Eggborough Power Limited Directors' Report

The Directors present their report and the audited financial statements of the Company for the year ended 31 March 2008

PRINCIPAL ACTIVITY, REVIEW OF BUSINESS AND FUTURE DEVELOPMENTS

The principal activity of the Company is the generation of electricity on demand from Eggborough coal-fired power station to complement the electricity generated by the Group's fleet of nuclear power stations. The Company's results have been prepared under the revised Capacity Tolling Agreement (CTA) under which British Energy Power and Energy Trading Limited, a fellow subsidiary company, reimburses the Company for its qualifying capital expenditure, operating and maintenance costs.

It is the intention of the Directors that the Company will continue to operate its Eggborough coal-fired power station

References to the Group are to British Energy Group plc, the ultimate holding company of Eggborough Power Limited, and its subsidianes including this Company

PRINCIPAL RISKS AND UNCERTAINTIES

The management of the business and the execution of the Company's strategy are subject to a number of risks. A discussion of these risks and uncertainties, in the context of the Group as a whole, is provided in the Financial Review on pages 14 to 27 of the Group's Annual Report and Accounts for the year ended 31 March 2008, which does not form part of this report

ASSET AND SHARE OPTIONS

As part of the restructuring of British Energy plc in 2005, an Asset Option and a Share Option were granted in favour of the participants in the long-term "project finance" loan. Upon exercise, these options would allow the participants to acquire either the Eggborough power station assets (Asset Option) or the shares in the Company (Share Option). Additionally, the Group holds a pre-emption right if the participants in the long-term "project finance" loan choose to sell or transfer their options to a third party before 31 March 2010.

The options may be exercised at any time pnor to 31 August 2009 following which the participants in the long-term "project finance" loan may acquire the assets of, or shares in, the Company on 31 March 2010. Consideration of approximately £104m will be payable, subject to certain adjustments depending on the condition of the power station, and cancellation of the outstanding debt (currently estimated to be £83m). From 1 September 2008, the Company is required, if requested, to provide access to certain station property, assets, records and information to enable permitted parties under the options to prepare an evaluation.

The assets of, or shares in, the Company can also be acquired by the participants in the long-term "project finance" loan in the event of default at any time prior to 31 August 2009. The consideration payable under such circumstance would vary depending on the type of event of default, along with the cancellation of the outstanding debt at such time.

If unexercised, the options will expire on 31 March 2010

EGGBOROUGH LEGAL PROCEEDINGS

During the year ended 31 March 2007, British Energy Power and Energy Trading Limited, Eggborough Power (Holdings) Limited and Eggborough Power Limited instigated proceedings against Credit Suisse, in connection with the lending banks' options to acquire Eggborough in 2010. On 19 June 2007, British Energy Group pic announced that it had been successful in its court action, however, on 26 September 2007 Credit Suisse was granted leave to appeal. On 7 February 2008 British Energy Group pic announced that, in a unanimous judgement of the court, Credit Suisse's appeal was dismissed. The Group was awarded its costs of the appeal. The outcome preserves British Energy Group pic's pre-emption rights, should the lending banks seek to sell or transfer their option rights to a third party before 31 March 2010.

KEY PERFORMANCE INDICATORS

The Company's Directors believe that analysis using key performance indicators for the Company is not necessary or appropriate for an understanding of the development, performance or position of the business of Eggborough Power Limited The development, performance and position of Eggborough's coal-fired power station is discussed within the Chief Executive's Business Review on pages 6 to 13 of the Group's Annual Report and Accounts for the year ended 31 March 2008, which does not form part of this report

FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's financial risk management objectives and policies, including policies for hedging transactions, are discussed in the Group's Annual Report and Accounts for the year ended 31 March 2008 in the Risk Management Section on pages 21 to 25 of the Financial Review, which does not form part of this report

SHARE CAPITAL

Details of the Company's share capital are included at note 18

Eggborough Power Limited Directors' Report

RESULTS AND DIVIDENDS

The result for the year is set out in the profit and loss account on page 7. The Company's loss for the year of £7m (2007 £9m) was transferred to reserves

The Directors do not recommend the payment of a dividend (2007 £nil)

DIRECTORS

The Directors of the Company throughout the year and at 31 March 2008 are listed on page 2

