NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31ST AUGUST 2011

1. ACCOUNTING POLICIES

a) *Bases*

The financial statements are prepared under the historical cost convention and include the results of the Company's operations which are described in the Directors' Report and all of which are continuing. All applicable accounting policies have been complied with or departures disclosed.

The Company has taken advantage of the exemption in Financial Reporting Standard No. 1 from the requirement to produce a cash flow on the grounds that it is a small Company.

b) *Consolidation*

The company and its parent comprise a small group. The parent has taken advantage of the exemption provided by s. 248 of the Companies Act 1985 not to prepare group accounts. These financial statements contain information about the company as an individual and not about the group.

c) *Turnover*

Turnover represents the value of fees invoiced during the year net of Value Added Tax and all discounts allowed. Revenue is recognised and hence, included in its turnover, when, and to the extent that, it obtains the right to consideration.

d) *Fixed assets*

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation.

Depreciation is provided to write off the cost of fixed assets, less their estimated residual values, over the estimated life of the assets at the following annual rates -

Plant & equipment	20% on net book value
Furniture & fittings	15% on net book value

e) *Deferred taxation*

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date, however, deferred tax assets are recognised only to the extent that the director considers it more likely than not that there will be suitable taxable profits from which future reversal of the underlying timing differences can be deducted.

In accordance with FRS 19, deferred tax is recognised on revaluation gains. Deferred tax is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

f) *Foreign currencies*

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the Balance Sheet date. Transactions in foreign currencies are translated into sterling at the rate ruling on the date of the transaction. Exchange differences are taken into account in arriving at the operating profit.
