2 Accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with the Companies Act 2006.

Basis of preparation

The Company meets the definition of a qualifying entity under FRS 100 (Financial Reporting Standard 100) issued by the Financial Reporting Council. These financial statements were prepared in accordance with FRS 101 (Financial Reporting Standard 101) 'Reduced Disclosure Framework' as issued by the Financial Reporting Council, for all periods presented.

Going concern

As a result the going concern basis has been adopted in the preparation of the financial statements.

Notes to the Financial Statements (continued)

for the year ended 31 March 2020

2 Accounting policies (continued)

Financial instruments

Financial assets and liabilities are recognised on the balance sheet when the Company becomes party to the contractual provisions of the instrument. Financial assets are derecognised from the balance sheet when the Company's contractual rights to the cash flows expire or there has been a substantial transfer of the risks and rewards of the financial asset. Financial liabilities are derecognised from the Company's balance sheet when the obligation specified in the contract is discharged, cancelled or expires. At each balance sheet date, the Company assesses whether there is any objective evidence that any financial asset is impaired.

Interest income is recognised when it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Taxation

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that are enacted or substantively enacted by the balance sheet date. The tax currently payable is based on taxable profits for the year.

3 Judgements and key sources of estimation uncertainty

Impairment of investments in joint ventures

Determining whether the Company's investments in joint ventures have been impaired required estimations of the investments' value in use. The value in use calculations require the entity to estimate the future cash flows expected to arise from the investments and suitable discount rates in order to calculate present value. The carrying amount of investments in joint ventures at the balance sheet date was £50 with no impairment loss recognised in 2019 or 2020.

4 Employees and Director's remuneration

The Company did not have any employees during the year (2019: nil) nor did it make any payments in respect of wages and salaries (2019: nil).

The Directors received no remuneration from the Company during the year (2019: nil).

5 Interest Receivable and similar income

	2020	2019
	£	£
Interest Receivable and similar income	540,389	522,921

The Company's contributions to Freesat (UK) Ltd are funded by loans from its parent company, the BBC.
