using the effective interest method.

At the end of each reporting year financial assets measured at amortised cost are assessed for objective evidence of impairment. If an asset is impaired the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in statement of comprehensive income.

If there is decrease in the impairment loss arising from an event occurring after the impairment was recognised the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been had the impairment not previously been recognised. The impairment reversal is recognised in statement of comprehensive income.

Financial assets are derecognised when (a) the contractual rights to the cash flows from the asset expire or are settled, or (b) substantially all the risks and rewards of the ownership of the asset are transferred to another party or (c) control of the asset has been transferred to another party who has the practical ability to unilaterally sell the asset to an unrelated third party without imposing additional restrictions.

4.9.2 Financial liabilities

Basic financial liabilities, including trade and other payables, bank loans, loans from fellow group companies and preference shares that are classified as debt, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the year of the facility to which it relates.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

4. Principal accounting policies (continued)

4.9 Financial instruments (continued)

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade payables are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

Financial liabilities are derecognised when the liability is extinguished, that is when the contractual obligation is discharged, cancelled or expires.

5. Turnover

All turnover is generated from the rendering of similar services and is reviewed by the directors on a single segment basis. The company trades within one geographical location, the United Kingdom.

6. Profit before taxation

		2018	2017
·	Note	£	£
Operating lease charges		55,439	53,196
Amortisation	9	19,416	60,906
Depreciation	10	16,467	15,827
Loss on disposal		3,158	-
Auditors' remuneration:	•	•	
Fee payable to the Company's Company's annual financial st		15,260	13,000
- ·			

Fees payable to the company's auditor for the audit of the company's financial statements, are borne by a fellow group company. No recharge is made to the company for such costs.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

7. Directors and employees

Staff costs during the year were as follows:

	2018	2017
	£	£
Wages and salaries	1,673,186	1,393,189
Social security costs	146,883	111,677
Other pensions costs	38,754	32,718
	1,858,823	1,537,584

The average number of employees of the Company during the year was:

	2018	2017
	Number	Number
Operations	59	53
Administration		1
	59	54

All staff costs were borne by Optionis Group Limited which operates as a centralised cost centre. Recharges are made to subsidiary companies for operational staff at a reasonable margin. The remaining centralised staff remain employees of Optionis Group Limited with these costs recharged to the other group companies as a management charge.

Total directors' emoluments in the year were £496,136 (2017: £1,280,588).

The directors' emoluments in 2018 and 2017 for all directors were paid by Optionis Group Limited, a fellow group company. No recharges were made to the company for the director's services and the directors do not believe it possible to apportion the remuneration between the companies.

The highest paid director received remuneration of £251,033 (2017: £879,796).

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

8. Tax on profit

•	2018	2017
	£	£
UK Corporation Tax	50,262	-
Group relief payable		593,137
Adjustments in respect of previous years		(4,357)
Total current tax	50,262	588,780
Deferred taxation:		
Origination and reversal of timing differences	(1,120)	(22,457)
Adjustment in respect of previous years		4,139
Effect of changes in tax rates	118_	625
Tax on results on profit	49,260	571,087

The tax assessed for the year is lower than the standard rate of corporation tax in the Unit Kingdom at 19% (2017: lower at 19.40%). The differences are explained as follows:

	2018	2017
	£	£
Profit before taxation	2,419,955	2,934,580
Profit before taxation multiplied by standard rate of		
corporation tax in the United Kingdom of 19%	459,791	569,309
Expenses not deductible for tax purposes	278	1,371
Prior year adjustments	-	(218)
Group relief received for nil payment	(410,927)	-
Difference in tax rates	118	625
Tax on profit	49,260	571,087

In the current year the group have changed their tax policy, choosing to no longer pay for group relief surrendered.

Factors affecting future tax charges

A change to the UK corporation tax rate was announced in the Budget on 16 March 2016 to reduce the rate to 17% from 1 April 2020 and was substantially enacted on 6 September 2016. Changes to reduce the UK corporation tax rate to 19% from 1 April 2017 had already been substantively enacted on 26 October 2015. As the change to 19% and 17% had been substantively enacted at the balance sheet date the effect of this change has been included in the financial statements.

13. Provisions for liabilities

	Dilapidations	Other provisions	Total £
At 1 November 2017	53,329	74,896	128,225
Utilised	-	(25,000)	(25,000)
At 31 October 2018	53,329	49,896	103,225
At 31 October 2017	53,329	74,896	128,225

The dilapidations provision relates to the best estimate of future reparations costs in relation to leases occupied by the Company. The provision is expected to be utilised in line with the cessation of each of the leases.

Within other provisions, the Company recognises a provision for the risk of Professional Indemnity claims arising from current or former customers. The provision is measured based on trend analysis of historical claims raised against companies in the group which the directors believe to be appropriate.

	1,000	1,000

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

16. Reserves

Called-up share capital - represents the nominal value of shares that have been issued.

Statement of comprehensive income account – includes all current and prior year retained profits and losses.

17. Leasing commitments

The company's future minimum operating lease payments are as follows:

- · · · · · · · · · · · · · · · · · · ·	2018	2017
•	£	£
Within one year	30,044	45,270

18. Transactions with related parties

The company has taken advantage of the exemption available within FRS 102 Section 33 not to disclose transactions with fellow wholly owned group undertakings.

19. Ultimate controlling party

The company's immediate parent undertaking is Optionis Group Limited by virtue of its shareholding. Optionis Limited is deemed the parent undertaking of the smallest and largest group to consolidate these financial statements. A copy of the consolidated statements can be obtained from the company Secretary at the company's address.

In the opinion of the directors, there is no ultimate controlling party of the Group.
