Directors' report

The directors present their annual report and financial statements for the year ended 31 March 2015.

Principal activities

The company is Authorised and Regulated by the Financial Conduct Authority and operates as an underwriting agent for insurers.

Results and dividends

The Directors changed the Financial Reporting Date in order to match the date for its principal Appointed Representative, Entertainment Risks LLP. The result for the year, after taxation, amounted to £95,067 profit. The directors do not propose any further dividend for the period.

The directors consider the performance of the company for the year to have been satisfactory. The company continued to develop and market its existing product lines and seeking additional and improved products with underwriters and developing its business engagements with the broker market.

The directors consider that its delegated underwriting authorities from leading insurers provides an excellent basis for successfully developing a profitable portfolio of scheme and open market insurance business.

Financial instruments and treasury operations

The company's operations will give rise to various financial assets and liabilities, such as trade receivables and trade payables. These assets and operating cash arising are largely denominated in sterling and they will be actively managed to avoid unnecessary currency exposure. The company has not undertaken hedging activity but may do so if such arrangements appear to be a suitable solution to minimising any currency exposures for earnings in currencies other than sterling.

Liquidity risk

The company manages its own cash and borrowings to maximise interest income and minimise interest expense, whilst ensuring that sufficient liquid resources are available to meet operating needs. The company does not hold client money and insurers' funds are held with approved banks in currencies appropriate to the settlement requirements of the business.

Interest rate risk

The company is exposed to interest rate risk on bank deposits.

Foreign currency risk

The company's principal foreign currency exposure arises from income earned on trading operations with customers and suppliers in non sterling currency. Current and anticipated insurance business is predominantly denominated in sterling.

Credit risk

The company acts as an agent for insurers. While suitable vetting arrangements are operated to verify the credit worthiness of insurance brokers from whom business predominantly comes, the risk of non-payment rests largely with others. Investment of cash surpluses are made with banks which are considered by the Board to have adequate credit ratings to achieve the prudential standards applicable in our business.

Directors

The directors who held office during the year were as follows:

BA King	Chairman
KA Crawford	
JS Green	
AG Smith	

Directors' report (continued)

Legal and regulatory risk

As a firm which is Authorised and Regulated by the Financial Conduct Authority, the Company monitored compliance with regulatory requirements during the period, especially systems and controls, financial crime and its policy towards customers.

Statement of Directors Responsibilities

This report has been prepared in accordance with the special provisions of Part 15 of the Companies Act 2006 relating to small companies.

Auditors

The Company is entitled to an exemption from appointing an auditor under S477 of the Companies Act 2006 on the grounds that it is a small company. The Directors confirm that:

- a) the members have not required the company to obtain an audit of its accounts for the period in accordance with S476, and
- b) the directors acknowledge their responsibilities for complying with the requirements of the Companies Act 2006 with respect to accounting records and the preparation of accounts.

By order of the Board

Entertainment Risk Management Limited

JS Green
Director

Notes (forming part of the financial statements)

1. Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements. All services are performed in the United Kingdom.

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards and under the historical cost accounting rules.

These accounts have been prepared in accordance with the special provisions relating to small companies within Part 15 of the Companies Act 2006 and with the Financial Reporting Standard for Small Entities (effective April 2008).

Going concern

The directors have a reasonable expectation that the company has adequate resources available to continue in operational existence for the foreseeable future, particularly bearing in mind the additional resources available to the Company and referred to in note 10. They therefore feel that it is appropriate to use the going concern basis of accounting in preparing the financial statements.

Preparation of consolidated financial statements

The financial statements contain information about Entertainment Risk Management Limited as an individual company and do not contain consolidated financial information as the parent of a group. The company has taken the option under Section 398 of the Companies Act 2006 not to prepare consolidated financial statements.

Insurance assets and liabilities

The company acts as an agent in the underwriting of insurance risks. In general, the company is not liable as principal for premiums due to underwriters or for claims payable to clients. In recognition of these relationships, insurance cash, debtors and creditors ("fiduciary assets") relating to insurance underwriting are not shown as assets and liabilities of the company itself. Notwithstanding the above policy the company is entitled to retain any investment income on any cash flows arising from these transactions.

Net fiduciary assets representing commission earned by the company and not taken to its own funds is included in the balance sheet debtors as an amount falling due within one year.

Turnover

Commission and fees income is recognised when the company's obligations to underwrite and administer the respective insurance policy have been substantially completed and the income due is reasonably certain. In respect of income earned or returned out of periodic income statements from insurance brokers and other intermediaries, adjustment premiums or declarations of turnover, income is recognised when the amount has been determined. Obligations can arise for the performance of subsequent activities. Where these are not covered by additional income, a relevant portion of commission can be deferred and recognised in the periods in which these activities take place.

Expenses

The cost of underwriting services is charged when incurred. No provision is made for the future cost of handling the run off of business, which is largely the responsibility of third parties funded by underwriters.

Foreign currencies

Transactions in foreign currencies during the year are translated at the month end rate and monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated using the rate of exchange ruling at the balance sheet date. The gains or losses on translation are included in the profit and loss account.

Pension costs

Contributions payable to the company's defined contribution pension scheme are charged to the profit and loss account in the period to which they relate.

Notes (forming part of the financial statements)

1. Accounting policies (*continued*)

Deferred taxation

Deferred tax arises as a result of including items of income and expenditure in taxation computations in periods different from those in which they are included in the company's accounts. Deferred tax is provided in full on timing differences which result in an obligation to pay more (or less) tax at a future date, at the average tax rates that are expected to apply when the timing differences reverse, based on current tax rates and laws.

Deferred tax assets are only recognised to the extent that their recovery is probable.

Deferred tax assets and liabilities are not discounted.

2. Analysis of turnover

Turnover represents commission earned on insurance underwriting activities and fees from brokers and others for whom it acts as adviser.

3. Directors and staff numbers and costs

Total directors' remuneration for qualifying services amounted to £4,800 (2014 15 months £6,000). None of the Directors participated in the defined contribution pension schemes.

4. Tax on profit on ordinary activities

Losses incurred during the period may give rise to substantial benefits in future periods when losses can be offset against any profits. No such future benefit has been recognised in these accounts as the timing of its recovery is considered uncertain.

5. Tangible fixed assets

	Cost £	Depreciation £	Net book value £
IT equipment			
At 1 April 2014	5,289	(3,335)	1,953
Additions/charge in the year	-	(1,465)	(1,465)
Disposals	-	-	-
At 31 March 2015	5,289	(4,800)	488

6. Investments

The company subscribed for 25% of the capital shares of Entertainment Risks LLP, which is registered in the UK and has entered into an Appointed Representative agreement in order to transact insurance services under the supervision of the Company as their Principal in accordance with the Financial Services and Markets Act 2000. During the year the company ceased to engage Travel Industry Risk Management LLP which has been dissolved.
