Notes to the Abbreviated Accounts for the period ended 31 October 2015

1 Accounting Policies

Basis of measurement and preparation of accounts

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

Turnover represents amounts receivable for goods and services net of VAT. The total turnover of the company for the year has been derived from its principal activities

Tangible assets depreciation policy

Depreciation is provided on all tangible fixed assets, at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Computer equipment - 33.33% straight line Office equipment - 20% straight line

Intangible assets amortisation policy

Amortisation is provided at the following annual rates in order to write off each asset over its estimated useful life:

Website development - 33.33% straight line

Other accounting policies

Going Concern

We believe that the company's financial statements should be prepared on a going concern basis on the grounds that current and future sources of funding or support will be more than adequate for the company's needs. This support is required as the company has net current liabilities of £41,696 and net liabilities of £11,970. We believe no further disclosures relating to the company's ability to continue as a going concern need to be made in the financial statements. In assessing going concern, we have paid particular attention to a period of not less than one year from the date of approval of the financial statements.

Grants

Capital based government grants are included within accruals and deferred income in the balance sheet and credited to other income in the profit and loss account over the estimated useful economic lives of the assets to which they relate.

Foreign currencies

Transactions in foreign currencies are recorded using the rate of exchange ruling at the date of the transaction (or, if hedged forward, at the rate of exchange under the related forward currency contract). Monetary assets and liabilities denominated in foreign currencies are translated using the contracted rate or the rate of exchange ruling at the balance sheet date and the gains or losses on translation are included in the profit and loss account.

Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19.
