NOTES TO THE ABBREVIATED ACCOUNTS
YEAR ENDED 31 AUGUST 2014

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, modified to include the revaluation of certain fixed assets, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Fixed assets

All fixed assets are initially recorded at cost.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

The freehold and leasehold land and buildings were revalued on the 31st August 2013 by the directors. The valuation is based on current market value.

If these properties were sold for their revalued amounts it would be necessary to replace them with similar property, and rollover relief against tax on the gain would be available. Accordingly, no timing differences arise and no provision has been made for the deferred tax in respect of the revaluation.