POLICY ON PAYMENT OF CREDITORS

The Company's policy is to settle the terms of payment with suppliers when agreeing the terms of each transaction, to ensure that suppliers are made aware of these terms and to abide by the agreed terms. The Company had no trade creditors at 31 March 2008 (2007 £nil)

CHARITABLE AND POLITICAL DONATIONS

The Company made charitable donations during the year of £8,154 (2007 £12,750) in support of the community No political donations were made during the year (2007 £nil)

EMPLOYEES

The Company is committed to involving employees in the business through a policy of communication and consultation Arrangements have been established for the regular provision of information to all employees through briefings, staff conferences and well-established formal consultation procedures

The Company is committed to its equal opportunities policies, which includes promoting training and career development for all employees. Full and fair consideration for all vacancies and opportunities will be given to men and women, people with disabilities and those from ethnic minorities, regardless of mantal status, age, religion or sexual orientation. The policy is supported by a Code of Practice on harassment that recognises that all employees have the right to be treated with dignity and respect.

The Group operates a Share Incentive Plan, which is an all-employee performance related share scheme. More details of the Share Incentive Plan, and the Group's other share schemes, are set out in the Group's Annual Report and Accounts for the year ended 31 March 2008.

DIRECTORS' STATEMENT AS TO DISCLOSURE OF INFORMATION TO AUDITORS

The Directors who were members of the Board at the time of approving the Directors' Report are listed on page 2 Having made enquiries of fellow Directors and of the auditors, each of these Directors confirms that

- to the best of each Director's knowledge and belief, there is no information relevant to the preparation of their Report of which the auditors are unaware, and
- each Director has taken all the steps a Director might reasonably be expected to have taken to be aware of relevant audit
 information and to establish that the auditors are aware of that information

This report was approved by the Board of Directors on 18 August 2008 and signed on its behalf by

ROBERT ARMOUR

Director

Eggborough Power Limited Statement of Directors' Responsibilities for the year ended 31 March 2008

Company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company and of the results of the Company for that year

In preparing those financial statements, the Directors are required to

- select suitable accounting policies and then apply them consistently,
- · make judgements and estimates that are reasonable and prudent,
- state whether applicable accounting standards have been followed, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will
 continue in business. Further details of the basis of preparation of the financial statements are set out in note 1.

The Directors confirm that they have complied with the above requirements in preparing the financial statements

The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Eggborough Power Limited Independent Auditors' Report to the Members of Eggborough Power Limited for the year ended 31 March 2008

We have audited the financial statements of Eggborough Power Limited for the year ended 31 March 2008 which comprise the profit and loss account, the statement of total recognised gains and losses, the note of historical cost profit and losses, the balance sheet and the related notes. These financial statements have been prepared under the accounting policies set out therein

Respective responsibilities of Directors and auditors

The Directors' responsibilities for preparing the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice) are set out in the Statement of Directors' Responsibilities

Our responsibility is to audit the financial statements in accordance with relevant legal and regulatory requirements and International Standards on Auditing (UK and Ireland). This report, including the opinion, has been prepared for and only for the Company's members as a body in accordance with Section 235 of the Companies Act 1985 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come, save where expressly agreed by our prior consent in writing

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Act 1985. We also report to you whether in our opinion the information given in the Directors' Report is consistent with the financial statements.

In addition we report to you if, in our opinion, the Company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or, if information specified by law regarding Directors' remuneration and transactions is not disclosed

We read the Directors' Report and consider the implications for our report if we become aware of any apparent misstatements within it

Basis of audit opinion

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the Directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the Company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Оріпіоп

In our opinion

- the financial statements give a true and fair view, in accordance with United Kingdom Generally Accepted Accounting Practice, of the state of the Company's affairs as at 31 March 2008 and of its loss for the year then ended,
- · the financial statements have been properly prepared in accordance with the Companies Act 1985, and
- the information given in the Directors' Report is consistent with the financial statements

The accompanying notes are an integral part of these financial statements

The financial statements were approved by the Board of Directors on 18 August 2008 and signed on its behalf by

ROBERT ARMOUR Director

1 ACCOUNTING POLICIES

(i) Basis of Preparation

The financial statements are prepared under the historical cost convention, modified to include the revaluation of certain fixed assets, and in accordance with accounting standards applicable in the United Kingdom. The Directors recognise that the Company has net liabilities recorded on its balance sheet, however they consider that it is appropriate to continue to prepare the financial statements of the Company on a going concern basis because of the following two reasons

