STRATEGIC REPORT

The Directors, in preparing this strategic report, have complied with s414C of the Companies Act 2006. This strategic report has been prepared for WPP Jubilee Limited and its subsidiary undertakings ("the Group") and therefore gives greater emphasis to those matters which are significant to WPP Jubilee Limited and its subsidiary undertakings when viewed as a whole.

REVIEW OF THE BUSINESS

WPP Jubilee Limited is a company incorporated in the UK and registered in England and Wales, under the Companies Act. The address of the registered office is Sea Containers House, 18 Upper Ground, London, SE1 9GL. The Company has acted as an intermediate holding company in the WPP group since its incorporation on 8 November 2012.

In 2022, the Group had a strong year with high demand for our services and strong growth despite global economic turbulence and uncertainty. There was like-for-like growth across all major creative, media, public relations and specialist agencies. Revenue has grown by 13% from 2021 to 2022 with operating profit increased by 9%. As at 31 December 2022, the Group was in a net current assets of £4,918.2 million (2021: £7,282.6 million) and net assets of £12,094.4 million (2021: £12,987.5 million). The number of people in the Group averaged 114,129 in 2022 compared to 104,808 in 2021.

During 2022, investments were made to enhance our capabilities through a number of acquisitions that expanded our offer in experience, commerce and technology, and built our presence in strategically important regions. We also invested organically to support long-term growth opportunities, integrate and accelerate our data capabilities, embed AI into our workflows and drive innovation.

Further details on the performance of the Group are discussed in the WPP plc annual report which does not form part of this report and is available at www.wpp.com.

KEY PERFORMANCE INDICATORS

Operational

Client satisfaction enables the retaining of satisfied clients which is a key driver of our revenue. This measures how satisfied our clients are with our services. In 2022, we scored 8 out of 10 overall with Quality of Work at 8.1, and DE&I at 8.2, maintaining the high levels achieved in 2021, and showing an improvement over 2018-2020. We aim to maintain top-quartile performance.

Digital % of media billings (GroupM) measures the digital mix of the media market. Given digital media accounts for the majority of the media market (67%), this KPI ensures that we are staying relevant to our clients. This data was not available for 2022, however, GroupM's digital billings increased to 48% in 2021 compared with 43% in 2020. This was driven by the rapid growth in demand from clients for digital commerce services, including connected TV and retail media.

Proportion of revenue less pass-through costs from experience, commerce and technology – Experience, commerce and technology are attractive faster-growth areas of the market. Revenue less pass-through costs growth in the areas of experience, commerce and technology was an estimated 9% in 2022. The share of these areas in the business mix of our global integrated agencies, excluding GroupM, increased to 39% in 2022. Our goal is to further increase the proportion in these areas.

Gross annual savings from our transformation programme which is designed to simplify WPP, build greater collaboration, drive efficiency and free up funds for reinvestment in growth. Our goal is to achieve £600 million of annual cost savings against a 2019 base by 2025. By the end of 2022, we delivered around £375m of gross annual savings against a 2019 base, ahead of planned savings of £300m, reflecting cost savings mostly in property, procurement and ways of working.

People

Proportion of women in executive leadership roles – We believe that diversity powers our creativity and growth as a business. We continue to focus on driving greater gender balance throughout the Company and, in particular, at the most senior levels. We aim to achieve equal representation of women at the Board and all other levels. In 2022, the proportion of women in executive leadership roles increased to 40% (2021: 39%). Across the broader workforce we increased the proportion among senior management positions to 54%, up from 52% in 2021.

Sustainability

Carbon emissions per person from our owned operations (tCO₂e, Scope 1 and 2) enables us to measure carbon emission per employee as headcount is closely linked to levels of business activity. We are committed to achieving net zero emissions across our owned operations by 2025 and across our supply chain by 2030. In 2022 carbon emissions per employee fell 32% compared with 2021 and by 73% since our 2019 baseline.

Share of electricity purchased from renewable sources to reduce carbon emissions – During 2022, we purchased 83% of our electricity from renewable sources compared with 74% in 2021, reflecting good progress towards our target of 100% by 2025.

Financial

Revenue growth is one of our strategic goals and during 2022, we delivered strong growth across all key WPP agencies resulting in overall revenue growth of 12.7%.

Headline operating profit margin is a key indicator of our profitability. It comprises profit on trading activities, excluding certain one-off or exceptional items. These items are excluded because their size and nature mask the true underlying performance year-on-year. In 2022, our headline operating margin increased to 15.6% due to revenue growth and cost savings from the transformation programme. In 2023, we expect the margin to improve to around 15% and to reach 15.5-16.0% over the medium term.

PRINCIPAL RISKS AND UNCERTAINTIES

The Group has considered the principal risks and uncertainties affecting the Group as at 31 December 2022 and up to the date of this report. These are described in detail in the annual report of WPP plc which does not form part of this report and is available at www.wpp.com.

By Order of the Board

DIRECTORS' REPORT

The Directors present their annual report and the audited financial statements for the year ended 31 December 2022.

RESULTS AND DIVIDENDS

The audited financial statements are set out on pages 13 to 128. The profit before taxation for the year from continuing operations was £1,297.2 million (2021: £1,032.9 million). The Company paid and declared ordinary dividends of £2,052.5 million during the year (2021: nil).

GROUP ACTIVITIES

The principal activity of the Group continues to be the provision of communications services worldwide. The Company acts only as a holding company and does not trade.

RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

FOREIGN CURRENCY RISK

The Group's results in pounds sterling are subject to fluctuation as a result of exchange rate movements. The Group does not hedge this translation exposure to its earnings but does partially hedge the currency element of its net assets using foreign currency borrowings, cross-currency swaps, and forward foreign exchange contracts.

INTEREST RATE RISK

The Group is exposed to interest rate risk on both interest-bearing assets and interest-bearing liabilities. The Group has a policy of actively managing its interest rate risk exposure while recognising that fixing rates on all its debt eliminates the possibility of benefiting from rate reductions and, similarly, having all its debt at floating rates unduly exposes the Group to increases in rates.

GOING CONCERN AND LIQUIDITY RISK

In considering going concern and liquidity risk, the Directors have reviewed the Group's future cash requirements and earnings projections. The Directors believe these forecasts have been prepared on a prudent basis and have also considered the impact of a range of potential changes to trading performance. The impact of the Russian invasion of Ukraine and sanctions response from governments has been considered. Considering the Group's bank covenant and liquidity headroom and cost mitigation actions which could be implemented, the Company and the Group would be able to operate with appropriate liquidity and within its banking covenants and be able to meet its liabilities as they fall due. Therefore, the Directors have concluded that the Company and the Group will be able to operate within its current facilities and comply with its banking covenants for the foreseeable future and therefore believe it is appropriate to prepare the financial statements of the Company and the Group on a going concern basis and that there are no material uncertainties which give rise to a significant going concern risk.

TREASURY ACTIVITIES

Treasury activity is managed centrally, from London, New York, and Hong Kong, and is principally concerned with the monitoring of working capital, managing external and internal funding requirements and the monitoring and management of financial market risks, in particular interest rate and foreign exchange exposures.

CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance. The capital structure of the Group consists of debt, cash and cash equivalents and equity attributable to equity holders of the parent, comprising issued capital, reserves and retained earnings.

CREDIT RISK

The Group's principal financial assets are cash and short-term deposits, trade and other receivables and investments, the carrying values of which represent the Group's maximum exposure to credit risk in relation to financial assets.

The Group's credit risk is primarily attributable to its trade receivables. The majority of the Group's trade receivables are due from large national or multinational companies where the risk of default is considered low.

The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are high-rated (AAA) funds, banks with high credit-ratings assigned by international credit-rating agencies or banks that have been financed by their government.

FINANCIAL INSTRUMENTS

The Group utilises currency derivatives to hedge significant future transactions and cash flows and the exchange risk arising on translation of the Group's investments in foreign operations. The Group is a party to a variety of foreign currency derivatives in the management of its exchange rate exposures. The instruments purchased are primarily denominated in the currencies of the Group's principal markets.

The Group uses interest rate swaps as hedging instruments in fair value hedges to manage its exposure to interest rate movements on its borrowings. More information on the Group's principal risks and risk management policies and financial instruments are set out in notes 23 and 24 of the consolidated financial statements.

CORPORATE GOVERNANCE ARRANGEMENTS

Refer to the Annual Report of WPP plc available at www.wpp.com for information on the Group's corporate governance arrangements.

ENERGY AND CARBON REPORTING

Refer to the Annual Report of WPP plc available at www.wpp.com for the Group's energy and carbon disclosures.

DIRECTORS' DUTIES

The Directors of the Company, as those of all UK companies, must act in accordance with section 172 of the UK Companies Act 2006. This company acts only as a holding company and does not trade. Refer to pages 109 to 111 of the Annual Report of WPP plc available at wpp.com for more on how the Group Directors meet their duty.

DIRECTORS' indemnities

The Company has made qualifying third-party indemnity provisions for the benefit of its Directors which were made during the year and remain in force at the date of this report.

DIRECTORS' REPORT (CONTINUED)

EMPLOYEES

Our non-discrimination and anti-harassment policies are included in our Group Code of Conduct. In the case of disability, our policy is to provide continuing employment and training wherever practicable. Refer to pages 36 and 37 of the Annual Report of WPP plc for more detail.

DIRECTORS

The Directors who served throughout the year were as follows:

A. Ashby (Appointed on 30 September 2022)
D. Conaghan (Resigned on 8 July 2022)
A. Payne
R. Payne (Appointed on 1 July 2022)
C. van der Welle (Resigned on 30 September 2022)

GOING CONCERN

The Directors are required to consider whether it is appropriate to adopt the financial statements on the basis that the Company and the Group are going concerns. The going concern assessment of WPP Jubilee Limited is directly related to the going concern assessment of the WPP plc Group. The Directors assess the WPP plc Group's prospects on a regular basis through the financial reporting and planning process, business reviews at each Board meeting, quarterly reviews of our businesses by the executive team and ongoing reviews of the Group's profitability, cash flows and funding requirements. The Directors have considered the longer-term risks and opportunities for the Group and the potential impact of competition for talent and competition from consulting firms, technological disruption, climate change and regulation.

The Directors have reviewed WPP plc Group's future cash requirements and earnings projections. The Directors believe these forecasts have been prepared on a prudent basis and have also considered the impact of a range of potential changes to trading performance. The impact of the Russian invasion of Ukraine and sanctions response from governments has been considered. WPP plc Group has modelled a range of revenue less pass-through costs compared with the year ended 31 December 2022 and a number of mitigating cost actions that are available. In addition, the Company has net assets of £11,526,400,000 and can therefore meet its short and long-term obligations as they fall due.

Furthermore, considering WPP plc Group's bank covenant and liquidity headroom and cost mitigation actions which could be implemented, the Company and the Group would be able to operate with appropriate liquidity and within any banking covenants and be able to meet its liabilities as they fall due. The likelihood of such a decline to impact the going concern conclusion is considered remote as compared to WPP plc Group's expectations and external benchmarks, including previously witnessed declines in times of economic stress or external forces such as the pandemic. Therefore, the Directors have concluded that the Group will be able to operate within its current facilities and comply with its banking covenants for the foreseeable future and therefore believe it is appropriate to prepare the financial statements of the Group on a going concern basis and that there are no material uncertainties which give rise to a significant going concern risk.

STATEMENT OF DISCLOSURE OF INFORMATION TO THE AUDITOR

So far as the Directors currently in office are aware, there is no relevant audit information of which the Company's auditor is unaware; and the Directors have taken all the steps that ought to have been taken as Directors to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

INDEPENDENT AUDITOR

Deloitte LLP are deemed to be re-appointed in accordance with an elective resolution made under s487 of the Companies Act 2006.

FUTURE DEVELOPMENTS

The Directors will continue to monitor, review, and take any appropriate steps to respond to the impact of the other current and emerging risks and uncertainties we face as a business such as the Russian invasion of Ukraine and sanctions response from governments and sustained inflation in key markets where we operate.

DIRECTORS' RESPONSIBILITIES STATEMENT

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the Group financial statements in accordance with International Financial Reporting Standards (IFRSs) pursuant to Regulation (EC) No 1606/2002 and the parent company financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing the parent company financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

In preparing the Group financial statements, International Accounting Standard 1 requires that Directors:

- properly select and apply accounting policies;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- provide additional disclosures when compliance with the specific requirements in IFRS are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance; and
- make an assessment of the Company's ability to continue as a going concern.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

ACCOUNTING POLICIES

The consolidated financial statements of WPP Jubilee Limited and its subsidiaries ("the Group") for the year ended 31 December 2022 have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) as they apply to the financial statements of the Group for the year ended 31 December 2022.

BASIS OF PREPARATION

The consolidated financial statements have been prepared under the historical cost convention, except for the revaluation of certain financial instruments. The financial statements have been prepared using the going concern basis of accounting. The principal accounting policies are set out below.

