Notes to the financial statements year ended 30 September 2013

1. General information

Close Number 7 Limited is a limited liability company incorporated and domiciled in England and Wales under the Companies Act 2006. The address of the registered office is The Thomas Cook Business Park, Coningsby Road, Peterborough, Cambridgeshire, PE3 8SB. The nature of the Company's operations and its principal activities are set out in the Directors' report. These financial statements are presented in GBP because that is the currency of the primary economic environment in which the Company operates.

The Company is a wholly-owned subsidiary company and is included within the audited consolidated financial statements of Thomas Cook Group plc, a company incorporated in England and Wales, which have been prepared in accordance with International Financial Reporting Standards and filed with the Registrar of Companies. The Company is therefore exempt from the obligation to prepare consolidated financial statements in accordance with section 400 of the Companies Act 2006.

Adoption of new or amended standards and interpretations in the current year

In the current year, the following new or amended standards have been adopted. Their adoption has not had a significant impact on the amounts reported or the disclosure and presentation in these financial statements, but may impact the accounting or the disclosure and presentation for future transactions and arrangements.

IAS 1 Amendment "Presentation of Items of Other Comprehensive Income" is effective for annual reporting periods commencing on or after 1 July 2012. The amendment requires disclosure of items that may be reclassified to profit or loss and items that will not be reclassified to profit or loss.

2. Significant accounting policies

The Company meets the definition of a qualifying entity under FRS 100 (Financial Reporting Standard 100) issued by the Financial Reporting Council. Accordingly, in the year ended 30 September 2013 the Company has undergone transition from reporting under IFRSs adopted by the European Union to FRS 101 as issued by the Financial Reporting Council. The financial statements have therefore been prepared in accordance with FRS 101 (Financial Reporting Standard 101) 'Reduced Disclosure Framework' as issued by the Financial Reporting Council and with those parts of the Companies Act 2006 applicable to companies reporting under FRS101. This transition is not considered to have had a material effect on accounting policies applied in these financial statements, which are consistent with the previous financial year except for those which the Company has adopted in the year.

As permitted by FRS 101, the Company has taken advantage of the disclosure exemptions available under that standard in relation to business combinations, share-based payment, non-current assets held for sale, financial instruments, capital management, presentation of comparative information in respect of certain assets, presentation of a cash-flow statement, standards not yet effective, impairment of assets and related party transactions.

Where relevant, equivalent disclosures have been given in the group financial statements of Thomas Cook Group plc. The group financial statements of Thomas Cook Group plc are available to the public and can be obtained as set out in note 7.

As a result of FRS 101 being applicable to entities with a year-end from 1 January 2015, the Company has made the business decision to adopt the standard early (FRS 101 para 11).

The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below.

Going concern

The directors believe that preparing the financial statements on the going concern basis is appropriate due to the continued financial support of Thomas Cook Investments (2) Limited a fellow group company. The directors have received confirmation that Thomas Cook Investments (2) Limited intends to support the Company for at least one year after these financial statements are signed.

2. Significant accounting policies (continued)

Foreign currency

Transactions in currencies other than the functional currency of the Company are translated at the exchange rate on the date of the transaction. Foreign currency monetary assets and liabilities held at the year end are translated at year end exchange rates. The resulting exchange gain or loss is taken through the income statement.

Administrative expenses

The Company has no employees (2012: nil). Administrative expenses of the Company, including audit fees of £1,000 (2012: £1,000) and directors' remuneration, were borne by Thomas Cook Group plc, the Company's parent undertaking, during both accounting years with no recharge made as the amounts were minimal.

Taxation

Current tax, including UK corporation tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Provision is made for deferred tax so as to recognise all temporary differences which have originated but not reversed at the balance sheet date that result in an obligation to pay more tax, or a right to pay less tax in the future. This is calculated on a non-discounted basis by reference to the average tax rates that are expected to apply in the relevant jurisdiction and for the year in which the temporary differences are expected to reverse. Deferred tax assets are assessed at each balance sheet date and are only recognised to the extent that their recovery against future taxable profits is probable.

Investments

Investments in subsidiary undertakings are accounted for at cost less provision for impairment. Impairment reviews are performed when there has been an indication of potential impairment.

Trade and other payables

Trade and other payables are recognised at their fair value and subsequently recorded at amortised cost using the effective interest method.

Share capital

Ordinary shares are classified as equity.

Critical judgments in applying the Company's accounting policies

In the process of applying the Company's accounting policies, described above, management has made the following judgments that have the most significant effect on the amounts recognised in the financial statements:

Recoverable amounts of investments and loan receivables from fellow subsidiary undertakings

Judgments have been made in respect of the amounts of future operating cash flows to be generated by certain of the Thomas Cook Group businesses in order to assess whether there has been any impairment of the amounts included in the balance sheet for investments and loan receivables in relation to those businesses.

Analysis of tax results for the year		
Current tax		
UK corporation tax charge for the year	-	-
Current tax charge	-	-

Corporation tax is calculated at 23.5% (2012: 25%) of the estimated assessable profit for the year. This is the weighted average tax rate applicable for the year following a reduction in the standard rate of UK Corporation Tax from 24% to 23% effective from 1st April 2013.

The charge for the year can be reconciled to the loss per the income statement as follows:

	Year ended 30 September 2013 £	Year ended 30 September 2012 £
Loss before tax	(283,494)	(267,726)
Loss before tax multiplied current tax rate of 23.5% (2012: 25%)	(66,621)	(66,932)
Effects of:		
Deferred tax not recognised	66,621	-
Group relief surrendered for nil consideration	-	66,932
Tax charge for the year	-	-

Finance Act 2011 included legislation to reduce the main rate of Corporation Tax to 25% with effect from 1st April 2012; this was amended by Finance Act 2012 which reduced the rate to 24% with effect from 1st April 2012. Finance Act 2012 also included legislation to reduce the main rate of Corporation Tax to 23% with effect from 1st April 2013. Finance Act 2013 included legislation to reduce the main rate of Corporation Tax to 21% with effect from 1st April 2014 and 20% with effect from 1st April 2015. The changes have had no effect on these financial statements.

Deferred income tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes relate to the same fiscal authority. There are no offset deferred tax assets and liabilities.

At the balance sheet date, the company had unused tax losses of £283,494 (2012: Nil) available for offset against future profits. No deferred tax asset has been recognised in respect of unused tax losses of £283,494 (2012: nil) due to the unpredictability of future profits.
