**NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31 DECEMBER 2014**

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The financial statements have been prepared on the going concern basis which assumes that financial support from its immediate parent company will be continued for a period of at least 12 months from the date of approval of these financial statements. The directors have received confirmation from the company's immediate parent undertaking that it intends to maintain its support and has the financial means to continue its investment in the UK. The directors are confident that the company will continue to be profitable in future years. If the company were unable to trade, adjustments would have to be made to reduce the value of assets to their recoverable amounts, to provide for further liabilities that might arise and to reclassify fixed assets as current assets.

Turnover

Turnover represents amounts receivable for services. Income is recognised quarterly based on a commission rate of 5% (2013: 6%) of sales generated by the UK company, under a service contract.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Motor vehicles	25% on cost
Plant & Machinery	33% on cost

Deferred tax

Deferred tax is recognised in respect of all material timing differences that have originated but not reversed at the balance sheet date. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. The deferred tax has not been discounted.

Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

Though self billing invoices from the German related undertakings are designated in Euros, these are converted at the spot rate ruling at the time, with any exchange difference being absorbed by the German entities. All other transactions comprising balances with related undertakings are designated in Sterling.

Pension costs

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.
