This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in a Report of the Auditors and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

**Respective responsibilities of director and auditors**

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2010

1 ACCOUNTING POLICIES

**Accounting convention**

The financial statements have been prepared under the historical cost convention and are in accordance with applicable accounting standards

The company sold its remaining property in February 2010 at a small profit. Its financial position at the year end shows the company has net assets and is cash positive. Taking this into account, the director has a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future and the company therefore continues to adopt the going concern basis in preparing the annual report and accounts.

**Turnover**

Turnover comprises rental income from properties held for sale and any revenues derived from the sale of properties.

Rental income from property leased out under an operating lease is recognised in the profit and loss account on a straight line basis over the term of lease. Disposals of properties are accounted for at the date of exchange where there is a legally binding, unconditional contract and where completion takes place by the date of approval of the accounts.

**Stocks**

Stock is valued at the lower of cost and net realisable value. The cost of trading and development properties includes the purchase price of the trading asset and associated acquisition and development costs.

**Deferred taxation**

In accordance with the requirements of FRS 19, deferred tax is provided in full in respect of material taxation deferred by timing differences between the treatment of certain items for taxation and accounting purposes.

A net deferred tax asset is regarded as recoverable and therefore recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

**Capitalisation of finance charges**

The direct costs incurred in connection with the issue of capital instruments have been deducted from the proceeds of the issue. The finance costs associated with debt have been allocated at a constant rate over the term of the loan.

2 TURNOVER

The turnover and profit (2009 - loss) before taxation are attributable to the one principal activity of the company.

An analysis of turnover by class of business is given below.

	2010 £	2009 £