- the provisions of the revised Capacity and Tolling Agreement and the CTA global bond receivable (discussed further in note 10), which became effective on Restructuring of the Group on 14 January 2005. Under the revised Capacity and Tolling Agreement, British Energy Power and Energy Trading Limited, a fellow subsidiary company, has committed to reimburse the Company for its qualifying capital expenditure, operating and maintenance costs. This agreement is operational until 31 March 2010, unless an event of default occurs. The CTA global bond receivable is due from British Energy Bond Finance plc (formerly British Energy Holdings plc) and the profile and value of the principal and interest receipts match the principal and interest payable to the Eggborough Banks under the Company's Amended Credit Agreement. From 14 January 2005, the Company has, and will continue to, immediately utilise all receipts under the CTA global bond receivable to fund the amounts payable to the Eggborough Banks, and
- the absence of a request for immediate repayment of the intercompany creditor balances due to other Group companies. The Directors recognise that the intercompany creditor amounts are repayable on demand, however, the Directors are confident that the repayment of the debt will not be requested in the foreseeable future.

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results can differ from those estimates

In accordance with FRS 18 - Accounting Policies, the Directors have reviewed the Company's accounting policies and confirm that they continue to be the most appropriate. A number of the policies require the Company to use a variety of estimation techniques.

In accordance with FRS 1 (Revised) - Cash Flow Statements, a cash flow statement is not presented since the Company is a wholly owned subsidiary

(II) Turnover

Turnover represents amounts receivable from British Energy Power and Energy Trading Limited under the revised Capacity and Tolling Agreement (CTA), net of value added tax. The amounts recognised as turnover principally relate to the reimbursement of the Company's power station operating and maintenance costs.

(III) Fuel Costs

Fuel costs for oil are determined on a weighted average cost basis

Coal and carbon costs incurred in operating Eggborough coal-fired power station are borne by British Energy Power and Energy Trading Limited

(iv) Pensions and Other Post Retirement Benefits

The Company provides for pension costs in accordance with FRS 17 – Post Retirement Benefits (FRS 17). Contributions to the Company's defined benefit pension scheme are assessed by qualified actuaries. Pension plan assets are measured using market values. Pension plan liabilities are measured using the projected unit method and discounted at the current rate of return on a high quality corporate bond of equivalent term and currency to the liability. Any increase in the present value of the liabilities of the Company's defined benefit pension plan expected to arise from employee service in the peniod is charged against operating profit. The expected return on the plan's assets and the increase during the period in the present value of the plan's liabilities arising from the passage of time are included in other finance income. Actuarial gains and losses are recognised immediately in the statement of total recognised gains and losses.

(v) Tangible Fixed Assets and Depreciation, including Decommissioning Costs

The Company's principal fixed asset is the Eggborough power station and related strategic spares, which under FRS 11 is carried at the higher of value in use and net realisable value. As a result of the contractual arrangements which came into force on the completion of the Group's Restructuring, the asset is now carried at net realisable value, which is the discounted value of the total consideration that would be receivable on exercise of the options, as discussed in note 16 on deferred income. This carrying value is not adjusted for depreciation in the period to 31 March 2010, which is the potential exercise date of the options. Capital investment incurred post Restructuring is not recorded as a fixed asset to the extent that it is reimbursed by British Energy Power and Energy Trading Limited under the Capacity and Tolling Agreement, as it has no impact on the amount realisable through exercise of the options.

No depreciation has been charged since 14 January 2005 in line with the above accounting policy, however, the asset lives adopted were subject to regular review and for the year to 31 March 2008 were

Eggborough coal-fired power station

8 years

The costs of decommissioning the power station have been estimated on the basis of ongoing assessments of the processes and methods likely to be used for decommissioning. The estimate provided in note 15, is designed to reflect the costs of making the site available for alternative use.

(vi) Stocks of Spares, Oil and Consumables

Stocks of spares, oil and consumables are valued at average cost

Coal stock required in operating Eggborough coal-fired power station is held by British Energy Power and Energy Trading Limited

(vii) Taxation

Current tax is provided at amounts expected to be paid or recovered using the tax rates and laws that have been enacted or substantively enacted at the balance sheet date

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. Timing differences are differences between taxable profits and those stated in the financial statements. Deferred tax is measured, on an undiscounted basis, at the tax rates that are expected to apply in the periods in which the timing differences are expected to reverse based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are only recognised to the extent that it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing difference can be deducted.

