#### NOTES TO THE FINANCIAL STATEMENTS

#### PERIOD FROM 1 JANUARY 2006 TO 31 MARCH 2007

#### 1. ACCOUNTING POLICIES

#### Basis of accounting

The financial statements have been prepared under the historical cost convention, modified to include the revaluation of certain fixed assets, and in accordance with applicable UK accounting standards

#### Cash flow statement

The directors have taken advantage of the exemption in Financial Reporting Standard No 1 (Revised 1996) from including a cash flow statement in the financial statements on the grounds that the company is small

#### Fixed assets

No depreciation is charged on this class of fixed asset. This treatment follows the principles outlined in the Standard Statement of Accounting Practice 19 (Accounting for Investment Properties) and is a departure from Financial Reporting Standard 15 (Tangible Fixed Assets), which requires all tangible fixed assets to be depreciated. This departure is necessary to give a true and fair view

#### Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
