Chipping Dawson Enterprises Limited
Notes to the Abbreviated Accounts
for the year ended 31 October 2014

1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents the value, net of value added tax and discounts, of goods provided to customers and work carried out in respect of services provided to customers.

2 Investment Properties

Investment properties are shown at their open market value. The surplus or deficit arising from the valuation is transferred to the investment revaluation reserve unless a deficit, or its reversal, or an individual investment property is expected to be permanent, in which case it is recognised in the profit and loss account for the year.

This is in accordance with the FRSSE which, unlike Schedule 4 of the Companies Act 1985, does not require depreciation of investment properties. Investment properties are held for their investment potential and not for use by the company and so their current value is of prime importance. The departure from the provisions of the Act is required in order to give a true and fair view.

As the company has no depreciation policy, it is not possible to quantify the effect of this departure from the Companies Act provisions.

In the opinion of the directors the value of the investment properties is equivalent to its market value.
