Notes to the Financial Statements for the Year Ended 31 December 2016

1. General information

Euro TCS Systems Limited is a private limited company incorporated in England and Wales. The address of the registered office is given on the company information page and the nature of the company's operations and its principal activities are set out in the directors' report.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the company's accounting policies (see note 3).

The following principle accounting policies have been applied:

2.2 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

The company adds to the carrying amount of an item of fixed assets the cost of replacing part of such an item when that cost is incurred, if the replacement part is expected to provide incremental future benefits to the company. The carrying amount of the replaced part is derecognised. Repairs and maintenance are charged to profit or loss during the period in which they are incurred.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight line method.

Depreciation is provided on the following basis:

Plant and machinery

- 25% straight line basis

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in the statement of comprehensive income.

2.3 Debtors

Short term debtors are measured at transaction price, less any impairment.

Notes to the Financial Statements for the Year Ended 31 December 2016

2. Accounting policies (continued)

2.4 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours.

2.5 Financial instruments

The company only enters into basic financial instruments transactions that result in the recognition of financial assets and liabilities like trade and other accounts receivable and payable.

2.6 Creditors

Short term creditors are measured at the transaction price.

2.7 Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in the statement of comprehensive income, except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the statement of financial position date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

Notes to the Financial Statements for the Year Ended 31 December 2016

3. Judgements in applying accounting policies and key sources of estimation uncertainty

In preparing these financial statements, the directors have made the following judgements:

Determine whether there are indicators of impairment of the company's tangible assets. Factors
taken into consideration in reaching such a decision include the economic viability and expected
future financial performance of the asset.

Other key sources of estimation uncertainty

Tangible fixed assets (see note 5).
Tangible fixed assets are depreciated over their useful lives taking into account residual values, where appropriate. The actual lives of the assets and residual values are assessed annually and may vary depending on a number of factors. In re-assessing asset lives, factors such as technological innovation, product life cycles and maintenance programmes are taken into account. Residual value assessments consider issues such as future market conditions, the remaining life of the asset and projected disposal values.

4. Operating loss

During the year, no director received any emoluments (2015 - £Nil).

5. Tangible fixed assets

| | Plant and machinery |
|---------------------|---------------------|
| | £ |
| Cost | |
| At 1 January 2016 | 8,964 |
| At 31 December 2016 | 8,964 |
| Depreciation | |
| At 1 January 2016 | 8,964 |
| At 31 December 2016 | 8,964 |
| Net book value | |
| At 31 December 2016 | • |
| At 31 December 2015 | - |
| | |