BASIS OF CONSOLIDATION

The consolidated financial statements include the results of the Company and all its subsidiary undertakings made up to the same accounting date. All intra-Group balances, transactions, income and expenses are eliminated in full on consolidation. The results of subsidiary undertakings acquired or disposed of during the period are included or excluded from the consolidated income statement from the effective date of acquisition or disposal.

NEW IFRS ACCOUNTING PRONOUNCEMENTS

The Group has elected to adopt the hedge accounting requirements of IFRS 9 Financial Instruments from 1 January 2022. The IFRS 9 hedge accounting requirements are applied prospectively, and all hedge arrangements in place at the point of transition are regarded as continuing hedging relationships under IFRS 9. Accordingly, prior year financial information is not required to be restated and remains as reported under IAS 39. Management has elected not to take the 'cost of hedging' approach, and instead the currency basis risk has been designated in the hedge relationships. There has been no significant impact on the financial statements as a result of the adoption of the hedge accounting requirements of IFRS 9, both at the point of transition and in the year ended 31 December 2022.

The Group has applied the following amendments for the first time for their annual reporting period commencing 1 January 2022:

- Property, Plant and Equipment: Proceeds before Intended Use – Amendments to IAS 16
- Onerous Contracts – Cost of Fulfilling a Contract – Amendments to IAS 37
- Annual improvements to IFRS Standards 2018-2020
- Reference to the Conceptual Framework – Amendments to IFRS 3

The amendments listed above did not have any impact on the amounts recognised in prior periods, did not have a significant impact on the amounts recognised in the current period, and are not expected to significantly affect the future periods.

At the date of authorisation of these financial statements, there were a number of standards or amendments to standards, which have not been applied in these financial statements, that were in issue but not yet effective. The Group does not consider that any of these standards or amendments to standards in issue but not yet effective will have a significant impact on the financial statements.

GOODWILL AND OTHER INTANGIBLE ASSETS

Intangible assets comprise goodwill, certain acquired separable corporate brand names, acquired customer relationships, acquired proprietary tools and capitalised computer software not integral to a related item of hardware.

Goodwill represents the excess of fair value attributed to investments in businesses or subsidiary undertakings over the fair value of the underlying net assets, including intangible assets, at the date of their acquisition.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of goodwill is compared to the recoverable amount, defined as the higher of fair value less costs of disposal and value in use. The net present value of future cash flows, to determine value in use, is derived from the underlying assets using a projection period of up to five years for each cash-generating unit. After the projection period, a steady growth rate representing an appropriate long-term growth rate for the industry is applied. Any impairment is recognised immediately as an expense and is not subsequently reversed.

Corporate brand names, customer relationships and proprietary tools acquired as part of acquisitions of businesses are capitalised separately from goodwill as intangible assets if their value can be measured reliably on initial recognition and it is probable that the expected future economic benefits that are attributable to the asset will flow to the Group.

Certain corporate brands of the Group are considered to have an indefinite economic life because of the institutional nature of the corporate brand names, their proven ability to maintain market leadership and profitable operations over long periods of time and the Group's commitment to develop and enhance their value. The carrying value of these intangible assets is reviewed at least annually for impairment and adjusted to the recoverable amount if required.

Amortisation is provided at rates calculated to write off the cost less estimated residual value of each asset on a straight-line basis over its estimated useful life as follows:

- brand names (with finite lives) – 10-20 years
- customer-related intangibles – 3-10 years
- other proprietary tools – 3-10 years
- other (including capitalised computer software) – 3-5 years

CONTINGENT CONSIDERATION

Contingent consideration is accounted for in accordance with IFRS 3 Business Combinations. Contingent consideration only applies to situations where contingent payments are not dependent on future employment of vendors and any such payments are expensed when they relate to future employment.

Future anticipated payments to vendors in respect of contingent consideration (earnout agreements) are initially recorded at fair value which is the present value of the expected cash outflows of the obligations. The obligations are dependent on the future financial performance of the interests acquired (typically over a four- to five-year period following the year of acquisition) and assume the operating companies improve profits in line with Directors' estimates. The Directors derive their estimates from internal business plans together with financial due diligence performed in connection with the acquisition.

Subsequent adjustments to the fair value are recorded in the consolidated income statement within revaluation and retranslation of financial instruments. The effect of any revisions to fair value adjustments that had been determined provisionally at the immediately preceding balance sheet date are accounted for as revisions to goodwill, as permitted by IFRS 3 Business Combinations.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are shown at cost less accumulated depreciation and any provision for impairment with the exception of freehold land which is not depreciated. The Group assesses the carrying value of its property, plant and equipment to determine if any impairment has occurred. Where this indicates that an asset may be impaired, the Group applies the requirements of IAS 36 Impairment of Assets in assessing the carrying amount of the asset. This process includes comparing its recoverable amount with its carrying value, where the recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset on a straight-line basis over its estimated useful life, as follows:

- freehold buildings – 50 years
- leasehold land and buildings – over the term of the lease or life of the asset, if shorter
- fixtures, fittings and equipment – 3-10 years
- computer equipment – 3-5 years

INTERESTS IN ASSOCIATES AND JOINT VENTURES

An associate is an entity over which the Group has significant influence. In certain circumstances, significant influence may be represented by factors other than ownership and voting rights, such as representation on the Board of Directors.

The Group's share of the profits less losses of associate undertakings net of tax, interest and non-controlling interests is included in the consolidated income statement and the Group's share of net assets is shown within interests in associates and joint ventures in the consolidated balance sheet. The Group's share of the profits less losses and net assets is based on current information produced by the undertakings, adjusted to conform with the accounting policies of the Group.

The Group assesses the carrying value of its associate undertakings to determine if any impairment has occurred. Where this indicates that an investment may be impaired, the Group applies the requirements of IAS 36 in assessing the carrying amount of the investment. This process includes comparing its recoverable amount with its carrying value. The recoverable amount is defined as the higher of fair value less costs of disposal and value in use.

The Group accounts for joint venture investments under the equity method which is consistent with the Group's treatment of associates.

OTHER INVESTMENTS

Certain equity investments are designated as either fair value through other comprehensive income or fair value through profit or loss. Movements in fair value through profit or loss are recorded in the consolidated income statement within revaluation and retranslation of financial instruments.

The Group generally elects to classify equity investments as fair value through other comprehensive income where the Group forms a strategic partnership with the investee.

NON-CURRENT ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS

Under IFRS 5 Non-current Assets Held for Sale and Discontinued Operations, where certain conditions are met, an asset or disposal group that is for sale is recognised as "held for sale". The Group has classified a 'disposal group' as held for sale if the carrying amount will be recovered principally through a sale transaction rather than through continuing use. For this to be the case, the disposal group must be available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets and its sale must be highly probable. Such assets are measured at the lower of carrying amount and fair value less costs for disposal, and are not depreciated or amortised, excluding certain assets that are carried at fair value under IFRS 5. Furthermore, when an associate is classified as held for sale, equity accounting ceases.

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The profit or loss from a discontinued operation is shown as a single amount on the face of the income statement and the comparatives and related notes restated accordingly. This represents total post-tax profit of the disposal group for the whole of the financial year including any post-tax gain or loss on the measurement of fair value less costs of disposal, as well as the post-tax loss on sale of the disposal group. Assets and liabilities classified as held for sale are shown as a separate line on the balance sheet.

ACCRUED AND DEFERRED INCOME

Accrued income is a contract asset, within the scope of IFRS 9 Financial Instruments, and is recognised when a performance obligation has been satisfied but has not yet been billed. Contract assets are transferred to receivables once the right to consideration becomes unconditional and billed per the terms of the contractual agreement.

In certain cases, payments are received from customers or amounts are billed with an unconditional right to receive consideration prior to satisfaction of performance obligations and recognised as deferred income. These balances are considered contract liabilities and are typically related to prepayments for third-party expenses that are incurred shortly after billing.

TRADE RECEIVABLES AND WORK IN PROGRESS

Trade receivables are stated net of loss allowances. Work in progress includes outlays incurred on behalf of clients, including production costs, and other third-party costs that have not yet been billed and are considered receivables under IFRS 15 Revenue from Contracts with Customers.

EXPECTED CREDIT LOSSES

The Group has applied the simplified approach to measuring expected credit losses, as permitted by IFRS 9 Financial Instruments. This has been applied to trade receivables, contract assets and lease receivables. Under this approach, the Group utilises a provision matrix based on the age of the trade receivables and historical loss rates to determine the expected credit losses. The Group also considers forward-looking information. Therefore, the Group does not track changes in credit risk, but recognises a loss allowance based on the financial asset's lifetime expected credit loss. For all other assets, the general approach has been applied and a loss allowance for 12-month expected credit losses is recognised.

Under IFRS 9, the expected credit losses are measured as the difference between the asset's gross carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. Given the short-term nature of the Group's trade receivables, work in progress and accrued income, which are mainly due from large national or multinational companies, the Group's assessment of expected credit losses includes provisions for specific clients and receivables where the contractual cash flow is deemed at risk.

The Group considers that the credit risk increased significantly since initial recognition when the credit rating changes, the debtor has significant financial difficulty or if there was a breach of contract. For balances that are beyond 180 days overdue it is presumed to be an indicator of a significant increase in credit risk.

Financial assets are written off when there is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery. Receivables written off are still subject to enforcement activity and pursued by the Group. Further details on expected credit losses are provided in note 16.

FOREIGN CURRENCY AND INTEREST RATE HEDGING

The Group's policy on interest rate and foreign exchange rate management sets out the instruments and methods available to hedge interest and currency risk exposures and the control procedures in place to ensure effectiveness.

The Group uses derivative financial instruments to reduce exposure to foreign exchange risk and interest rate movements. The Group does not hold or issue derivative financial instruments for speculative purposes.

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at each balance sheet date. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

At inception of the hedge relationship, the Group documents the relationship between hedging instruments and hedged items, including whether changes in the cash flows of the hedging instruments are expected to offset changes in the fair values or cash flows of hedged items. Furthermore the Group documents its risk management objectives and its strategy for undertaking various hedge transactions.

Note 24 contains details of the fair values of the derivative instruments used for hedging purposes.

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in profit or loss immediately, together with any changes in the fair value of the hedged items that are attributable to the hedged risk.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow or net investment hedges is recognised in other comprehensive income and deferred in equity. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss. Amounts deferred in equity are recycled in profit or loss in the periods when the hedged item is recognised in profit or loss. However, when the forecast transaction that is hedged results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously deferred in equity are transferred from equity and included in the initial measurement of the cost of the asset or liability.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, exercised, or no longer qualifies for hedge accounting. At that time, any cumulative gain or loss on the hedging instrument recognised in equity is retained in equity until the forecast transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in equity is transferred to profit or loss for the period.

Derivatives embedded in other financial liabilities or other host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of host contracts and the host contracts are not carried at fair value with unrealised gains or losses reported in the consolidated income statement.

LIABILITIES IN RESPECT OF OPTION AGREEMENTS

Option agreements that allow the Group's equity partners to require the Group to purchase a non-controlling interest are treated as derivatives over the Group's own equity instruments and are recorded in the consolidated balance sheet initially at the present value of the redemption amount in accordance with IAS 32 Financial Instruments: Presentation and subsequently, the financial liability is measured in accordance with IFRS 9 Financial Instruments. On initial recognition, the corresponding amount is recognised against the equity reserve, which is subsequently reversed on derecognition, either through exercise or non-exercise of the option agreement. Changes in the measurement of the financial liability due to the unwinding of the discount or changes in the amount that the Group could be required to pay are recognised in profit or loss within revaluation and retranslation of financial instruments in the consolidated income statement.

DERECOGNITION OF FINANCIAL LIABILITIES

In accordance with IFRS 9 Financial Instruments, a financial liability of the Group is only removed from the statement of financial position when the underlying legal obligation is extinguished.

DEBT

Interest-bearing debt is recorded at the proceeds received, net of direct issue costs.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise cash at bank and in hand and short-term highly liquid investments which are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value, including bank deposits and money market funds. The Group's overdrafts are included in cash and cash equivalents where they are repayable on demand, are components of the Group's centralised treasury strategy employed across the Group and form an integral part of the Group's cash management, in accordance with IAS 7 Statement of Cash Flows.

BORROWING COSTS

Finance costs of borrowing are recognised in the consolidated income statement over the term of those borrowings.

REVENUE RECOGNITION

The Group is a leading worldwide creative transformation organisation offering national and multinational clients a comprehensive range of communications, experience, commerce and technology services. Contracts often involve multiple agencies offering different services in different countries. As such, the terms of local, regional and global contracts can vary to meet client needs and regulatory requirements. Consistent with the industry, contracts are typically short-term in nature and tend to be cancellable by either party with 90 days' notice. The Group is generally entitled to payment for work performed to date.

The Group is generally paid in arrears for its services. Invoices are typically payable within 30 to 60 days. Revenue comprises commissions and fees earned in respect of amounts billed and is stated exclusive of VAT, sales taxes and trade discounts. Pass-through costs comprise fees paid to external suppliers when they are engaged to perform part or all of a specific project and are charged directly to clients, predominantly media costs. As the contracts are generally short-term in nature, the Group has applied the practical expedient permitted by IFRS 15 to expense costs to obtain a contract as incurred, where applicable.

