Principal risks and uncertainties

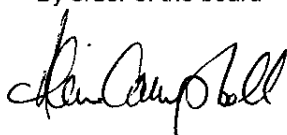

Treasury management

The Severn Trent group manages its treasury operations on a group basis. Financial risk management is performed by Severn Trent's Group Treasury department. This includes assessment and mitigation of price risk, credit risk, liquidity risk and interest rate cash flow risk. The group's treasury management policies and operations are discussed in Severn Trent Plc's Annual Report and Financial Statements (which does not form part of this report).

Going concern and financial position

The directors have considered the financial position and future prospects of the company. The company participates in the group's pooled banking arrangements and receives funding from the Severn Trent group in the form of intra-group loans. When existing loans reach maturity the appropriate funding will be established as required to ensure such obligations can be met. After making enquiries, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the report and annual financial statements.
