A J Thomas - Director

The notes of page 8 to 12 form part of these financial statements.

Notes to the financial statements For the year ended 31 May 2013

1. ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Standard for Smaller Entities (effective April 2008).

1.2 Turnover

Turnover comprises revenue recognized by the company in respect of goods and services supplied, exclusive of Value Added Tax and trade discounts.

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following basis:

Plant and Machinery

25% reducing balance

1.4 Leasing and hire purchase

Assets obtained under hire purchase contracts and finance leases are capitalized as tangible fixed assets. Assets acquired by finance lease are depreciated over the shorter of the lease term and their useful lives. Assets acquired by hire purchase are depreciated over their useful lives. Finance leases are those where substantially all of the benefits and risks of ownership are assumed by the company. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

1.5 Operating leases

Rentals under operating losses are charged on a straight line basis over the lease term.

Benefits received and receivable as an incentive to sign an operating lease are recognized on a straight line basis over the period until the date the rent is expected to be adjusted to the prevailing market rate.

1.6 Stocks

Stocks are valued at the lower of cost and net realizable value after making due allowance for obsolete and slow-moving stocks. Cost includes all direct costs and an appropriate proportion of fixed and variable overheads.

1.7 Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognized only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.