In most instances, promised services in a contract are not considered distinct or represent a series of services that are substantially the same with the same pattern of transfer to the customer and, as such, are accounted for as a single performance obligation. However, where there are contracts with services that are capable of being distinct, are distinct within the context of the contract, and are accounted for as separate performance obligations, revenue is allocated to each of the performance obligations based on relative stand-alone selling prices.

Revenue is recognised when a performance obligation is satisfied, in accordance with the terms of the contractual arrangement. Typically, performance obligations are satisfied over time as services are rendered. Revenue recognised over time is based on the proportion of the level of service performed. Either an input method or an output method, depending on the particular arrangement, is used to measure progress for each performance obligation. For most fee arrangements, costs incurred are used as an objective input measure of performance. The primary input of substantially all work performed under these arrangements is labour. There is normally a direct relationship between costs incurred and the proportion of the contract performed to date. In other circumstances relevant output measures, such as the achievement of any project milestones stipulated in the contract, are used to assess proportional performance.

For our retainer arrangements, we have a stand-ready obligation to perform services on an ongoing basis over the life of the contract. The scope of these arrangements

is broad and generally not reconcilable to another input or output criteria. In these instances, revenue is recognised using a time-based method resulting in straight-line revenue recognition.

The amount of revenue recognised depends on whether we act as an agent or as a principal. Certain arrangements with our clients are such that our responsibility is to arrange for a third party to provide a specified good or service to the client. In these cases we are acting as an agent as we do not control the relevant good or service before it is transferred to the client. When we act as an agent, the revenue recorded is the net amount retained. Costs incurred with external suppliers (such as production costs and media suppliers) are excluded from revenue and recorded as work in progress until billed.

The Group acts as principal when we control the specified good or service prior to transfer. When the Group acts as a principal (such as when supplying in-house production services, events and branding), the revenue recorded is the gross amount billed. Billings related to out-of-pocket costs such as travel are also recognised at the gross amount billed with a corresponding amount recorded as an expense.

Further details on revenue recognition are detailed by sector below.

GLOBAL INTEGRATED AGENCIES

Revenue is typically derived from integrated product offerings including media placements and creative services. Revenue may consist of various arrangements involving commissions, fees, incentive-based revenue or a combination of the three, as agreed upon with each client. Revenue for commissions on purchased media is typically recognised at the point in time the media is run.

The Group receives volume rebates from certain suppliers for transactions entered into on behalf of clients that, based on the terms of the relevant contracts and local law, are either remitted to clients or retained by the Group. If amounts are passed on to clients they are recorded as liabilities until settled or, if retained by the Group, are recorded as revenue when earned.

Variable incentive-based revenue typically comprises both quantitative and qualitative elements. Incentive compensation is estimated using the most likely amount and is included in revenue up to the amount that is highly probable not to result in a significant reversal of cumulative revenue recognised. The Group recognises incentive revenue as the related performance obligation is satisfied.

PUBLIC RELATIONS AND SPECIALIST AGENCIES

Revenue for these services is typically derived from retainer fees and fees for services to be performed subject to specific agreement. Most revenue under these arrangements is earned over time, in accordance with the terms of the contractual arrangement.

DISCONTINUED OPERATIONS (DATA INVESTMENT MANAGEMENT)

Revenue for market research services is typically recognised over time based on input measures. For certain performance obligations, output measures such as the percentage of interviews completed, percentage of reports delivered to a client and the achievement of any project milestones stipulated in the contract are used to measure progress.

While most of the studies provided in connection with the Group's market research contracts are undertaken in response to an individual client's or group of clients' specifications, in certain instances a study may be developed as an off-the-shelf product offering sold to a broad client base. For these transactions, revenue is recognised when the product is delivered. When the terms of the transaction provide for licensing the right to access a product on a subscription basis, revenue is recognised over the subscription period, typically on a straight-line basis.

TAXATION

Corporate taxes are payable on taxable profits at current rates. The tax expense represents the sum of the tax currently payable and deferred tax.

The Group is subject to corporate taxes in a number of different jurisdictions and judgement is required in determining the appropriate provision for transactions where the ultimate tax determination is uncertain. In such circumstances, the Group recognises liabilities for anticipated taxes based on the best information available and where the anticipated liability is both probable and able to be estimated, liabilities are classified as current. Any interest and penalties accrued are included in corporate income taxes both in the consolidated income statement and balance sheet. Where the final outcome of such matters differs from the amount recorded, any differences may impact the income tax and deferred tax provisions in the period in which the final determination is made.

The tax laws that apply to the Group's subsidiaries may be amended by the relevant tax authorities. Such potential amendments are regularly monitored and adjustments are made to the Group's tax liabilities and deferred tax assets and liabilities where necessary.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the consolidated income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are recognised for all taxable temporary differences unless specifically excepted by IAS 12 Income Taxes. Deferred tax is charged or credited in the consolidated income statement, except when it relates to items charged or credited to other comprehensive income or directly to equity, in which case the deferred tax is also recognised within other comprehensive income or equity. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised, which can require the use of accounting estimation and the exercise of judgement. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or other assets and liabilities (other than in a business combination) in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on enacted or substantively enacted legislation.

RETIREMENT BENEFIT COSTS

The Group accounts for retirement benefit costs in accordance with IAS 19 Employee Benefits.

For defined contribution plans, contributions are charged to the consolidated income statement as payable in respect of the accounting period.

For defined benefit plans the amounts charged to operating profit are the current service costs, past service costs, administrative expenses and gains and losses on settlements and curtailments. They are included as part of staff costs. Past service costs are recognised immediately in the consolidated income statement when the related plan amendment occurs. Net interest expense is calculated by applying the discount rate to the recognised overall surplus or deficit in the plan.

Actuarial gains and losses are recognised immediately in other comprehensive income.

Where defined benefit plans are funded, the assets of the plan are held separately from those of the Group, in separate independently managed funds. Pension plan assets are measured at fair value and liabilities are measured on an actuarial basis using the projected unit method and discounted at a rate equivalent to the current rate of return on a high-quality corporate bond of equivalent currency and term to the plan liabilities. The actuarial valuations are obtained at least triennially and are updated at each balance sheet date.

Recognition of a surplus in a defined benefit plan is limited based on the economic gain the Group is expected to benefit from in the future by means of a refund or reduction in future contributions to the plan, in accordance with IAS 19.

PROVISIONS FOR LIABILITIES AND CHARGES

Provisions comprise liabilities where there is uncertainty about the timing of settlement, but where a reliable estimate can be made of the amount. These include provisions for other property-related liabilities such as onerous contracts and dilapidations. Also included are other provisions, primarily long-term employee benefits such as deferred compensation plans, and legal claims, where the likelihood of settlement is considered probable.

LEASES

The Group leases most of its offices in cities where it operates. Other lease contracts include office equipment and motor vehicles.

At inception of a contract, the Group assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured based on the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred, less any lease incentives received. The assets are depreciated over the term of the lease using the straight-line method. The lease term includes periods covered by an option to extend if the Group is reasonably certain to exercise that option.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate for the same term as the underlying lease. Lease payments included in the measurement of lease liabilities comprise fixed payments less any lease incentives receivable and variable lease payments that depend on an index or a rate as at the commencement date. Lease modifications result in remeasurement of the lease liability.

Depreciation is recognised in both costs of services and general and administrative costs and interest expense is recognised under finance costs in the consolidated income statement.

The Group has elected to use the exemption not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets (under \$5,000). The payments associated with these leases are recognised as cost of services and general and administrative costs within the consolidated income statement on a straight-line basis over the lease term.

The Group assesses at the reporting date whether there are any indicators of impairment and performs an impairment test when an impairment indicator exists. The Group tests a right-of-use asset as a stand-alone asset for impairment when it either meets the definition of investment property which generates independent cash flows or it is vacant with minimal to no continued utility for the Group. When a right-of-use asset is tested as a stand-alone asset, an impairment loss is recognised when the carrying amount of the right-of-use asset exceeds its recoverable amount. The recoverable amount of a right-of-use asset is estimated mainly based on the present value of the estimated sublease income, discounted using the property yield rates.

The property held by the Group as right-of-use assets to earn rentals is classified as investment property. The Group measures its investment property applying the cost model.

TRANSLATION OF FOREIGN CURRENCIES

Foreign currency transactions arising from normal trading activities are recorded at the rates in effect at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the year-end are translated at the year-end exchange rate. Foreign currency gains and losses are credited or charged to the consolidated income statement as they arise.

The income statements of foreign subsidiary undertakings are translated into pounds sterling at average exchange rates and the year-end net assets of these companies are translated at year-end exchange rates.

Exchange differences arising from retranslation of the opening net assets and on foreign currency borrowings (to the extent that they hedge the Group's investment in such operations) are reported in the consolidated statement of comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

HYPERINFLATION IN ARGENTINA AND TURKEY

During 2022 and 2021 Argentina was designated as a hyperinflationary economy. In 2022, Turkey was designated as a hyperinflationary economy. The financial statements of the Group's subsidiaries in Argentina and Turkey have been adjusted for the effects of inflation in accordance with IAS 29 Financial Reporting in Hyperinflationary Economies.

IAS 29 requires that the income statement is adjusted for inflation in the period and translated at the year-end foreign exchange rate and that non-monetary assets and liabilities on the balance sheet are restated to reflect the change in purchasing power caused by inflation from the date of initial recognition. In 2022, this resulted in an increase in goodwill of £82.6 million (2021: £23.9 million), an increase in other intangibles of £16.3 million (2021: £7.6 million), and an increase in property, plant and equipment of £41.5 million (2021: £20.3 million). A consumer price index (CPI) of 1,134.6 was used at 31 December 2022 (2021: 582.5) for Argentina. For Turkey, a CPI of 1,128.5 was used at 31 December 2022. The impact on other non-monetary assets and liabilities and the impact on the Group's income statement in the year were immaterial.

SHARE-BASED PAYMENTS

The Group issues equity-settled share-based payments (including share options) to certain employees and accounts for these awards in accordance with IFRS 2 Share-Based Payment. All such payments are settled in WPP plc shares. The Group funds the ESOP trust to purchase WPP plc shares and such investments are included in other investments. Equity-settled share-based payments are measured at fair value (excluding the effect of non-market-based vesting conditions) at the date of grant. Details regarding the fair value of equity settled share-based transactions are set out in notes 21 and 25.

The fair value determined at the grant date is recognised in the consolidated income statement as an expense on a straight-line basis over the relevant vesting period, based on the Group's estimate of the number of shares that will ultimately vest and adjusted for the effect of non-market-based vesting conditions.

GOVERNMENT SUPPORT

In reaction to the Covid-19 pandemic, certain governments have introduced measures to assist companies. A reduction to operating costs is recorded in relation to government subsidies/schemes where these amounts will never have to be repaid. Further details of such amounts are included in note 3. In other cases, this involves the deferral of certain tax payments in order to stimulate the economy. The deferral of payments does not impact the income statement and these are charged as normal in the period they are incurred.

NON-CONTROLLING INTERESTS

Non-controlling interests in acquired companies are measured at the non-controlling interests' proportionate share of the acquiree's identifiable net assets. The acquisition of a non-controlling interest in a subsidiary, and the sale of an interest while retaining control, is accounted for within equity, and the cash cost of such purchases is included within "financing activities" in the cash flow statement.

CRITICAL JUDGEMENTS AND ESTIMATION UNCERTAINTY IN APPLYING ACCOUNTING POLICIES

Management is required to make key decisions and judgements whilst acknowledging there is estimation uncertainty in the process of applying the Group's accounting policies. These estimates and judgements are reviewed on an ongoing basis. Where judgement has been applied or estimation uncertainty exists, the key factors taken into consideration are disclosed in the accounting policies and the appropriate note in these financial statements.

The most significant area of estimation uncertainty is:

- **Goodwill:** the discounted cash flow methodology employed by the Group when testing for goodwill impairment requires estimates regarding operating margins and discount rates. Further details of the methodology, discount rates and estimates used in relation to the goodwill impairment, and sensitivities to these estimates are set out in note 12

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2022

1. GENERAL INFORMATION

WPP Jubilee Limited is a company incorporated in the UK and registered in England and Wales, under the Companies Act. The address of the registered office is Sea Containers House, 18 Upper Ground, London, SE1 9GL. The nature of the Group's operations and its principal activities are set out in note 2. These consolidated financial statements are presented in pounds sterling.

2. SEGMENT INFORMATION

The Group is a leading worldwide creative transformation organisation offering national and multinational clients a comprehensive range of communications, experience, commerce and technology services. Substantially all of the Group's revenue is from contracts with customers.

Reportable segments

The Group is organised into three reportable segments – Global Integrated Agencies, Public Relations and Specialist Agencies.

