Notes

(forming part of the financial statements)

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements:

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards and under historical cost accounting rules.

Cash flow statement

The directors have taken advantage of the exemption in FRS 1 "Cash flow statements" from including a cash flow statement in the financial statements on the grounds that the company is wholly owned subsidiary and its parent publishes a consolidated cash flow statement.

Goodwill

Purchased goodwill (representing the excess of fair value of the consideration given to the fair value of the separable net assets acquired) arising on acquisitions is capitalised.

Amortisation is provided by the company to write off the cost over ten years which is the estimated useful economic life.

Depreciation

Depreciation is calculated to write off the cost, less estimated residual value of each tangible fixed asset by equal instalments over their useful economic lives, as follows:

| | | |
|---------------------|---|---------------|
| Plant and machinery | - | 20% per annum |
| Motor vehicles | - | 25% per annum |
| Other | - | 20% per annum |

Stocks

Stocks are stated at the lower of cost and net realisable value.

Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes. Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes, which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19 "Deferred tax".

Foreign currencies

Transactions in foreign currencies are recorded using the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated using the contracted rate or the rate of exchange ruling at the balance sheet date and the gains or losses on translation are included in the profit and loss account.

Operating lease agreements

Rentals payable under operating leases are charged in the profit and loss account on a straight line basis over the lease term.

Pension costs

The company operates a defined contribution pension scheme. The amounts charged to the profit and loss account represent the contributions payable to the scheme in respect of the accounting period.
