Strategic Report

The directors present their strategic report and financial statements for the year ended 31 December 2019.

Principal Activity

The principal activity of the Company during the period 1 January 2019 to 21 June 2019 was the supply of pharmaceutical products in Europe.

Business Review

Due to the uncertainty of relations between the United Kingdom and the European Union because of the Brexit vote the Company decided to cease operations. This strategy was taken because the UK will lose the authority to release pharmaceutical products to European countries post Brexit. This ensues with the decision of the ultimate parent company, Fresenius SE & Co.KGaA, in Germany to close UK activities.

At the date of the financial statement preparation, as per the executed plan, operational and delivery activities were already ceased and no more product revenues were effected after 21 June 2019.

The majority of the Company's assets have been reduced to £nil value during the current and preceding year, with the exception of land and buildings, a VAT receivable and one open customs issue with a third party (Corden) which has been partly provided for during the current year.

Liability balances related to the maintenance and service of the building and current accruals for audit and IT related expenses are included at year-end and these balances will be paid as they fall due.

Future plans now include only the sale of the land with the building and to liquidate the company. The property has been marketed for sale but this has been impacted by the uncertainty in the marketplace due to COVID-19.

The effects of the closure were reflected in the 2018 financial statements, where an impairment of the assets had been concluded with a write off of £2.3m (of which £1.9m fixed assets and £0.4m Intangible assets) together with the recognition of restructuring provision of £2.0m. All restructuring costs were charged to Fresenius Kabi Deutschland GmbH in 2019 which is reflected under Sundry Income on page 9.

The results for the year show a profit before tax of £6.0m compared with previous year loss of £6.3m in the prior year, the gain is mainly attributable to the recovery of the restructuring costs mentioned above.

Key performance indicators

Management compare actual performance against budget and prior periods on a quarterly basis. Examples of the key performance indicators used by management include Revenues, Earnings before Interest and Tax (EBIT), capital expenditure and full time employees, see below:

	Amounts in GBP '(000)	
	2019	2018
Sales	11,272	35,162
Operating Profit for the year	6,182	(5,948)
Profit/(Loss) for the year	5,980	(6,263)
Capital Expenditure	0	426
Full Time Equivalents (FTE) at Year End	0	45

Principal risks and uncertainties

The operations of the Company are subject to a number of risks and uncertainties. The principal risks and uncertainties are as follows:

Brexit

With Britain leaving European Union the pharmaceutical market and its capacity to approve and release products for the EU are at risk. UK would no longer fall under the EU regulatory regime so that pharmaceutical goods would not be authorized for sale.

Leaving the EU without a deal could impact in tariffs and duties applied to goods entering and leaving British territory. The risk to the Group was mitigated by the closure of this Company.

Strategic Report

Principal Risks and uncertainties

Liquidity risk

The Company is dependent on group companies' support in order to meet its third party liabilities as they fall due. This support is in the form of working capital finance (amounts due to/from related parties) and, if required, interest bearing loans which are repayable within one year. The Company mitigates this risk by communicating funding requirements to the group on a timely basis to ensure continuity of funding.

4th December 2020

Directors' Report

The directors present their directors' report and financial statements for the year ended 31 December 2019.

Going concern

Due to the uncertainties created by Brexit, the directors took the decision in 2018 to wind down operations and cease trading within the year 2019 reallocating the plant activities to another country.

Consistent with the 2018 financial statements the accounts have been prepared on a non-going concern basis.

Results and Dividends

The results for the period are set out on page 9. The directors do not recommend the payment of a dividend *(2018:£nil).*

Financial instruments

The Company deploys financial instruments including bank balances, intercompany loans, trade debtors and trade creditors in order to finance its operations, and to manage the interest rate, foreign currency and liquidity risks that arise from its operations and from its sources of finance. It is not the policy of the Company to trade in financial instruments. The directors review and agree policies for managing each of these risks.

The directors' financial risk management objective is to maximise financial assets and minimise financial liabilities whilst not engaging in speculation. The financial risks identified as arising from the Company's financial instruments are interest rate risk and liquidity risk.

In respect of bank balances, the liquidity risk is managed through careful management of cash resources.

Interest rate risk is managed by means of loans being from parent company at fixed rates for the loan term.

These objectives, policies and strategies are consistent with those applied in the previous year.

Directors

The following directors held office during the year:

Mike Newson
Tanja Greve

Political and charitable contributions

The Company made no political or charitable contributions during the period (*2018: £nil*).

Disclosure of information to auditor

The directors who held office at the date of approval of this directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the Company's auditor is unaware; and each director has taken all the steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

4th December 2020

Statement of directors' responsibilities in respect of the Strategic Report, Directors' Report and the financial statements

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF FRESENIUS KABI ONCOLOGY PLC

Opinion

We have audited the financial statements of Fresenius Kabi Oncology PLC ("the company") for the year ended 31 December 2019 which comprise the Profit and Loss Account, Balance Sheet, Statement of Changes in Equity and related notes, including the accounting policies in note 1.