IFRS 8 Operating Segments requires operating segments to be identified on the same basis as is used internally for the review of performance and allocation of resources by the Group's Chief Executive Officer (the Chief Operating Decision Maker). Provided certain quantitative and qualitative criteria are fulfilled, IFRS 8 permits aggregation of these components into reportable segments for the purposes of disclosure in the Group's financial statements. In assessing the Group's reportable segments, the Directors have had regard to the similar economic characteristics of certain operating segments, their shared client bases, the similar nature of their products or services and their long-term margins, amongst other factors.

In 2022, operating profit includes credits totalling £29.3 million (2021: £19.3 million) relating to the release of provisions and other balances established in respect of acquisitions completed prior to 2021. Further details of the Group's approach to acquisition reserves, as required by IFRS 3 Business Combinations, are given in note 27.

The goodwill impairment charge of £37.9 million in 2022 (2021: £1.8 million) relates to a number of businesses in the Group where the impact of increases in discount rates and current, local economic conditions and trading circumstances is sufficiently severe to indicate impairment to the carrying value.

Amortisation and impairment of acquired intangible assets of £62.1 million (2021: £97.8 million) includes an impairment charge in the year of £1.4 million (2021: £47.9 million) in regard to certain brand names that are no longer in use.

The investment and other impairment charges of £48.0 million (2021: reversal of £42.4 million) relate to the same macro-economic factors noted above. The reversal in the prior year for investments primarily relates to the partial reversal of a £255.6 million impairment taken in 2020 relating to Imagina, an associate in Spain.

Intangible asset impairment of £29.0 million in 2022 (2021: nil) relates to the write off of capitalised configuration and customisation costs related to a software development project.

Restructuring and transformation costs of £203.7 million (2021: £145.5 million) include £134.5 million (2021: £94.2 million) in relation to the Group's IT transformation programme. This programme will allow technology to become a competitive advantage in the market as our clients, and their clients, move to an ever-increasing digital world. It includes costs of £96.8 million (2021: £62.2 million) in relation to the rollout of a new ERP system in order to drive efficiency and collaboration throughout the Group. The remaining restructuring and transformation costs of £69.2 million (2021: £51.3 million) relates to the continuing restructuring plan. As part of that plan, restructuring actions have been taken to right-size under-performing businesses, address high-cost severance markets and simplify operational structures.

Restructuring costs in relation to Covid-19 of £15.1 million (2021: £29.9 million) primarily relate to property costs which the Group undertook in response to the Covid-19 pandemic.

Property related costs include further right-of-use asset impairments taken for properties that were previously impaired due to challenging conditions in the subletting market. In 2022, £18.0 million (2021: nil) were incurred.

Losses on disposal of investments and subsidiaries of £36.3 million in 2022 primarily includes a loss of £63.1 million on the divestment of our Russian interests which completed in May 2022. This was partially offset by gains on other disposals during the period including Res Publica for £17.7 million and Mutual Mobile for £9.4 million with the remaining gains/losses due to individually insignificant transactions. Losses on disposal of investments and subsidiaries of £10.6 million in 2021 includes a loss of £4.9 million on the disposal of XMKT in China, which completed in September 2021.

Gains on remeasurement of equity interests arising from a change in scope of ownership of £66.5 million (2021: £nil) comprises a gain in relation to the reclassification of the Group's interest in Imagina in Spain from interests in associates to other investments.

In 2022, the Group received £8.2 million (2021: £5.3 million) of aid from governments around the world in relation to the Covid-19 pandemic, which is included as a credit in other staff costs.

Other impairment charges included in restructuring costs of £43.3 million (2021: £39.2 million) consists of £7.1 million (2021: £17.6 million) within restructuring costs in relation to Covid-19 and £36.2 million (2021: £21.6 million) within restructuring and transformation costs and property related costs. These impairment charges include £33.5 million (2021: £19.3 million) in relation to right-of-use assets, £9.8 million (2021: £9.8 million) of related property, plant and equipment and £nil (2021: £10.1 million) of other intangibles, arising from the Group's reassessment of its property requirements as a result of effective remote working practices during the Covid-19 pandemic and continued focus on campuses.

7. TAXATION

In 2022, the effective tax rate on reported profit before taxation was 27.6% (2021: 22.3%).

The tax charge comprises:

	2022 £m	2021 £m
Corporation tax		
Current year	425.8	404.0
Prior years	(80.7)	(41.4)
	345.1	362.6
Deferred tax		
Current year	9.4	(131.0)
Prior years	4.7	(1.5)
	14.1	(132.5)
Tax charge	359.2	230.1

The corporation tax credit for prior years in 2022 and 2021 primarily comprises the release of a number of provisions following the resolution of tax matters in various countries.

The tax charge for the year can be reconciled to profit before taxation in the consolidated income statement as follows:

	2022 £m	2021 £m
Profit before taxation	1,297.2	1,032.9
Tax at the corporation tax rate of 19.0% ¹	246.5	196.3

Utilisation of tax losses not previously recognised	(5.4)	(5.1)
Net release of prior year provisions in relation to acquired businesses	(2.8)	(1.1)
Other prior year adjustments	(73.2)	(41.8)
Impact of deferred tax rate change	-	(23.8)
Tax charge	359.2	230.1
Effective tax rate on profit before tax	27.7%	22.3%

Note

¹ As the Group is subject to the tax rates of more than one country, it has chosen to present its reconciliation of the tax charge using the UK corporation tax rate of 19.0% (2021: 19.0%).

FACTORS AFFECTING THE TAX CHARGE IN FUTURE YEARS

The tax charge may be affected by the impact of acquisitions, disposals and other corporate restructurings, the resolution of open tax issues, and the ability to use brought forward tax losses. Changes in local or international tax rules, for example, increasing tax rates as a consequence of the financial support programmes implemented by governments during the Covid-19 pandemic, the OECD/G20 Inclusive Framework on Base Erosion and Profit Shifting, and changes arising from the application of existing rules or challenges by tax or competition authorities, may expose the Group to additional tax liabilities or impact the carrying value of deferred tax assets, which could affect the future tax charge.

Liabilities relating to open and judgemental matters are based upon an assessment of whether the tax authorities will accept the position taken, after considering external advice where appropriate. Where the final tax outcome of these matters is different from the amounts which were initially recorded, such differences will impact the current and deferred income tax assets and liabilities in the period in which such determination is made. The Group does not currently consider that judgements made in assessing tax liabilities have a significant risk of resulting in any material additional charges or credits in respect of these matters, within the next financial year, beyond the amounts already provided.

Following the enactment in 2021 of an increase in the UK corporation tax rate from 19% to 25% from 1 April 2023, the Group remeasured UK deferred tax balances accordingly and recognised a tax credit of £23.8 million in the prior period.

7. TAXATION (CONTINUED)

TAX RISK MANAGEMENT

We look to maintain open and transparent relationships with the tax authorities in the jurisdictions in which we operate and relevant government representatives. We maintain active engagement with a wide range of international companies and business organisations with similar issues. We engage advisors and legal counsel to obtain opinions on tax legislation and principles. We have a Tax Risk Management Strategy in place which sets out the controls established and our assessment procedures for decision making and how we monitor tax risk. We monitor proposed changes in taxation legislation and ensure these are taken into account when we consider our future business plans. Our Directors are informed by management of any significant tax law changes, the nature and status of any significant ongoing tax audits, and other developments that could materially affect the Group's tax position.

8. ORDINARY DIVIDENDS

Dividends of £2,052.6 million were paid or declared in the periods presented for WPP Jubilee Limited (2021: £nil). The dividend paid was deemed to be settled by offsetting with the intercompany payables.

9. SOURCES OF FINANCE

Eurobonds The Group has in issue €750 million of 3.0% bonds due November 2023, €500 million of 1.375% bonds due March 2025, €750 million of 2.25% bonds due September 2026, €750 million of 2.375% bonds due May 2027, and €600 million of 1.625% bonds due March 2030. In March 2022, €250 million of Floating Rate Notes carrying a coupon of 3m EURIBOR +0.45% were repaid.

Sterling bonds The Group has in issue £250 million of 3.750% bonds due May 2032 and £400 million of 2.875% bonds due September 2046.

Revolving Credit Facility The Group has a five-year Revolving Credit Facility of \$2.5 billion due March 2026, signed in November 2021. The Group's borrowings under these facilities, which are drawn down predominantly in pounds sterling, averaged nil in 2022 (2021: nil).

In May 2021, the Group's subsidiary, WPP AUNZ, repaid in full its A\$150 million Revolving Credit Facility due August 2021, and its A\$270 million Revolving Credit Facility due August 2023. The Group's borrowings under the Australian dollar facilities, which were drawn down in Australian dollars and New Zealand dollars, averaged the equivalent of nil in 2022 (2021: A\$52 million).

The Group had available undrawn committed credit facilities of £2,069.0 million at 31 December 2022 (2021: £1,847.5 million). Borrowings under the \$2.5 billion Revolving Credit Facility are governed by certain financial covenants based on the results and financial position of the Group.

During 2022, all covenants have been complied with and based on current forecasts it is expected that such covenants will continue to be complied with for the foreseeable future.

The \$2.5 billion Revolving Credit Facility, due March 2026, includes terms which require the consent of the majority of the lenders if a proposed merger or consolidation of the Company would alter its legal personality or identity.

Other goodwill represents goodwill on a large number of CGUs, none of which is individually significant in comparison to the total carrying value of goodwill. Separately identifiable brands with an indefinite useful life are carried at historical cost in accordance with the Group's accounting policy for intangible assets. The carrying values of the other brands with an indefinite useful life are not individually significant in comparison with the total carrying value of brands with an indefinite useful life.

Acquired intangible assets at net book value at 31 December 2022 include brand names of £142.3 million (2021: £137.4 million), customer-related intangibles of £120.3 million (2021: £110.4 million), and other assets (including proprietary tools) of £26.1 million (2021: £25.6 million).

The total amortisation and impairment of acquired intangible assets of £61.9 million (2021: £97.3 million) includes an impairment charge in the year of £1.4 million (2021: £47.9 million) in regards to certain brand names in the Global Integrated Agencies segment that are no longer in use. In 2021, £43.8 million of the impairment charge related to brands with an indefinite useful life. In 2021, £45.1 million of the impairment charge related to the Global Integrated Agencies segment and £2.8 million related to the Specialist Agencies segment. In addition, the total amortisation and impairment of acquired intangible assets includes £0.2 million (2021: £0.5 million) in relation to associates.

In accordance with the Group's accounting policy, the carrying values of goodwill and intangible assets with indefinite useful lives are reviewed for impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. The impairment review is undertaken annually on 30 September. A goodwill impairment charge of £37.9 million (2021: £1.8 million) was recognised during the year due to a number of underperforming businesses in the Group. This year, £34.2 million of the impairment charge related to the Specialist Agencies segment and £3.7 million related to the Public Relations segment. In certain markets, the impact of local economic conditions and trading circumstances on these businesses was sufficiently severe to indicate impairment to the carrying value of goodwill.

Under IFRS, an impairment charge is required for both goodwill and other indefinite-lived assets when the carrying amount exceeds the "recoverable amount", defined as the higher of fair value less costs of disposal and value in use. The review assessed whether the carrying value of goodwill and intangible assets with indefinite useful lives was supported by the value in use determined as the net present value of future cash flows.

Due to the significant number of CGUs, the impairment test was performed in two steps. In the first step, the recoverable amount was calculated for each CGU using the latest available forecasts for 2022 and/or 2023, nil growth rate thereafter (2021: nil) and a conservative pre-tax discount rate of 15.5% (2021: 13.5%). The pre-tax discount rate of 15.5% was above the rate calculated for the global networks of 14.5% (2021: 12.5%). For smaller CGUs that operate primarily in a particular region subject to higher risk, the higher of 15.5% or 100 basis points above the regional discount rate was used in the first step.

The recoverable amount was then compared to the carrying amount, which includes goodwill, intangible assets and other assets. CGUs where the recoverable amount exceeded the carrying amount were not considered to be impaired. Those CGUs where the recoverable amount did not exceed the carrying amount were then further reviewed in the second step.

In the second step, these CGUs were retested for impairment using more refined assumptions. This included using a CGU specific pre-tax discount rate and management forecasts for a projection period of up to five years, followed by an assumed long-term growth rate of 2.0% (2021: 2.0%) if the recoverable amount using the more specific assumptions did not exceed the carrying value of a CGU, an impairment charge was recorded.

The long-term growth rate is derived from management's best estimate of the likely long-term trading performance with reference to external industry reports and other relevant market trends. As at 31 December 2022, we have assessed long-term industry trends based on recent historical data and assumed a long-term growth rate of 2.0% (2021: 2.0%). Management have made the judgement that the long-term growth rate does not exceed the long-term average growth rate for the industry.

The discount rate uses the capital asset pricing model (CAPM) to derive the cost of equity along with an estimated cost of debt that is weighted by an appropriate capital structure to derive an indication of a weighted average cost of capital. The cost of equity is calculated based on long-term government bond yield, an estimate of the required premium for investment in equity relative to government securities and further considers the volatility associated with peer public companies relative to the market. The cost of debt reflects an estimated market yield for long-term debt financing after taking into account the credit profile of public peer companies in the industry. The capital structure used to weight the cost of equity and cost of debt has been derived from the observed capital structure of public peer companies.