Deferred tax is recognised in the profit and loss account except to the extent that it is attributable to a gain or loss that is or has been recognised directly in the statement of total recognised gains and losses in which case the deferred tax is recognised directly in that statement

(viii) Liquid Funds

Cash which is placed on term deposits which mature more than one day after the end of the financial year or invested in commercial paper, is classified under current asset investments in the balance sheet

(ix) Debt Instrument

All borrowings are stated at cost with issue costs being charged to profit and loss account on purchase. The interest payable on debt is charged to the profit and loss account over the life of the borrowing. Premiums and discounts arising on early repayment of borrowings are recognised in the profit and loss account as incurred and received.

(x) Share-based Payment

The Group has five share compensation schemes, the Share Incentive Plan, the Deferred Incentive Plan, the Long-Term Deferred Bonus Plan, the Executive Share Option Plan 2004 and the Interim Bonus Plan The Company accounts for these share compensation schemes in accordance with FRS 20 – Share-based Payment

The fair value of the share compensation schemes is charged to the profit and loss account over the period from the date the schemes were granted to the date at which the compensation is expected to vest on the employees. The corresponding credit is included in shareholders' funds. The Group issues equity-settled share-based payments to certain employees under the terms of the Group's various employee share compensation schemes. Equity-settled share-based payments are measured at fair value at the date of grant. The fair value determined at the grant date of equity-settled share-based payments is expensed on a straight line basis over the vesting period, based on an estimate of the shares that will ultimately vest.

2 TURNOVER

	2008 £m	2007 £m
Turnover	102	90
All income is attributable to continuing activities in the United Kingdom		
3 OPERATING COSTS

	2008 £m	2007 £m
Cost Depreciation Net book value	10 (5) 5	10 (3) 7
Labeled within the course of the first of th		

Included within the power station category is freehold land with a cost of £105,000

As a result of the contractual arrangements, which came into force on the completion of the Group's Restructuring, the power station asset is now carried at net realisable value, which is the value of the consideration that would be payable on exercise of the asset purchase option held over the Company's power station (as discussed in note 16), discounted at a rate of 7%. This discount rate is a long-term rate and is based on the Directors' assessment of the associated risk of the cash flows. This valuation is not adjusted for depreciation or capital expenditure investment, because they have no impact on the net realisable value (as discussed in note 1 (v))

9 STOCKS

	2008 £m	2007 £m
Spares Oil	9 1	9
Consumables		12

There is no material difference between the balance sheet value of stocks and their replacement value

10 DEBTORS

	2008 £m	2007 £m
Amounts due from group undertakings Amounts due from parent undertaking - CTA global bond receivable	443 111	312 123
Prepayments and other receivables	6	2
	560	437

Included in the CTA global bond receivable is an amount of £98m which is due after more than one year (2007 £111m). The CTA global bond receivable bears interest at 7% and is repayable from British Energy Bond Finance plc.

Amounts due from group undertakings which originated post Restructuring bear interest at LIBOR plus 2% and are repayable on demand. Amounts due from fellow subsidiary undertakings which originated prior to Restructuring bear no interest and are repayable on demand.

11 DEFERRED TAXATION

	2008 £m	2007 £m
Accelerated capital allowances Short term timing differences Taxation losses	17 (1) (4) 12 4	23 (1) (1) 21
Asset not recognised Deferred tax liability	16	22
		£m
As at 1 April 2007		22
Deferred tax (credit)/charge - disclosed in Profit and Loss Account - disclosed in Statement of Total Recognised Gains and Losses As at 31 March 2008		(7) 1 16
	2008 £m	2007 £m
Included in Retirement benefits (note 17) Provisions for liabilities and charges (note 15)	(1) 17 16	(1) 23 22

No deferred tax asset has been recognised on the taxation losses because there is insufficient certainty that it would be recovered in the foreseeable future. If the asset purchase option held over the Company's power station (as discussed in note 16) had been exercised at the balance sheet date the deferred tax liability reflected in the balance sheet of £16m (2007 £22m) would decrease by £17m (2007 £23m) to reflect a deferred tax asset of £1m (2007 £1m)

12 CREDITORS AMOUNTS FALLING DUE WITHIN ONE YEAR

	2008 £m	2007 £m

	685	534

£183m (2007 £170m) of amounts owed to parent undertakings represents amounts payable to Eggborough Power (Holdings) Limited at 31 March 2007 plus interest of £13m (2007 £9m) charged at LIBOR plus 1%

Other amounts due to group undertakings which originated post Restructuring bear interest at LIBOR plus 2% and are repayable on demand. Amounts due to group undertakings which originated prior to Restructuring bear no interest and are repayable on demand.