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2019 and of its profit for the year then ended;
- have been properly prepared in accordance with UK accounting standards, including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the company in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

We draw attention to the disclosure made in note 1 to the financial statements which explains that the financial statements have not been prepared on the going concern basis for the reasons set out in that note. Our opinion is not modified in respect of this matter.

Strategic report and directors' report

The directors are responsible for the strategic report and the directors' report. Our opinion on the financial statements does not cover those reports and we do not express an audit opinion thereon.

Our responsibility is to read the strategic report and the directors' report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the strategic report and the directors' report;
- in our opinion the information given in those reports for the financial year is consistent with the financial statements; and
- in our opinion those reports have been prepared in accordance with the Companies Act 2006.

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or

We have nothing to report in these respects.

Directors' responsibilities

As explained more fully in their statement set out on page 6, the directors are responsible for: the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Notes
(forming part of the financial statements)

1 Accounting policies

Fresenius Kabi Oncology PLC (the "Company") is a public company limited by shares and incorporated and domiciled in the UK.

These financial statements were prepared in accordance with Financial Reporting Standard 102 *The Financial Reporting Standard* applicable in the UK and Republic of Ireland ("FRS 102") as issued in August 2014. The amendments to FRS 102 issued in July 2015 and effective immediately have been applied. The presentation currency of these financial statements is sterling. All amounts in the financial statements have been rounded to the nearest £1,000.

The Company's ultimate parent Fresenius SE & Co.KGaA includes the Company in its consolidated financial statements. The consolidated financial statements of Fresenius SE & Co.KGaA are prepared in accordance with International Financial Reporting Standards as adopted by the EU and are available to the public and may be obtained from Fresenius SE & Co.KGaA, 61346 Bad Homburg v.d.H, Germany. In these financial statements, the Company is considered to be a qualifying entity (for the purposes of this FRS) and has applied the exemptions available under FRS 102 in respect of the following disclosures:

- Reconciliation of the number of shares outstanding from the beginning to the end of the period;
- Cash Flow Statement and related notes; and
- Key Management Personnel compensation.

As the consolidated financial statements of Fresenius SE & Co.KGaA include the equivalent disclosures, the Company has also taken the exemptions under FRS 102 available in respect of the following disclosures:

- The disclosures required by FRS 102.11 *Basic Financial Instruments* and FRS 102.12 *Other Financial Instrument Issues* in respect of financial instruments not falling within the fair value accounting rules of Paragraph 36(4) of Schedule 1.

The Company proposes to continue to adopt the reduced disclosure framework of FRS 102 in its next financial statements.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

1.1 Going concern

Due to the uncertainty of relations between the United Kingdom and the European Union because of the Brexit vote, the Company's business plan was to wind down operations and crease trading within the first half year 2019 and reallocate the plant activities to another country. This ensues with the decision of the ultimate parent company, Fresenius SE & Co.KGaA, in Germany to close UK activities.

As at the date of these financial statements all operative assets and liabilities related to business operations were closed. The process to sell the land and building was initiated via a sales agent.

Notes *(continued)*

1 Accounting policies *(continued)*

According to the directors decision, the financial statements are not prepared on a going concern basis and assets and liabilities have been measured at their closing value (net realisable value). Any gains or losses resulting from measuring assets and liabilities are recognised in profit or loss.

1.2 Foreign currency

Transactions in foreign currencies are translated to the Company's functional currency at the foreign exchange rate ruling at the date of the transaction. Assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in the profit and loss account.

1.3 Classification of financial instruments issued by the Company

In accordance with FRS 102.22, financial instruments issued by the Company are treated as equity only to the extent that they meet the following two conditions:

(a) they include no contractual obligations upon the company to deliver cash or other financial assets or to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavourable to the company; and

(b) where the instrument will or may be settled in the company's own equity instruments, it is either a non-derivative that includes no obligation to deliver a variable number of the company's own equity instruments or is a derivative that will be settled by the company's exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments.

To the extent that this definition is not met, the proceeds of issue are classified as a financial liability. Where the instrument so classified takes the legal form of the company's own shares, the amounts presented in these financial statements for called up share capital and share premium account exclude amounts in relation to those shares.

1.4 Basic financial instruments

Trade and other debtors / creditors

Trade and other debtors are recognised initially at transaction price less attributable transaction costs. Trade and other creditors are recognised initially at transaction price plus attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses in the case of trade debtors. If the arrangement constitutes a financing transaction, for example if payment is deferred beyond normal business terms, then it is measured at the present value of future payments discounted at a market rate of instrument for a similar debt instrument.

