Notes to the abbreviated financial statements for the year ended 30 June 2004

1. Accounting policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention.

The company has taken advantage of the exemption in FRS1 from the requirement to produce a cashflow statement because it is a small company.

1.2. Turnover

Turnover represents the total invoice value, excluding value added tax, of sales made during the year.

1.3. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Fixtures, fittings

and equipment

25% reducing balance basis

1.4. Deferred taxation

Provision is made for deferred taxation using the liability method to take account of timing differences between the incidence of income and expenditure for taxation and accounting purposes except to the extent that the director considers that a liability to taxation is unlikely to materialise.

1.5. Going concern

The director considers that the going concern basis is appropriate because the company is gradually improving its position through its trading and should be in a positive net asset position before too long.
