Principal activity

Review of the Business

The directors are pleased with the increased turnover. The turnover for the year was £11,941,651(2010-£8,449,382). The company was able to achieve a high turnover due to the high quality education provided by the company, aggressive marketing carried out and examination services provided by its channel partners. The University of Sunderland, after seeing the excellent facilities and the quality of education, has entered into an agreement to take over the company's Marsh Wall Campus as their London Campus with effect from 19th March 2012. This will potentially reduce the turnover in future but the company will be able to sustain its business under the rapid changes in the Government immigration policy in the UK, as our core business is providing higher education to overseas students.

Statement of directors' responsibilities

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally. Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.
