Director's responsibilities

Company law requires the director to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company as at the end of the financial year and of the profit or loss of the company for that period. In preparing those financial statements, the director is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgements and estimates that are reasonable and prudent;
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The director is responsible for maintaining proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act. It is also his responsibility to safeguard the assets of the company and hence to take reasonable steps to prevent and detect fraud and other irregularities.

1ST NATIONAL DEVELOPMENTS LIMITED

Notes to the financial statements for the year ended 31 July 2005

1 Accounting policies

a) Basis of accounting

The financial statements are prepared on the historical cost basis of accounting and have been prepared in accordance with the Financial Reporting Standard for Smaller Entities (effective June 2002).

The company has taken advantage of the exemption, conferred by Financial Reporting Standard 1, from presenting a cash flow statement as it qualifies as a small company.

b) Turnover

Turnover represents net invoiced sales of goods and services, excluding value added tax.

c) Depreciation of tangible fixed assets

Depreciation is provided on all tangible fixed assets at rates calculated to write off the full cost or valuation less estimated residual value of each asset over its estimated useful life. The principal rates in use are:

Industrial buildings	4%	on cost
----------------------	----	---------

d) Stocks

Stock and work in progress is valued at the lower of cost and estimated net realisable value.

Cost of raw materials is determined on the first in first out basis. In the case of work in progress and finished goods, cost includes all direct expenditure and production overheads based on the normal level of activity. Net realisable value is the price at which the stock can be released in the normal course of business, less further costs to completion of sale.

e) Deferred taxation

Deferred taxation is provided under the liability method in respect of all material timing differences between the profits as computed for taxation purposes and the profits as stated in the financial statements.

f) Foreign currency translation

Assets, liabilities, revenues and costs expressed in foreign currencies are translated into sterling at rates of exchange ruling on the date on which transactions occur, except for:-

- i) monetary assets and liabilities which are translated at the rate ruling at the balance sheet date (other than those in (ii) below); and
- ii) transactions to be settled at a contracted rate and trading transactions covered by a related or matching forward contract which are translated to those contracted rates.

Differences arising on the translation of such items are dealt with in the profit and loss account.

g) Hire purchase and lease transactions

Assets acquired under hire purchase agreements and finance leases are capitalised in the balance sheet and are depreciated in accordance with the company's normal policy. The outstanding liabilities under such agreements less interest not yet due are included in creditors. Interest on such agreements is charged to the profit and loss account over the term of each agreement and represents a constant proportion of the balance of capital repayments outstanding.

Rentals under operating leases are charged to the profit and loss account as they fall due.

h) Pension scheme

The company contributes to the pension arrangements of employees. Premiums paid are written off in the year of payment.

2 Turnover

The turnover, loss after taxation and net assets are attributable to the principle activities of operating a property leasing company. The company operates in the UK and derives its turnover from activities undertaken solely in the United Kingdom.