Interest-bearing borrowings classified as basic financial instruments

Interest-bearing borrowings are recognised initially at the present value of future payments discounted at a market rate of interest. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method, less any impairment losses.

Notes *(continued)*

1 Accounting policies *(continued)*

1.5 Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses.
The Company assesses at each reporting date whether tangible fixed assets are impaired.

Depreciation is charged to the profit and loss account on a straight-line basis over the estimated useful lives of each part of an item of tangible fixed assets. Land is not depreciated. The estimated useful lives are as follows:

- buildings Between 2% and 10% straight line
- plant and equipment Between 5% and 25% straight line
- fixtures and fittings Between 10% and 33% straight line

Depreciation methods, useful lives and residual values are reviewed if there is an indication of a significant change since last annual reporting date in the pattern by which the Company expects to consume an asset's future economic benefits.

Given the decision to close operations by May 2019 tangible fixed assets were impaired based on their estimated useful life until the closing date in the prior year. The residual values take into consideration the significant change in the useful lives of the tangible assets after the decision to stop trading within 2019.

1.6 Intangible assets

Development costs and product registration fees

Intangible assets are stated at cost less amortisation and impairment. Amortisation is charged to the profit or loss on a straight-line basis over the estimated useful lives of intangible assets. Intangible assets are amortised from the date they are available for use. The estimated useful lives are as follows:

- development costs and product registration fees 10 years

The basis for choosing the useful life is an estimate of the life of a generic product registered for pharmaceutical distribution - it is used as a basis for product launch decision making and is consistent with the range of finite useful lives of intangibles assets used by the group. No residual value is expected on intangible assets after 10 years.

1.7 Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. In the case of manufactured stocks and work in progress, cost includes an appropriate share of overheads based on normal operating capacity.

Notes *(continued)*

1 Accounting policies *(continued)*

1.8 Impairment excluding stocks and deferred tax assets

The carrying amounts of the Company's assets, other than, stocks and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the units, and then to reduce the carrying amounts of the other assets in the unit (group of units) on a *pro rata* basis.

An impairment loss is reversed if and only if the reasons for the impairment have ceased to apply.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

1.9 Employee benefits

Defined contribution plans and other long term employee benefits

A defined contribution plan is a post-employment benefit plan under which the Company pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognised as an expense in the profit and loss account in the periods during which services are rendered by employees.

Termination benefits

Termination benefits are recognised as an expense when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognised as an expense if the Company has made an offer of voluntary redundancy, it is probably that the offer will be accepted, and the number of acceptances can be estimated reliably. If benefits are payable more than 12 months after the reporting date, then they are discounted to their present value.

Notes *(continued)*

1 Accounting policies *(continued)*

1.10 Turnover

Turnover represents the amounts (excluding value added tax) derived from the provision of pharmaceutical products to customers. Turnover is recognised on the point of despatch by the Company.

1.11 Expenses

Operating lease

Payments (excluding costs for services and insurance) made under operating leases are recognised in the profit and loss account on a straight-line basis over the term of the lease. Lease incentives received are recognised in profit and loss over the term of the lease as an integral part of the total lease expense.

1.12 Taxation

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided on timing differences which arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements. The following timing differences are not provided for: differences between accumulated depreciation and tax allowances for the cost of a fixed asset if and when all conditions for retaining the tax allowances have been met; and differences relating to investments in subsidiaries, to the extent that it is not probable that they will reverse in the foreseeable future and the reporting entity is able to control the reversal of the timing difference. Deferred tax is not recognised on permanent differences arising because certain types of income or expense are non-taxable or are disallowable for tax or because certain tax charges or allowances are greater or smaller than the corresponding income or expense.

Deferred tax is provided in respect of the additional tax that will be paid or avoided on differences between the amount at which an asset (other than goodwill) or liability is recognised in a business combination and the corresponding amount that can be deducted or assessed for tax. Goodwill is adjusted by the amount of such deferred tax.

Deferred tax is measured at the tax rate that is expected to apply to the reversal of the related difference, using tax rates enacted or substantively enacted at the balance sheet date. Deferred tax balances are not discounted.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that is it probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Total current tax credit (see above)	**-**	**-**

A deferred tax asset of £6,938,121 (2018: £8,867,071) primarily in respect of historic losses has not been recognised due to the uncertainty regarding the future profitability of the Company.

A reduction in the UK corporation tax rate from 19% to 17% (effective from 1 April 2020) was substantively enacted on 6 September 2016, and the UK deferred tax asset as at 31 December 2019 has been calculated based on this rate.

The March 2020 Budget announced that a rate of 19% would continue to apply with effect from 1 April 2020, and this change was substantively enacted on 17 March 2020.
