**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 JULY 2020**

1. STATUTORY INFORMATION

John Gibb Plastering Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Turnover

Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

Turnover is recognised to the extent it is probable that economic benefit will flow to the company, and that it can be reliably measured. Turnover is measured at the fair value of consideration received or receivable, net of discounts, rebates, VAT and other sales taxes.

Turnover from the provision of services is recognised in the period in which the services are provided in accordance with the stage of completion of the contract when the following conditions are satisfied:

- the amount of turnover can be measured reliably;
- it is probable that consideration due will be received;
- the stage of completion of the contract at the reporting date can be measured reliably, and
- the costs incurred, or to be incurred, can be measured reliably.

Turnover recognised but not billed at the reporting date is treated as amounts recoverable on contracts due within one year.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery	- 25% on reducing balance
Fixtures and fittings	- 25% on reducing balance
Motor vehicles	- 25% on reducing balance
Computer equipment	- 33% on cost

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Cost is calculated using the cost of purchase of finished goods for resale.

At each reporting date, stocks are assessed for impairment. If stocks are impaired, the carrying amount is reduced to the estimated realisable value, and the impairment is immediately recognised in the statement of income and retained earnings.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

Cash and cash equivalents

Cash is represented by cash in hand and bank current and short term deposit accounts.
