PRINCIPAL ACCOUNTING POLICIES - 31 DECEMBER 2003

(a) Basis of preparation

The financial statements have been prepared on a consistent basis in accordance with applicable Accounting Standards in the United Kingdom. A summary of the most important accounting policies is set out below.

The financial statements have been prepared under the going concern basis because a fellow group undertaking will provide continuing financial support to the company to allow it to meet its debts as they fall due for the foreseeable future.

(b) Basis of accounting

The financial statements are prepared in accordance with the historical cost convention.

The consolidated financial statements of UBM, the ultimate parent undertaking, include a cash flow statement, but no such statement is included in these financial statements, as permitted by Financial Reporting Standard Number 1 (FRS1).

(c) Related Party Transactions

In accordance with Financial Reporting Standard Number 8: Related Party Disclosures, the company is exempt from disclosing transactions with entities that are part of the UBM group, or investees of the group qualifying as related parties, as it is a wholly owned subsidiary of a parent publishing consolidated financial statements.

(d) Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not yet reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions:

- Provision is made for taxable gains arising from the revaluation (and similar fair value adjustments) of fixed assets that have been rolled over into replacement assets, only to the extent that there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold; and
- Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the rates that are expected to apply in the period on which the timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