The pre-tax discount rate applied to the cash flow projections for the CGUs that operate globally was 14.5% (2021: 12.5%). We developed a global discount rate that takes into account the diverse nature of the operations, as these CGUs operate with a diverse range of clients in a range of industries throughout the world, hence are subject to similar levels of market risks. The pre-tax discount rates applied to the CGUs that have more regional specific operations ranged from 14.0% (2021: 11.3%) to 22.6% (2021: 18.4%).

Our approach in determining the recoverable amount utilises a discounted cash flow methodology, which necessarily involves making numerous estimates and assumptions regarding revenue less pass-through costs growth, operating margins, appropriate discount rates and working capital requirements. The key assumptions used for estimating cash flow projections in the Group's impairment testing are those relating to revenue less passthrough costs growth and operating margins. The key assumptions take account of the business's expectations for the projection period. These expectations consider the macroeconomic environment, industry and market conditions, the CGU's historical performance and any other circumstances particular to the unit, such as business strategy and client mix.

12. INTANGIBLE ASSETS (CONTINUED)

These estimates will likely differ from future actual results of operations and cash flows, and it is possible that these differences could be material. In addition, judgements are applied in determining the level of CGU identified for impairment testing and the criteria used to determine which assets should be aggregated. A difference in testing levels could affect whether an impairment is recorded and the extent of impairment loss. Changes in our business activities or structure may also result in additional changes to the level of testing in future periods. Further, future events could cause the Group to conclude that impairment indicators exist and that the asset values associated with a given operation have become impaired.

Historically our impairment losses have resulted from a specific event, condition or circumstance in one or more of our companies, such as the impact of Covid-19 or the loss of a significant client. As a result, changes in the assumptions used in our impairment model have generally not had a significant effect on the impairment charges recognised. The average operating margins used in the five-year projection period for CGUs with significant goodwill and brands with an indefinite useful life ranged from 12.8% to 23.6%. *Wunderman Thompson's recoverable amount exceeded its carrying value by £105.5 million and is the only CGU with significant goodwill and brands with an indefinite useful life that is sensitive to changes in the key assumptions used in determining the recoverable amount.* Holding other assumptions constant, the carrying value would be greater than its recoverable amount if the average operating margin decreased by 0.8% or the discount rate increased by 0.7%. Wunderman Thompson is not sensitive to a reasonably possible change in revenue less pass-through costs growth. The carrying value of goodwill and other intangible assets will continue to be reviewed at least annually for impairment and adjusted down to the recoverable amount if required.

Interests in joint ventures are immaterial and none of the Group's associates are individually material at 31 December 2022.

The investments included above as "other investments" represent investments in equity securities that present the Group with opportunity for return through dividend income and trading gains. They have no fixed maturity or coupon rate. The fair values of the listed securities are based on quoted market prices. For unlisted securities, where market value is not available, the Group has estimated relevant fair values on the basis of information from outside sources.

The carrying values of the Group's associates and joint ventures are reviewed for impairment in accordance with the Group's accounting policies.

AGGREGATE INFORMATION OF ASSOCIATES THAT ARE NOT INDIVIDUALLY MATERIAL

The following table presents a summary of the aggregate financial performance of the Group's associate undertakings and joint ventures.

	2022 £m	2021 £m
(Loss)/earnings from associates - after interest and tax (note 4)	(60.4)	23.8
Share of other comprehensive income of associate undertakings	51.2	13.5
Share of total comprehensive (loss)/income of associate undertakings	(9.2)	37.3

The application of equity accounting is ordinarily discontinued when the investment is reduced to zero and additional losses are not provided for unless the Group has guaranteed obligations of the investee or is otherwise committed to provide further financial support for the investee.

As at 31 December 2021, the cumulative share of unrecognised losses in relation to Imagina, an associate in Spain with the investment carrying value reduced to zero, were £23.0 million. In 2022, the Group partially disposed of its investment in Imagina in Spain resulting in its reclassification from interests in associates to other investments (within the scope of IFRS 9) designated as fair value through other comprehensive income. Refer to note 24 for further details on financial instruments held at fair value through other comprehensive income.

In the year ended 31 December 2022, share of losses of £29.5 million for the US and £33.8 million for the Rest of World were not recognised in relation to Kantar as the investment was reduced to zero.

At 31 December 2022, capital commitments contracted, but not provided for, in respect of interests in associates and other investments were £3.2 million (2021: £5.4 million).

15. DEFERRED TAX

The Group's deferred tax assets and liabilities are measured at the end of each period in accordance with IAS 12 Income Taxes. The recognition of deferred tax assets is determined by reference to the Group's estimate of recoverability, using models where appropriate to forecast future taxable profits.

Deferred tax assets have only been recognised for territories where the Group considers that it is probable that all or a portion of the deferred tax assets will be realised. The main factors that we consider include:

- the future earnings potential determined through the use of internal forecasts
- the cumulative losses in recent years
- the various jurisdictions in which the potential deferred tax assets arise
- the history of losses carried forward and other tax assets expiring
- the timing of future reversal of taxable temporary differences
- the expiry period associated with the deferred tax assets
- the nature of the income that can be used to realise the deferred tax asset

If it is probable that some portion of these assets will not be realised, no asset is recognised in relation to that portion.

If market conditions improve and future results of operations exceed our current expectations, our existing recognised deferred tax assets may be adjusted, resulting in future tax benefits. Alternatively, if market conditions deteriorate further or future results of operations are less than expected, future assessments may result in a determination that some or all of the deferred tax assets are not realisable. As a result, all or a portion of the deferred tax assets may need to be reversed.

Certain deferred tax assets and liabilities have been offset as they relate to the same tax group. The following is the analysis of the deferred tax balances for financial reporting purposes:

	Gross 2022 £m	Offset 2022 £m	As reported 2022 £m	Gross 2021 £m	Offset 2021 £m	As reported 2021 £m
Deferred tax assets	588.8	(266.7)	322.1	565.0	(223.5)	341.5

31 December 2022	74.3	120.1	48.0	101.6	122.5	32.3	84.6	5.4	588.8

Other temporary differences comprise a number of items, none of which is individually significant to the Group's consolidated balance sheet. At 31 December 2022 the balance related to temporary differences in relation to revenue adjustments, tax deductible goodwill, fair value adjustments and other temporary differences.

15. DEFERRED TAX (CONTINUED)

In addition, the Group has recognised the following gross deferred tax liabilities and movements thereon in 2022 and 2021:

	Brands and other intangibles £m	Associate earnings £m	Goodwill £m	Property, plant and equipment £m	Financial instruments £m	Other temporary differences £m	Total £m

31 December 2022	352.6	36.5	173.4	23.0	–	32.0	617.5

Other temporary differences comprise a number of items none of which is individually significant to the Group's consolidated balance sheet. At 31 December 2022 the balance related to temporary differences in relation to unremitted earnings of subsidiaries, unremitted earnings of associates and other temporary differences.

At the balance sheet date, the Group has gross tax losses and other temporary differences of £7,667.4 million (2021: £6,961.4 million) available for offset against future profits. Deferred tax assets have been recognised in respect of the tax benefit of £2,259.7 million (2021: £2,259.2 million) of such tax losses and other temporary differences. No deferred tax asset has been recognised in respect of the remaining £5,407.7 million (2021: £4,702.2 million) of losses and other temporary differences as the Group considers that there will not be enough taxable profits in the entities concerned such that any additional asset could be considered recoverable. Included in the total unrecognised temporary differences are losses of £60.3 million (2021: £63.8 million) that will expire within one to ten years, and £5,138.1 million (2021: £4,457.3 million) of losses that may be carried forward indefinitely.

At the balance sheet date, the aggregate amount of the temporary differences in relation to the investment in subsidiaries for which deferred tax liabilities have not been recognised was £1,346.1 million (2021: £1,385.3 million). No liability has been recognised in respect of these differences because the Group is in a position to control the timing of the reversal of the temporary differences and the Group considers that it is probable that such differences will not reverse in the foreseeable future.

16. TRADE AND OTHER RECEIVABLES

The following are included in trade and other receivables:

	2022 £m	2021 £m
Amounts falling due within one year		
Trade receivables (net of loss allowance)	7,403.9	6,600.5
Work in progress	352.4	254.0

The Group has applied the practical expedient permitted by IFRS 15 to not disclose the transaction price allocated to performance obligations unsatisfied (or partially unsatisfied) as of the end of the reporting period as contracts typically have an original expected duration of a year or less.

Other debtors falling due after more than one year for 31 December 2022 includes £15.4 million in relation to pension plans in surplus. The corresponding figure for 31 December 2021 is included in provision for post employment benefits.

At end of year	71.5	70.5

The loss allowance is equivalent to 1.0% (2021: 1.1%) of gross trade accounts receivables.

Impairment losses on work in progress, accrued income and other debtors were immaterial for the years presented.

The Group considers that the carrying amount of trade and other receivables approximates their fair value.

EXPECTED CREDIT LOSSES

Given the short-term nature of the Group's trade receivables, work in progress, and accrued income, which are mainly due from large national or multinational companies, the Group's assessment of expected credit losses includes provisions for specific clients and receivables where the contractual cash flow is deemed at risk. Considerations include the current economic environment, and the level of credit insurance the Group has along with historical and forward-looking information. Additional provisions are made based on the assessment of recoverability of aged receivables over one year where sufficient evidence of recoverability is not evident.

17. TRADE AND OTHER PAYABLES: AMOUNTS FALLING DUE WITHIN ONE YEAR

The following are included in trade and other payables falling due within one year:

	2022 £m	2021 £m
Trade payables	11,182.5	10,596.9
Deferred income	1,599.0	1,334.0
Payments due to vendors (earnout agreements)	62.0	85.6

Fair value of derivatives	58.0	6.4
Amounts due to parent company	362.7	550.3
Other creditors and accruals	2,911.0	2,983.4
	16,194.0	15,615.0

The Group considers that the carrying amount of trade and other payables approximates their fair value.

In all material respects, deferred income at 31 December 2021 was recognised as revenue during the year. Other than business-as-usual movements, and deferred income acquired on the acquisition of subsidiaries, there were no other significant changes in contract liability balances during the year.

18. TRADE AND OTHER PAYABLES: AMOUNTS FALLING DUE AFTER MORE THAN ONE YEAR

The following are included in trade and other payables falling due after more than one year:

	2022 £m	2021 £m
Payments due to vendors (earnout agreements)	98.1	111.1
Liabilities in respect of put option agreements with vendors	323.3	333.1
Fair value of derivatives	-	47.2
Other creditors and accruals	69.5	128.5
	490.9	619.9

The Group considers that the carrying amount of trade and other payables approximates their fair value.

The following table sets out payments due to vendors, comprising contingent consideration and the Directors' best estimates of future earnout-related obligations:

	2022 £m	2021 £m
Within one year	62.0	85.6

Between four and five years	74.8	76.6
Over five years	67.5	128.0
	342.1	391.5

19. BANK OVERDRAFTS, BONDS AND BANK LOANS

Amounts falling due within one year:

	2022 £m	2021 £m
Bank overdrafts	505.7	342.3
Corporate bonds and bank loans	663.3	224.9
	1,169.0	567.2

The Group considers that the carrying amount of bank overdrafts approximates their fair value.

Amounts falling due after more than one year:

	2022 £m	2021 £m
Corporate bonds and bank loans	3,801.8	4,216.8

The Group estimates that the fair value of corporate bonds is £4,049.1 million at 31 December 2022 (2021: £4,790.3 million). The fair values of the corporate bonds are based on quoted market prices and is within Level 1 of the fair value hierarchy.

The Group considers that the carrying amount of bank loans of £nil (2021: £14.7 million) approximates their fair value.

The corporate bonds, bank loans and overdrafts included within liabilities fall due for repayment as follows:

	2022 £m	2021 £m
Within one year	1,169.0	567.2
Between one and two years	618.0	629.2
Between two and three years	441.5	550.4
Between three and four years	658.8	418.8
Between four and five years	661.1	623.6
Over five years	1,422.4	1,994.8
	4,970.8	4,784.0

20. PROVISIONS FOR LIABILITIES AND CHARGES

The movements in 2022 and 2021 were as follows:

	Property £m	Other £m	Total £m
1 January 2021	76.7	229.6	306.3
Charged to the income statement	25.2	35.8	61.0

Exchange adjustments	4.9	17.8	22.7
31 December 2022	62.8	181.8	244.6

Note

¹ Acquisitions include £1.3 million (2021: £7.3 million) of provisions arising from revisions to fair value adjustments related to the acquisition of subsidiary undertakings that had been determined provisionally at the immediately preceding balance sheet date, as permitted by IFRS 3 Business Combinations.

The Company and various of its subsidiaries are, from time to time, parties to legal proceedings and claims which arise in the ordinary course of business. The Directors do not anticipate that the outcome of these proceedings and claims will have a material adverse effect on the Group's financial position or on the results of its operations.

The utilisation of "Other" provisions in 2021 is primarily driven by litigation settlements.

