NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 5TH APRIL 2011

1 ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover

Turnover represents income receivable from sales of properties, inclusive of VAT where applicable

Tangible fixed assets

In accordance with Statement of Standard Accounting Practice Number 19, certain of the company's properties are held for long term investment and are included in the Balance Sheet at their open market values. The surplus or deficit on annual revaluation of such properties are transferred to the investment property revaluation reserve.

Depreciation is not provided in respect of freehold and long leasehold investment properties. This policy represents a departure from statutory accounting principles, which require depreciation to be provided on all fixed assets. The director considers that this policy is necessary in order that the accounts may give a true and fair view because current values and changes in current values are of prime importance rather than the calculation of systematic annual depreciation. Depreciation is only one of many factors reflected in the valuation.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Fixed asset investments

Fixed asset investments are shown at cost less any diminution of value if applicable.
