Notes to the Accounts
for the year ended 31 December 2010

1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with applicable United Kingdom Accounting Standards

Depreciation

Depreciation is provided on all tangible fixed assets, other than freehold land, at rates calculated to write off the cost, less estimated residual value, of each asset evenly over its expected useful life, as follows

| | |
|------------------------------|---------------------|
| Leasehold land and buildings | over the lease term |
| Office Equipment | 5 years |

Deferred taxation

Deferred taxation is provided for in respect of timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at the balance sheet date which will result in an obligation to pay more tax, or a right to pay less tax

Stock option compensation scheme

Employees of the company participate in the parent company's stock based compensation scheme. The parent company issues equity-settled share-based payments to certain employees. Equity settled share-based payments are measured at fair value (excluding the effect of non market based returns conditions) at the date of grant. The fair value determined at grant date is expensed on a straight line basis over the vesting period, based on the estimate of shares that will eventually vest and adjusted for the effect of non-market based vesting conditions.

Restricted Share Units ("RSU's") and Performance Share Units ("PSU's") are granted in the name of the employee who has all the rights of a shareholder subject to restrictions on transfers and risk of forfeiture. PSU's and RSU's values are derived from the market value of shares of the parent company at the grant date.

Operating Lease Rentals

Rentals paid under operating leases are charged to income on a straight line basis over the lease term.

2 Turnover

Turnover consists of a service fee charged to W P Carey International LLC in respect of advisory services. It is based on a multiple of all operational costs, excluding bonuses and share based compensation payments. Turnover also include a 2% allocation of acquisition fee received by W P Carey International LLC. The 2% fee income is recognized upon receipt of acquisition fee invoice after actual fee is received by W P Carey International and calculation has been finalized on the acquisition. All turnover is attributable to work in the United Kingdom and is paid directly by W P Carey International LLC.

for the year ended 31 December 2010

16 Stock based compensation

At December 31, 2010, the Parent maintained several stock-based compensation plans as described below. The total compensation expense (net of forfeitures) for these plans was £106,518 and £150,753 for the years ended December 31, 2010 and 2009, respectively.

1997 Share Incentive Plan

The Parent company maintain the 1997 Share Incentive Plan (as amended, the "1997 Incentive Plan"), which authorised the issuance of up to 6,200,000 shares of their Common Stock, of which 5,892,253 were issued or are currently reserved for issuance upon exercise of outstanding options and vesting of restricted units and performance units at December 31, 2009. The 1997 Incentive Plan has been replaced by a new stock incentive plan (see "2009 Incentive Plan" below), and as a result no further awards can be made under the 1997 Incentive Plan. The 1997 Incentive Plan provided for the grant of (i) share options, which may or may not qualify as incentive stock options under the Code, (ii) performance shares or units ("PSUs"), (iii) dividend equivalent rights and (iv) restricted shares or units ("RSUs"). The vesting of grants is accelerated upon a change in our control and under certain other conditions. Options granted under the 1997 Incentive Plan generally have a 10-year term and generally vest in four equal annual instalments.

In December 2007, the Compensation Committee of WP Carey & Co LLC approved a long term incentive compensation program (the "LTIP") and terminated further contributions to the Partnership Equity Unit Plan described below. In 2008, the Compensation Committee approved long-term incentive awards consisting of 32,500 RSUs and 12,500 PSUs under the LTIP through the 1997 Incentive Plan. In 2009, the Compensation Committee granted 12,500 RSUs and 12,500 PSUs under the LTIP through the 1997 Incentive Plan. The RSUs generally vest over three years. Vesting and payment of the PSUs is conditional on certain performance goals being met by us during the performance period. The ultimate number of PSUs to be vested will depend on the extent to which we meet the performance goals at the end of the three-year performance period and can range from zero to three times the original awards. At the end of each reporting period, we evaluate the ultimate number of PSUs we expect to vest based upon the extent to which we have met and expect to meet the performance goals and where appropriate revise our estimate and associated expense.

W P Carey & Co Limited
Notes to the Accounts
for the year ended 31 December 2010

16 Stock based compensation - Continued

Upon vesting, the RSUs and PSUs may be converted into shares of our common stock. Both the RSUs and PSUs carry dividend equivalent rights. Dividend equivalent rights on RSUs are paid in cash on a quarterly basis whereas dividend equivalent rights on PSUs accrue during the performance period and may be converted into additional shares of common stock at the conclusion of the performance period to the extent the PSUs vest. Dividend equivalent rights are accounted for as a reduction to retained earnings to the extent that the awards are expected to vest. For awards that are not expected to vest or do not ultimately vest, dividend equivalent rights are accounted for as additional compensation expense.

As a result of issuing these awards, the parent company currently expects to recognize compensation expense totalling approximately £1,954,878 over the vesting period, of which £106,518 and £150,753 was recognised during 2010 and 2009, respectively. Fair value was determined using the Monte Carlo simulation model. The significant inputs in the model were risk free interest rate of 1.45% and volatility of 36.2%.

2009 Share Incentive Plan

In June 2009, the parent company stockholders approved the 2009 Share Incentive Plan (the "2009 Incentive Plan") to replace the 1997 Incentive Plan, except with respect to outstanding contractual obligations under the 1997 Incentive Plan, so that no further awards can be made under that plan. The 2009 Incentive Plan authorizes the issuance of up to 3.6 million shares of our common stock and provides for the grant of (i) share options, (ii) restricted shares or units, (iii) performance shares or units, and (iv) dividend equivalent rights. The vesting of grants is accelerated upon a change in our control and under certain other conditions. Future grants under the LTIP will be made under the 2009 Incentive Plan.