21. SHARE-BASED PAYMENTS

Charges for share-based incentive plans were as follows:

	2022 £m	2021 £m
Share-based payments	122.0	99.6

Share-based payments comprise charges for stock options and restricted stock awards to employees of the Group.

As of 31 December 2022, there was £200.7 million (2021: £203.4 million) of total unrecognised compensation cost related to the Group's restricted stock plans.

Further information on stock options is provided in note 25.

RESTRICTED STOCK PLANS

The Group operates a number of equity-settled share incentive schemes, in most cases satisfied by the delivery of stock from one of the Group's ESOP Trusts. The most significant current schemes are as follows:

EXECUTIVE PERFORMANCE SHARE PLAN (EPSP)

This scheme is intended to reward and incentivise the most senior executives of the Group. The performance period is three or five complete financial years, commencing with the financial year in which the award is granted. The vest date will usually be in the March following the end of the performance period. Vesting is conditional on continued employment throughout the vesting period.

The 2021 and 2022 EPSP awards are subject to three equally weighted performance conditions: three-year average Return on Invested Capital (ROIC), cumulative Adjusted Free Cash Flow (AFCF), and relative Total Shareholder Return (TSR). Achieving the threshold performance requirement will result in a vesting opportunity of 20% for that element. The vesting opportunity will increase on a straight-line basis to 100% of the award for maximum performance. The Compensation Committee has an overriding discretion to determine the extent to which the award will vest.

The 2019 EPSP awards are subject to a relative TSR performance condition, with a ROIC underpin. TSR performance will be compared to companies representing the most relevant, listed global competitors, with performance below median resulting in zero vesting. Performance between median and upper decile provides for a vesting opportunity of between 15% and 100%. The awards will vest subject to a ROIC underpin of an average of 7.5% over the performance period. The Compensation Committee has an overriding discretion to determine the extent to which the award will vest.

For EPSP awards granted between 2017 and 2018 there are three performance criteria, each constituting one-third of the vesting value, and each measured over the performance period:

- TSR against a comparator group of companies. Threshold performance (equating to ranking in the 50th percentile of the comparator group) will result in 15% vesting of the part of the award dependent on TSR. The maximum vest of 100% will arise if performance ranks in the 90th percentile, with a sliding scale of vesting for performance between threshold and maximum.
- Headline diluted earnings per share. The performance range is 7% to 14% compound annual growth. Threshold performance will result in 15% vesting, maximum performance will result in 100% vesting. There is a sliding vesting scale in between threshold and maximum.
- Return on equity (ROE). Average annual ROE is defined as headline diluted EPS divided by the balance sheet value per share of shareholders' equity. The performance range is 15% – 18% average annual ROE. Threshold performance will result in 15% vesting, maximum performance will result in 100% vesting. There is a sliding vesting scale in between threshold and maximum.

PERFORMANCE SHARE AWARDS (PSA)

Conditional stock awards made under the PSA are dependent upon annual performance targets, typically based on one or more of: operating profit, profit before taxation and operating margin. Grants are made in the year following the year of performance measurement, and vest two years after grant date provided the individual concerned is continually employed by the Group throughout this time.

LEADERSHIP SHARE AWARDS

WPP Leadership Awards are conditional stock awards made to around 1,900 of our key executives. Awards vest three years after grant, provided the participant is still employed within the Group.

VALUATION METHODOLOGY

For all of these schemes, the valuation methodology is based upon fair value on grant date, which is determined by the market price on that date or the application of a Black-Scholes model, depending upon the characteristics of the scheme concerned. The assumptions underlying the Black-Scholes model are detailed in note 26, including details of assumed dividend yields. Market price on any given day is obtained from external, publicly available sources.

MARKET/NON-MARKET CONDITIONS

Most share-based plans are subject to non-market performance conditions, such as margin or growth targets, as well as continued employment. EPSP is subject to a number of performance conditions, including TSR, a market-based condition.

For schemes without market-based performance conditions, the valuation methodology above is applied and, at each year-end, the relevant charge for each grant is revised, if appropriate, to take account of any changes in estimate of the likely number of shares expected to vest.

For schemes with market-based performance conditions, the probability of satisfying these conditions is assessed at grant date through a statistical model (such as the Monte Carlo model) and applied to the fair value. This initial valuation remains fixed throughout the life of the relevant plan, irrespective of the actual outcome in terms of performance. Where a lapse occurs due to cessation of employment, the cumulative charge taken to date is reversed.

22. PROVISION FOR POST-EMPLOYMENT BENEFITS

Companies within the Group operate a large number of pension plans, the forms and benefits of which vary with conditions and practices in the countries concerned.

The Group's pension costs are analysed as follows:

	2022 £m	2021 £m
Defined contribution plans	191.3	162.8
Defined benefit plans charge to operating profit	13.5	14.9
Pension costs (note 5)	204.8	177.7
Net interest expense on pension plans (note 6)	2.2	1.8
	207.0	179.5

DEFINED BENEFIT PLANS

The pension costs are assessed in accordance with the advice of local independent qualified actuaries. The latest full actuarial valuations for the various pension plans were carried out at various dates in the last three years. These valuations have been updated by the local actuaries to 31 December 2022.

The majority of plans provide final salary benefits, with plan benefits typically based either on mandatory plans under local legislation, termination indemnity benefits, or on the rules of WPP sponsored supplementary plans. The implications of IFRIC 14 have been allowed for where relevant, in particular with regard to the asset ceiling/irrecoverable surplus.

The Group's policy is to close existing defined benefit plans to new members. This has been implemented across a significant number of the pension plans.

Contributions to funded plans are determined in line with local conditions and practices. Contributions in respect of unfunded plans are paid as they fall due. The total contributions (for funded plans) and benefit payments (for unfunded plans) paid for 2022 amounted to £24.0 million (2021: £16.7 million). Employer contributions and benefit payments in 2023 are expected to be approximately £20.0 million.

22. PROVISION FOR POST-EMPLOYMENT BENEFITS (CONTINUED)

(A) ASSUMPTIONS

There are a number of areas in pension accounting that involve estimates made by management based on advice of qualified advisors. These include establishing the discount rates, rates of increase in salaries and pensions in payment, inflation, and mortality assumptions. The main weighted average assumptions used for the actuarial valuations at 31 December are shown in the following table:

	2022 % pa	2021 % pa
UK		
Discount rate ¹	5.1	1.8
Rate of increase in pensions in payment	4.4	4.5
Inflation	3.0	3.2
North America		
Discount rate ¹	5.2	2.6
Rate of increase in salaries ²	n/a	n/a
Western Continental Europe		
Discount rate ¹	4.1	1.2
Rate of increase in salaries	2.5	2.3
Rate of increase in pensions in payment	2.0	1.8
Inflation	2.0	1.7
Asia Pacific, Latin America, Africa & Middle East and Central & Eastern Europe		
Discount rate ¹	6.4	5.3
Rate of increase in salaries	5.7	5.6
Inflation	3.4	3.7

Notes

1. Discount rates are based on high-quality corporate bond yields. In countries where there is no deep market in corporate bonds, the discount rate assumption has been set with regard to the yield on long-term government bonds.

2. The salary assumptions are no longer applicable to the US as all plans were frozen. Active participants will not accrue additional benefits for future services under these plans.

For the Group's pension plans, the plans' assets are invested with the objective of being able to meet current and future benefit payment needs, while controlling balance sheet volatility and future contributions. Pension plan assets are invested with a number of investment managers, and assets are diversified among equities, bonds, insured annuities, property and cash or other liquid investments. The primary use of bonds as an investment class is to match the anticipated cash flows from the plans to pay pensions. The Group is invested in high-quality corporate and government bonds which share similar risk characteristics and are of equivalent currency and term to the plan liabilities. Various insurance policies have also been bought historically to provide a more exact match for the cash flows, including a match for the actual mortality of specific plan members. These insurance policies effectively provide protection against both investment fluctuations and longevity risks. The strategic target allocation varies among the individual plans.

Management considers the types of investment classes in which the pension plan assets are invested. The types of investment classes are determined by economic and market conditions and in consideration of specific asset class risk.

Management periodically commissions detailed asset and liability studies performed by third-party professional investment advisors and actuaries that generate probability-adjusted expected future returns on those assets. These studies also project the estimated future pension payments and evaluate the efficiency of the allocation of the pension plan assets into various investment categories.

At 31 December 2022, the life expectancies underlying the value of the accrued liabilities for the main defined benefit pension plans operated by the Group were as follows:

Years life expectancy after age 65	All plans	North America	UK	Western Continental Europe	Other ¹
Current pensioners (at age 65) – male	22.3	21.9	23.6	21.0	12.7
Current pensioners (at age 65) – female	24.0	23.3	25.1	24.0	15.5
Future pensioners (current age 45) – male	24.0	23.3	25.6	23.2	12.7
Future pensioners (current age 45) – female	25.7	24.7	27.1	25.9	15.5

Note

¹ Includes Asia Pacific, Latin America, Africa & Middle East and Central & Eastern Europe

The life expectancies after age 65 at 31 December 2021 were 22.3 years and 24.0 years for male and female current pensioners (at age 65) respectively, and 24.1 years and 25.8 years for male and female future pensioners (current age 45), respectively.

In the determination of mortality assumptions, management uses the most up-to-date mortality tables available in each country.

22. PROVISION FOR POST-EMPLOYMENT BENEFITS (CONTINUED)

The following table provides information on the weighted average duration of the defined benefit pension obligations and the distribution of the timing of benefit payments for the next ten years. The duration corresponds to the weighted average length of the underlying cash flows.

The following table presents a sensitivity analysis for each significant actuarial assumption showing how the defined benefit obligation would have been affected by changes in the relevant actuarial assumption that were reasonably possible at the balance sheet date. This sensitivity analysis applies to the defined benefit obligation only and not to the net defined benefit pension liability in its entirety, the measurement of which is driven by a number of factors including, in addition to the assumptions below, the fair value of plan assets.

The sensitivity analyses are based on a change in one assumption while holding all other assumptions constant so that interdependencies between the assumptions are excluded. The methodology applied is consistent with that used to determine the recognised defined benefit obligation. The sensitivity analysis for inflation is not shown as it is an underlying assumption to build the pension and salary increase assumptions. Changing the inflation assumption on its own without changing the salary or pension assumptions will not result in a significant change in pension liabilities.

Notes

1 The related deferred tax asset is discussed in note 15

2 The net asset related to plans in surplus of £5.4 million for 31 December 2022 is recorded in the consolidated balance sheet within other debtors. The corresponding figures for 31 December 2021 are recorded in provision for post-employment benefits

All plan assets have quoted prices in active markets with the exception of insured annuities and other assets. The value of insured annuities is equal to the value of the pension benefits covered by the annuities.

Some of the Group's defined benefit plans are unfunded (or largely unfunded) by common custom and practice in certain jurisdictions. In the case of these unfunded plans, the benefit payments are made as and when they fall due. Pre-funding of these plans would not be typical business practice.

22. PROVISION FOR POST-EMPLOYMENT BENEFITS (CONTINUED)

The following table shows the split of the deficit at 31 December between funded and unfunded pension plans.

23. RISK MANAGEMENT POLICIES

FOREIGN CURRENCY RISK

The Group's results in pounds sterling are subject to fluctuation as a result of exchange rate movements. The Group does not hedge this translation exposure to its earnings but does partially hedge the currency element of its net assets using foreign currency borrowings, cross-currency swaps and forward foreign exchange contracts.

The Group effects these currency net asset hedges by borrowing in the same currencies as the operating (or "functional") currencies of its main operating units. The majority of the Group's debt is therefore denominated in US dollars, pounds sterling and euros. The Group's borrowings (including cross currency swaps) at 31 December 2022 were primarily made up of \$1,667 million, £1,094 million and €2,350 million (2021: \$1,667 million, £1,094 million and €2,600 million). The Group's average gross debt during the course of 2022 was \$1,667 million, £1,094 million and €2,404 million (2021: \$1,934 million, £1,094 million and €2,600 million).

The Group's operations conduct the majority of their activities in their own local currency and consequently the Group has no significant transactional foreign exchange exposures arising from its operations. Any significant cross-border trading exposures are hedged by the use of forward foreign-exchange contracts. No speculative foreign exchange trading is undertaken.

23. RISK MANAGEMENT POLICIES (CONTINUED)

INTEREST RATE RISK

The Group is exposed to interest rate risk on both interest-bearing assets and interest-bearing liabilities. The Group has a policy of actively managing its interest rate risk exposure while recognising that fixing rates on all its debt eliminates the possibility of benefiting from rate reductions and, similarly, having all its debt at floating rates unduly exposes the Group to increases in rates.

Including the effect of interest rate and cross-currency swaps, 100% of the year-end US dollar debt is at fixed rates averaging 4.18% for an average period of 60 months; 100% of the sterling debt is at a fixed rate of 2.97% for an average period of 143 months; and 100% of the euro debt is at fixed rates averaging 2.21% for an average period of 55 months.

