NOTES TO THE UNAUDITED INTERIM FINANCIAL STATEMENTS

At 31 May 2019

**1. ACCOUNTING CONVENTION (CONTINUED)****1.2 Foreign exchange**

Foreign currency transactions are translated into the functional currency of the entity in which the transaction arises based on the rates of exchange ruling at the date of transaction. At each balance sheet date foreign currency items are translated as follows:

- Monetary assets and liabilities in foreign currencies are translated into Pound Sterling at exchange rates ruling at the balance sheet date;
- Non-monetary items that are measured at historical costs are translated using the exchange rates ruling at the date of the transaction.

Forward foreign exchange contracts are revalued at the market rate ruling at the date applicable to their respective maturities. Any gain or loss arising from a change in exchange rate subsequent to the date of the transaction is included as an exchange gain or loss in the income statement

**1.3 Income**

Interest income is recognised in the income statement using the effective interest method on an accrual basis. The effective interest method is based on the estimated life of the underlying instrument and where this estimate is not readily available, the contractual life.

**1.4 Taxation**

***Deferred tax***

Deferred taxation is provided using the balance sheet method on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base, except where such temporary differences arise from:

- The initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction has no effect on the income statement or taxable profit.
- In respect of temporary timing differences associated with the investments in subsidiaries or interests in associated undertakings, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.
- Deferred tax assets or liabilities are measured using the tax rates that have been enacted or substantively enacted at the balance sheet date.
- Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the deferred tax asset can be utilised.
- Items recognised directly in other comprehensive income are net of related current and deferred taxation.

**1.5 Investments in subsidiaries**