13 CREDITORS AMOUNTS FALLING DUE IN MORE THAN ONE YEAR

	2008 £m	2007 £m
Bank loan (note 14)	98	111
14 BORROWINGS		
The Company's borrowings in the form of bank loans at 31 March 2008 were repayable	le as follows	
	2008 £m	2007 £m
Less than 1 year Between 1 and 2 years Between 2 and 5 years Over 5 years	13 14 33 51	12 13 38 60
	111	123

Total debt at 31 March 2008 compnses a long-term "project finance" loan of £111m (2007 £123m) secured on Eggborough coal-fired power station owned by the Company The loan bears interest at 7% (2007 7%)

15 PROVISIONS FOR LIABILITIES AND CHARGES

	Deferred taxation £m	Site restoration £m	Totai £m
As at 1 April 2007	23	7	30
Taxation losses	(3)	•	(3)
Accelerated capital allowances	(6)	-	(6)
Asset not recognised	` 3	-	3
As at 31 March 2008	17	7	24

The site restoration provision is to provide for all costs of the eventual decommissioning of Eggborough Power Station

16 DEFERRED INCOME

The deferred income recorded relates to consideration received for an option, the Asset Option, which was granted as part of the Restructuring. If exercised, subject to a number of conditions as summansed below, the option would enable the participants in the long-term "project finance" loan to acquire the Eggborough power station assets (Asset Option). In addition, the Group has a pre-emption right if the participants in the long-term "project finance" loan sell or transfer their options to a third party.

The option may be exercised at any time prior to 31 August 2009 following which the participants in the long-term "project finance" loan may acquire the assets of Eggborough Power Limited on 31 March 2010 in consideration of approximately £104m subject to certain adjustments depending on the condition of the power station and cancellation of the outstanding debt (currently estimated to be £83m) or at any time prior to 31 August 2009 on the occurrence of an event of default in consideration for a fee (which varies depending on the type of event of default) and the cancellation of the outstanding debt at such time

The options, if unexercised, expire on 31 March 2010

The deferred income will be realised upon the exercise or expiry of the options as described above

17 POST RETIREMENT BENEFIT OBLIGATIONS

Eggborough Power Limited contributes to the pension arrangement operated by British Energy Combined Group (BECG) within the Electricity Supply Pension Scheme (ESPS). The ESPS is a defined benefit scheme, which is externally funded and subject to triennial actuarial valuation. Each pension group that participates in the ESPS is financially independent from the other ordins.

The most recent triennial valuation of the BECG scheme was carried out at 31 March 2007 by the independent ESPS actuary. The valuation for accounting purposes has been carried out by a separate independent actuary using the projected unit method.

The Company contributed 19 7% (2007 19 7%) to the BECG pension scheme as employer's normal contributions for the year ended 31 March 2008. Members who do not participate in the salary conversion arrangement and who are required to pay employee contributions contribute 6% (2007 6%) to the BECG scheme. Members who participate in the salary conversion arrangements have their salaries reduced by 6% (2007 6%), these monies being paid to the BECG scheme as additional employer contributions.

The 31 March 2007 triennial actuarial valuation of the BECG scheme has been agreed with a funding deficit of £3m at that date From 1 April 2008 the rate of employer's regular contributions for future service benefits under the BECG scheme increased from 19 7% to 22 2%. The Company made additional employer contributions of £1m (2007 £1m) to the BECG scheme in the year and will make further contributions totalling £2m over the next four years to 31 March 2012.

The major assumptions used by the actuaries for the defined benefit plan were

				2008	2007	2006
			•	% pa	% pa	% pa
Price inflation				3 30	3 00	2 75
Rate of general increase in salaries				4 80	4 50	4 25