GOING CONCERN AND LIQUIDITY RISK

In considering going concern and liquidity risk, the Directors have considered the results of WPP plc as the direct parent company of the Company and Group. They have reviewed WPP plc Group's future cash requirements and earnings projections. The Directors believe these forecasts have been prepared on a prudent basis and have also considered the impact of a range of potential changes to trading performance. The impact of the Russian invasion of Ukraine and sanctions response from governments has been considered.

WPP plc Group has modelled a range of revenue less pass-through costs compared with the year ended 31 December 2022 and a number of mitigating cost actions that are available. In addition, the Company has net assets of £11,526,400,000 and can therefore meet its short and long-term obligations as they fall due.

Furthermore, considering WPP plc Group's bank covenant and liquidity headroom and cost mitigation actions which could be implemented, the Company and the Group would be able to operate with appropriate liquidity and within any banking covenants and be able to meet its liabilities as they fall due. The likelihood of such a decline to impact the going concern conclusion is considered remote as compared to WPP plc Group's expectations and external benchmarks, including previously witnessed declines in times of economic stress or external forces such as the pandemic. Therefore, the Directors have concluded that the Group will be able to operate within its current facilities and comply with its banking covenants for the foreseeable future and therefore believe it is appropriate to prepare the financial statements of the Group on a going concern basis and that there are no material uncertainties which give rise to a significant going concern risk.

At 31 December 2022, the Group has access to £6.6 billion of committed facilities with maturity dates spread over the years 2023 to 2046 as illustrated below:

		2023 £m	2024 £m	2025 £m	2026 £m	2027+ £m

Net cash at 31 December 2022	(1,985.8)					
Other adjustments	(30.2)					
Adjusted net debt at 31 December 2022	2,479.3					

Given the strong cash generation of the business, its debt maturity profile and available facilities, the Directors believe the Group has sufficient liquidity to match its requirements for the foreseeable future.

TREASURY ACTIVITIES

Treasury activity is managed centrally from London, New York and Hong Kong, and is principally concerned with the monitoring of working capital, managing external and internal funding requirements and the monitoring and management of financial market risks, in particular interest rate and foreign exchange exposures.

The treasury operation is not a profit centre and its activities are carried out in accordance with policies approved by the WPP plc Board of Directors and subject to regular review and audit.

The Group manages liquidity risk by ensuring continuity and flexibility of funding even in difficult market conditions. Undrawn committed borrowing facilities are maintained in excess of peak net-borrowing levels and debt maturities are closely monitored. Targets for average adjusted net debt are set on an annual basis and, to assist in meeting this, working capital targets are set for all the Group's major operations.

CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance. The capital structure of the Group consists of debt, which includes the borrowings disclosed in note 9, cash and cash equivalents and equity attributable to equity holders of the parent, comprising issued capital, reserves and retained earnings as disclosed in the consolidated statement of changes in equity and in notes 25 and 26.

23. RISK MANAGEMENT POLICIES (CONTINUED)

CREDIT RISK

The Group's principal financial assets are cash and short-term deposits, trade and other receivables and investments, the carrying values of which represent the Group's maximum exposure to credit risk in relation to financial assets, as shown in note 24.

The Group's credit risk is primarily attributable to its trade receivables. The majority of the Group's trade receivables are due from large national or multinational companies where the risk of default is considered low. The amounts presented in the consolidated balance sheet are net of loss allowances, estimated by the Group's management based on expected losses, prior experience and their assessment of the current economic environment. A relatively small number of clients make up a significant percentage of the Group's debtors, but no single client represents more than 6% of total trade receivables as at 31 December 2022 or 31 December 2021.

The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are high-rated (AAA) funds, banks with high credit ratings assigned by international credit-rating agencies or banks that have been financed by their government.

EFFECTS OF HEDGE ACCOUNTING ON THE FINANCIAL POSITION AND PERFORMANCE

The effects of the hedging instruments on the Group's financial position and performance are as follows:

	2022	2021
(i) Cash flow hedges of foreign currency risk

Note

¹ This amount is presented in trade and other receivables, and trade and other payables. The use of derivatives may entail a derivative transaction qualifying for more than one hedge type designation under IFRS 9. Therefore, the carrying amounts are grossed up by hedge type, whereas they are presented at an instrument level in the balance sheet.

SENSITIVITY ANALYSIS

The following sensitivity analysis addresses the effect of currency and interest rate risks on the Group's financial instruments. The analysis assumes that all hedges are highly effective.

CURRENCY RISK

A 10% weakening of sterling against the Group's major currencies would result in the following impacts on the income statement and equity, which would arise on the retranslation of foreign currency denominated borrowings and derivatives. A 10% strengthening of sterling would have an equal and opposite effect.

	Impact on income statement		Impact on equity	
	2022 £m	2021 £m	2022 £m	2021 £m
US dollar	(179.6)	0.7	34.6	64.0
Euro	78.9	17.4	(11.3)	(49.9)

INTEREST RATE RISK

A one percentage point increase in market interest rates for all currencies in which the Group had cash and borrowings at 31 December 2022 would increase profit before tax by approximately £19.9 million (2021: £33.3 million). A one percentage point decrease in market interest rates would have an equal and opposite effect. This has been calculated by applying the interest rate change to the Group's variable rate cash and borrowings. Note that in practice, the Group has a cyclical cash profile throughout the year.

24. FINANCIAL INSTRUMENTS

CURRENCY DERIVATIVES

The Group utilises currency derivatives to hedge significant future transactions and cash flows and the exchange risk arising on translation of the Group's investments in foreign operations. The Group is a party to a variety of foreign currency derivatives in the management of its exchange rate exposures. The instruments purchased are primarily denominated in the currencies of the Group's principal markets. The Group designates foreign currency denominated debt as hedging instruments against the exposure to movements in the spot translation rates associated with the translation of its foreign operations.

The Group also designates certain cross currency swaps as hedging instruments in cash flow hedges to manage its exposure to foreign exchange risk and interest rate risk on its borrowings. Contracts due in November 2023 have receipts of €500.0 million and payments of \$604.2 million. Contracts due in March 2025 have receipts of €500.0 million and payments of £444.1 million.

Critical terms of hedging instruments and hedged items are transacted to match on a 1:1 ratio by notional values. Hedge ineffectiveness can nonetheless arise from inherent differences between derivatives and non-derivative instruments and other market factors including credit, correlations, supply and demand, and market volatilities. In addition, hedge ineffectiveness can arise as a result of the currency basis being included in the hedge designation. Hedge accounting is discontinued when a hedging relationship no longer qualifies for hedge accounting.

At 31 December 2022, the fair value of the Group's currency derivatives is estimated to be a net liability of approximately £52.7 million (2021: £46.7 million). These amounts are based on market values of equivalent instruments at the balance sheet date, comprising £0.6 million (2021: £0.5 million) assets included in trade and other receivables and £53.3 million (2021: £47.2 million) liabilities included in trade and other payables. The fair value of currency derivatives is based on the present value of contractual cash flows using foreign currency and interest rate forward market curves at the balance sheet date. The amounts taken to and deferred in equity during the year for currency derivatives that are designated and effective hedges was a debit of £141.5 million (2021: credit of £45.5 million) for net investment hedges and a credit of £38.5 million (2021: debit of £38.0 million) for cash flow hedges.

For cash flow hedge arrangements, amounts of a credit of £38.5 million (2021: debit of £38.0 million) representing the effective portion of the gain or loss on the hedging instrument were taken to equity, and reclassified to profit or loss in the same period when the related foreign exchange impact on the associated hedged item affected profit or loss.

Changes in the fair value relating to the ineffective portion of the currency derivatives that are designated hedges amounted to £2.7 million (2021: £2.5 million) which is included within revaluation and retranslation of financial instruments in the income statement. At the balance sheet date, the total nominal amount of outstanding forward foreign exchange contracts not designated as hedges was £1,004.8 million (2021: £764.8 million). The Group estimates the fair value of these contracts to be a net asset of £0.4 million (2021: net liability of £3.9 million).

As at 31 December 2022, the Group had designated its \$93 million bond, \$750 million bond, \$220 million bond, and \$604 million leg of its cross currency swap, as the hedging instruments in a net investment hedge relationship. The Group has designated its €500 million leg of its cross currency swap as the hedging instrument in a cash flow hedge. Possible sources of ineffectiveness include any impairments to the Group's net investment in US dollars. The hedges are documented and are assessed for effectiveness on an ongoing basis. Both hedge relationships were effective during the year.

These arrangements are designed to address significant exchange exposure and are renewed on a revolving basis as required.

An analysis of the Group's financial assets and liabilities by accounting classification is set out below:

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into levels 1 to 3 based on the degree to which the fair value is observable:

Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 fair value measurements are those derived from inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices);

Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Note

1 During 2021, the Group merged Finsbury Glover Hering and Sard Verbrinnen & Co to form a leading global strategic communications firm. As a part of this transaction, certain management acquired shares in WPP plc and a put option was granted which allows the equity partners to require the Group to purchase these shares. This resulted in additions to liabilities in respect of put options in the year of £219.6 million.

The fair values of financial assets and liabilities are based on quoted market prices where available. Where the market value is not available, the Group has estimated relevant fair values on the basis of available information from outside sources. There have been no movements between level 3 and other levels.

24. FINANCIAL INSTRUMENTS (CONTINUED)

PAYMENTS DUE TO VENDORS AND LIABILITIES IN RESPECT OF PUT OPTIONS

Future anticipated payments due to vendors in respect of contingent consideration (earnout agreements) are recorded at fair value, which is the present value of the expected cash outflows of the obligations. Liabilities in respect of put option agreements are initially recorded at the present value of the redemption amount in accordance with IAS 32 and subsequently measured at fair value in accordance with IFRS 9. Both types of obligations are dependent on the future financial performance of the entity and it is assumed that future profits are in line with Directors' estimates. The Directors derive their estimates from internal business plans together with financial due diligence performed in connection with the acquisition.

As of 31 December 2022, the potential undiscounted amount of future payments that could be required under the earnout agreements for acquisitions completed in the current year and for all earnout agreements ranges from £nil to £226 million (2021: £nil to £124 million) and £nil to £695 million (2021: £nil to £595 million), respectively. The decrease in the maximum potential undiscounted amount of future payments for all earnout agreements is due to earnout arrangements that have completed and payments made on active arrangements during the year, and exchange adjustments, partially offset by earnout arrangements related to new acquisitions.

At 31 December 2022, the weighted average growth rate in estimating future financial performance was 12.4% (2021: 16.7%). The weighted average of the risk-adjusted discount rate applied to these obligations at 31 December 2022 was 7.6% (2021: 6.5%).

A one percentage point increase or decrease in the growth rate in estimated future financial performance would increase or decrease the combined liabilities due to earnout agreements and put options by approximately £9.1 million (2021: £6.0 million) and £6.9 million (2021: £6.6 million), respectively.

A 0.5 percentage point increase or decrease in the risk adjusted discount rate would decrease or increase the combined liabilities by approximately £7.3 million (2021: £8.6 million) and £7.4 million (2021: £8.9 million), respectively. An increase in the liability would result in a loss in the revaluation of financial instruments, while a decrease would result in a gain.

OTHER INVESTMENTS

The fair value of other investments included in level 1 is based on quoted market prices. Other investments included in level 3 are unlisted securities, where market value is not readily available. The Group has estimated relevant fair values on the basis of information from outside sources using the most appropriate valuation technique, including all external funding rounds, revenue and EBITDA multiples, the share of fund net asset value and discounted cash flows. The sensitivity to changes in unobservable inputs is specific to each individual investment. A change to one or more of these unobservable inputs to reflect a reasonably possible alternative assumption would not result in a significant change to the fair value.

During the year, Imagina stepped down from interests in associates to other investments and this investment has been designated as fair value through other comprehensive income. The fair value of Imagina as at 31 December 2022 was £61.6 million.

As at 31 December 2022 there was £11.1 million (2021: £10.2 million) of total unrecognised compensation costs related to share options. The cost is expected to be recognised over a weighted average period of 20 months (2021: 21 months).

Share options are satisfied out of newly issued shares.

The weighted average fair value of options granted in the year calculated using the Black-Scholes model was as follows:

	2022	2021
Fair value of UK options (shares)	177.0p	220.0p
Fair value of US options (ADRs)	\$11.48	\$14.89
Weighted average assumptions		
UK risk-free interest rate	2.92%	0.63%
US risk-free interest rate	4.09%	1.16%
Expected life (months)	48	48
Expected volatility	32%	34%
Dividend yield	3.9%	3.4%

Options are issued at an exercise price equal to market value on the date of grant.

The average share price of WPP plc for the year ended 31 December 2022 was £9.13 (2021: £9.64) and the average ADR price for the same period was \$56.80 (2021: \$66.44). The average share price of the WPP plc for the year ended 31 December 2022 approximates the weighted average share price during the periods of exercise throughout the year.

25. AUTHORISED AND ISSUED SHARE CAPITAL (CONTINUED)

Expected volatility is sourced from external market data and represents the historical volatility in the WPP plc's share price over a period equivalent to the expected option life.

Expected life is based on a review of historical exercise behaviour in the context of the contractual terms of the options, as described in more detail below.

