#### 1. Accounting policies

##### 1.1 Basis of preparation of financial statements

Virgin Care Corporate Services Limited ("the Company") is a company incorporated and domiciled in the UK.

These financial statements were prepared in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' ("FRS 101"). The amendments to FRS101 (2014/15 Cycle) issued in July 2015 and effective immediately have been applied.

In preparing these financial statements, the Company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the EU ("Adopted IFRSs"), but make amendments where necessary in order to comply with Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken.

In the transition to FRS101, the Company has applied IFRS 1 whilst ensuring that its assets and liabilities are measured in compliance with FRS101. An explanation of how the transition to FRS101 has affected the reported financial position and financial performance of the Company is given in note 10.

The Company's ultimate controlling entity within the UK, Virgin Holdings Limited, includes the Company in its consolidated financial statements. The consolidated financial statements of Virgin Holdings Limited are prepared in accordance with International Financial Reporting Standards and are available to the public and may be obtained from Companies House, Crown Way, Cardiff, CF14 3UZ.

In these financial statements, the company has applied exemptions available under FRS101 in respect of the following disclosures:

- a Cash Flow Statement and related notes;
- Comparative period reconciliations for share capital, tangible fixed assets, intangible assets and investments;
- Disclosures in respect of transactions with wholly owned subsidiaries;
- Disclosures in respect of capital management;
- The effects of new but not yet effective IFRSs;
- Disclosures in respect of the compensation of Key Management Personnel; and
- Disclosures of transactions with a management entity that provides key management personnel services to the company.

As the consolidated financial statements of Virgin Holdings Limited include the equivalent disclosures, the Company has also taken the exemptions under FRS 101 available in respect of the following disclosures:

- Disclosures required by IFRS 7 Financial Instrument Disclosures.

The Company proposes to continue to adopt the reduced disclosure framework of FRS101 in its next financial statements.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements and in preparing an opening FRS101 balance sheet at 1 April 2014 for the purposes of the transition to FRS101.

Notes to the Financial Statements  
For the Year Ended 31 March 2016

---

**1. Accounting policies (continued)**

**1.2 Measurement convention**

The financial statements are prepared on the historical cost basis.

**1.3 Going concern**

The financial statements have been prepared on the going concern basis which the directors believe to be appropriate for the following reason. The Company has access to sufficient cash to continue to support the business over at least the next 12 months, based on forecasts and projections, taking account of reasonably possible changes in trading performance. As the directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future they continue to adopt the going concern basis in preparing the annual financial statements.

The financial statements do not include any adjustments that would results from the basis of preparation being inappropriate.

**1.4 Income from interest in group undertakings**

The income from the Company's 1% investment in the Limited Liability Partnerships which are subsidiaries of Virgin Care Limited, the company's parent undertaking, is recognised based on the Company's share of profits available for distribution for the year ended 31 March 2016.

**1.5 Non-derivative financial instruments**

Non-derivative financial instruments comprise investment in trade and other debtors, cash and cash equivalents, and trade and other creditors.

Trade and other debtors are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses.

Trade and other creditors are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method.

**1.6 Impairment of financial assets**

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. For financial instruments measured at cost less impairment an impairment is calculated as the difference between its carrying amount and the best estimate of the amount that the Company would receive for the asset if it were to be sold at the reporting date. Interest on the impaired asset continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

**Notes to the Financial Statements  
For the Year Ended 31 March 2016**

---

**1. Accounting policies (continued)**

**1.7 Current and deferred taxation**

Tax is recognised in the Profit and Loss account, except that a change attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Company operates and generates income.

- Deferred tax balances are recognised in respect of all temporary differences that have originated but not reversed by the Balance Sheet date, except that:
- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and

Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised.

**2. Judgments in applying accounting policies and key sources of estimation uncertainty**

The Directors do not believe there are any key sources of estimation uncertainty at the balance sheet date that may cause material adjustments to the carrying amounts of assets or liabilities within the next financial year.

The Directors do not believe there are any critical accounting judgements in applying the Company's accounting policies.
