The accounts have been prepared under the historical cost convention

The company has taken advantage of the exemption in Financial Reporting Standard No 1 from the requirement to produce a cash flow statement on the grounds that it is a small company

1.2 Turnover

Turnover represents the invoiced value of goods sold and services provided net of VAT

1.3 Goodwill

Acquired goodwill is written off over 10.5 years

1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided on all tangible fixed assets at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows

Plant and machinery	25% reducing balance
Fixtures, fittings & equipment	20% reducing balance

1.5 Leasing

Rental payments under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease

1.6 Stock

Stock is stated at the lower of cost and net realisable value. Cost includes all direct costs incurred in bringing the stocks to their present location and condition

Net realisable value is based on estimated selling price less further costs expected to be incurred to completion and disposal

1.7 Deferred taxation

Deferred tax is provided in full on timing differences which result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the accounts. Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no commitment to sell the assets. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted

1.8 Foreign currency translation

Transactions denominated in foreign currencies are recorded at the rate of exchange ruling at the date of the transaction