TERMS OF SHARE OPTION PLANS

In 2015, the Group introduced the Share Option Plan 2015 to replace both the "all-employee" Worldwide Share Ownership Plan and the discretionary Executive Stock Option Plan. Two kinds of options over ordinary shares can be granted, both with a market value exercise price. Firstly, options can be granted to employees who have worked at a company owned by WPP plc for at least two years which are not subject to performance conditions. Secondly, options may be granted on a discretionary basis subject to the satisfaction of performance conditions.

The Worldwide Share Ownership Programme was open for participation to employees with at least two years' employment in the Group. It was not available to those participating in other share-based incentive programmes or to Executive Directors. The vesting period for each grant is three years and there are no performance conditions other than continued employment with the Group.

The Executive Stock Option Plan has historically been open for participation to WPP Group Leaders, Partners and High Potential Group. It is not currently offered to Parent Company Executive Directors. The vesting period is three years and performance conditions include achievement of various TSR (Total Shareholder Return) and EPS (Earnings Per Share) objectives, as well as continued employment. The terms of these stock options are such that if, after nine years and eight months, the performance conditions have not been met, the stock option will vest automatically.

The Group grants stock options with a life of ten years, including the vesting period.

Balance at 31 December 2022	(228.5)	–	529.2	300.7

Note

¹ Balances for the year ended 31 December 2021 have been re-presented following a reclassification between the hedging reserve and translation reserve of £38.0 million.

The equity reserve primarily relates to the recognition of liabilities in respect of put options agreements entered into by the Group as part of a business combination that allows non-controlling shareholders to sell their shares to the Group in the future.

The hedging reserve comprises the effective portion of the cumulative net change in fair value of cash flow hedges less amounts reclassified to profit or loss.

The translation reserve contains the accumulated gains/(losses) on currency translation of foreign operations arising on consolidation.

26. OTHER RESERVES (CONTINUED)

The translation reserve comprises:

	2022 £m	2021 ¹ £m
Balance relating to continuing net investment hedges	(143.8)	(2.3)
Balance relating to discontinued net investment hedges	(85.0)	(85.0)

Note

¹ Balances for the year ended 31 December 2021 and 31 December 2020 have been re-presented following a reclassification between the hedging reserve and translation reserve of £38.0 million and £5.9 million, respectively.

27. ACQUISITIONS

The Group accounts for acquisitions in accordance with IFRS 3 Business Combinations. IFRS 3 requires the acquiree's identifiable assets, liabilities and contingent liabilities (other than non-current assets or disposal groups held for sale) to be recognised at fair value at acquisition date. In assessing fair value at acquisition date, management make their best estimate of the likely outcome where the fair value of an asset or liability may be contingent on a future event. In certain instances, the underlying transaction giving rise to an estimate may not be resolved until some years after the acquisition date. IFRS 3 requires the release to profit of any acquisition reserves which subsequently become excess in the same way as any excess costs over those provided at acquisition date are charged to profit. At each period end management assess provisions and other balances established in respect of acquisitions for their continued probability of occurrence and amend the relevant value accordingly through the consolidated income statement or as an adjustment to goodwill as appropriate under IFRS 3.

The Group acquired a number of subsidiaries in the year. The following table sets out the book values of the identifiable assets and liabilities acquired and their fair value to the Group. The fair value adjustments for certain acquisitions have been determined provisionally at the balance sheet date.

	Book value at acquisition £m	Fair value adjustments £m	Fair value to Group £m
Intangible assets	1.2	46.5	47.7
Property, plant and equipment	1.3	-	1.3

Goodwill			249.3
Consideration			261.0
Consideration satisfied by:			
Cash			218.3
Payments due to vendors			42.7

Goodwill arising from acquisitions represents the value of synergies with our existing portfolio of businesses and skilled staff to deliver services to our clients. Goodwill that is expected to be deductible for tax purposes is £42.7 million.

Non-controlling interests in acquired companies are measured at the non-controlling interests' proportionate share of the acquiree's identifiable net assets. There continues to be no subsidiaries with non-controlling interests that are individually material to the Group.

The contribution to revenue and operating profit of acquisitions completed in the year was not material. There were no material acquisitions completed between 31 December 2022 and the date the financial statements have been authorised for issue.

28. RELATED PARTY TRANSACTIONS

The Group enters into transactions with its associate undertakings. The Group has continuing transactions with Kantar, including sales, purchases, the provision of IT services, subleases and property related items

In the year ended 31 December 2022, revenue of £88.3 million (2021: £117.2 million) was reported in relation to Compas, an associate in the USA, and revenue of £42.7 million (2021: £11.3 million) was reported in relation to Kantar. All other transactions in the years presented were immaterial.

The following amounts were outstanding at 31 December:

	2022 £m	2021 £m
Amounts owed by related parties		
Kantar	26.1	30.3
Other	62.4	45.7

NOTES TO THE COMPANY FINANCIAL STATEMENTS

30. ACCOUNTING POLICIES

The principal accounting policies of WPP Jubilee (the Company) are summarised below. These accounting policies have all been applied consistently throughout the year and preceding year.

(A) BASIS OF ACCOUNTING

The financial statements of WPP Jubilee Limited have been prepared under the historical cost convention in accordance with the Companies (Jersey) Law 1991. The Company meets the definition of a qualifying entity under FRS 100 (Financial Reporting Standard 100) issued by the Financial Reporting Council.

These financial statements of WPP Jubilee Limited were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework (FRS 101). As permitted by FRS 101, the Company has taken advantage of the disclosure exemptions available under that standard in relation to share-based payment, financial instruments, capital management, presentation of a cash flow statement and certain related-party transactions.

Where required, equivalent disclosures are given in the consolidated financial statements. The financial statements are prepared on a going concern basis, further details of which are in the Directors' Report on page 4 to 5.

(B) TRANSLATION OF FOREIGN CURRENCY

Foreign currency transactions arising from operating activities are translated from local currency into pounds sterling at the exchange rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the period end are translated at the period-end exchange rate. Foreign currency gains or losses are credited or charged to the profit and loss account as they arise.

(C) INVESTMENTS

Fixed asset investments are stated at cost less provision for impairment. Investments are tested for impairment annually. At 31 December 2022, the recoverable amount was assessed in accordance with IAS 36 as the higher of fair value less cost of disposal and value in use.

(D) OTHER ASSETS AND LIABILITIES

Unless otherwise indicated all assets and liabilities are stated at nominal value.

(E) TAXATION

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are recognised for all taxable temporary differences unless specifically excepted by IAS 12 Income Taxes. Deferred tax is charged or credited in the income statement, except when it relates to items charged or credited to other comprehensive income or directly to equity, in which case the deferred tax is also dealt with in other comprehensive income or equity. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or other assets and liabilities (other than in a business combination) in a transaction that affects neither the tax profit nor the accounting profit.

(F) EXPECTED CREDIT LOSSES

Amounts owed by subsidiaries are recorded at amortised cost and are reduced by expected credit losses. The general approach has been applied and a loss allowance for 12-month expected credit losses is recognised. Under IFRS 9 Financial Instruments, the expected credit losses are measured as the difference between the asset's gross carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate.

(G) CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS

The Company make estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing material adjustment to the carrying amount of assets and liabilities within the next financial year are addressed below:

- **Impairment of investments:** Investments in subsidiaries and associates are held at cost less accumulated impairment losses. Annual impairment tests are carried out to ascertain if the carrying value of investments are impaired. These tests comprise a comparison between the carrying value of investment in subsidiary and associates and the net asset value of the subsidiary and associates. In some instances, valuations of subsidiary companies and associates are prepared. Valuations for impairment tests are based on established market multiples or risk-adjustment future cash flows over the estimated useful life of the asset, where limited, discounted using appropriate interest rates.

The assumptions relating to future cash flows, estimated useful lives and discount rates are based on business forecasts and are therefore inherently judgemental. Future events could cause the assumptions used in these impairment tests to change with a consequent adverse effect on the future results of the Company.

In the opinion of the Directors there are no critical judgements that have been made in the process of applying the accounting policies.

31. OPERATING (COSTS)/INCOME

Included within operating (costs)/income is:

	2022 £m	2021 £m
Net foreign exchange (losses)/gains	(113.2)	11.3
(Loss)/Gain on sale of investments	(19.8)	106.9
Other operating income	-	7.0

Bank and other interest payable	4.0	5.4
Interest payable to subsidiary undertakings	467.0	190.8
	471.0	196.2

34. TAXATION

Tax charge for the year is lower (2021: lower) than the standard rate of corporation tax in the UK for the year ended 31 December 2022 of 19% (2021: 19%). The differences are explained below:

	2022 £m	2021 £m
Profit before tax	(176.6)	4,122.7
Tax charge at the corporation tax rate of 19.0% thereon	33.4	(783.4)

35. FIXED ASSET INVESTMENTS

The following are included in the net book value of fixed asset investments:

	Subsidiary undertakings £m
Net book value	
1 January 2021	32,850.6
Additions	3,271.0
Disposals	(2,116.1)
Impairment	(915.8)
31 December 2021	33,089.7
Additions	2,016.2
Disposals	(19.9)
impairment	(5,943.2)
31 December 2022	29,142.8

In accordance with the company's accounting policy, the company annually tests the carrying value of investments for impairment. The 2022 impairment review was undertaken as at 31 December 2022. The review assessed whether the carrying value of investments was supported by the net present value of future cash flows derived from the assets. An annual growth rate of 2.0% and a post-tax discount rate of 11% has been assumed.

The following significant additions occurred in the year:

On 28 April 2022, the company acquired 822,868,405 ordinary shares in WPP Finance One Limited at book value of £810,721,636 as part of a dividend payment from WPP 2005 Limited.

On 28 April 2022, the company acquired 969,402,505 ordinary shares in WPP Finance One Limited for a total cash consideration of £874,295,242 and intercompany payables of £129,329,861.

On 10 August 2022, WPP 2008 Limited issued 1,719,940,201 ordinary shares with a nominal value of £0.10 per share to the company in exchange for £171,994,020.

35. FIXED ASSET INVESTMENTS (CONTINUED)

WPP Jubilee Limited has guaranteed the liabilities of the subsidiaries listed below under section 479A and C of the Companies Act 2006 (as amended). As such these subsidiaries will take advantage of the audit exemption set out within section 479A for the year ended 31 December 2022.

Independent auditor's report to the members of WPP Jubilee Limited

Report on the audit of the financial statements

Opinion

In our opinion:

- the financial statements of WPP Jubilee Limited (the 'parent company') and its subsidiaries (the 'group') give a true and fair view of the state of the group's and of the parent company's affairs as at 31 December 2022 and of the group's profit for the year then ended;
- the group financial statements have been properly prepared in accordance with international accounting standards and International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB);
- the parent company financial statements have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 101 "Reduced Disclosure Framework"; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the consolidated income statement and parent company profit and loss account;
- the consolidated statement of comprehensive income;
- the consolidated and parent company balance sheets;
- the consolidated and parent company statements of changes in equity;
- the consolidated cash flow statement;
- the group's accounting policies ; and
- the related notes 1 to 42 .

The financial reporting framework that has been applied in their preparation of the group financial statement is applicable law and international accounting standards in conformity with the requirements of the Companies Act 2006 and IFRSs as issued by the IASB. The financial reporting framework that has been applied in the preparation of the parent company financial statements is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 "Reduced Disclosure Framework" (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. *Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.*

We are independent of the group and the parent company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's and parent company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the Responsibilities of directors section of this report.

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

We considered the nature of the group's industry and its control environment, and reviewed the group's documentation of their policies and procedures relating to fraud and compliance with laws and regulations. We also enquired of management and internal audit about their own identification and assessment of the risks of irregularities

We obtained an understanding of the legal and regulatory frameworks that the group operates in, and identified the key laws and regulations that:

- had a direct effect on the determination of material amounts and disclosures in the financial statements. These included the UK Companies Act, pensions legislation and tax legislation; and
- do not have a direct effect on the financial statements but compliance with which may be fundamental to the group's ability to operate or to avoid a material penalty. These included the US Foreign Corrupt Practices Act and the UK Bribery Act.

We discussed among the audit engagement team including relevant internal specialists such as tax, valuations, pensions and IT regarding the opportunities and incentives that may exist within the organisation for fraud and how and where fraud might occur in the financial statements.

In common with all audits under ISAs (UK), we are also required to perform specific procedures to respond to the risk of management override. In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments; assessed whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluated the business rationale of any significant transactions that are unusual or outside the normal course of business.

In addition to the above, our procedures to respond to the risks identified included the following:

- reviewing financial statement disclosures by testing to supporting documentation to assess compliance with provisions of relevant laws and regulations described as having a direct effect on the financial statements;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud;
- enquiring of management, internal audit and in-house and external legal counsel concerning actual and potential litigation and claims, and instances of non-compliance with laws and regulations; and
- reading minutes of meetings of those charged with governance, reviewing internal audit reports, and reviewing correspondence with HMRC

Report on other legal and regulatory requirements

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the group and of the parent company and their environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors' report.

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.
