1 Accounting Policies

Basis of accounting

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover comprises the invoiced value of goods and services supplied by the company, net of Value Added Tax and trade discounts.

Operating lease rentals

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

Foreign currency

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rate of exchange ruling at the balance sheet date. Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All foreign exchange differences are included to the profit and loss account.

Deferred taxation

Deferred taxation arises when items are charged or credited in accounts in different periods to those in which they are included in the company's tax computations. Deferred tax is provided in full on timing differences that result in an obligation to pay more (or less) tax at a future date. Deferred tax is calculated at the average rates that are expected to apply when the timing differences reverse, based on current tax rates and laws. The resulting deferred tax asset or liability is not discounted. Deferred tax assets are only recognised if it is more likely than not that they will be recovered either against future taxable profits or against the reversal of other deferred tax liabilities.

Dividends

Proposed dividends are only included as liabilities in the financial statements when their payment has been approved by the shareholders prior to the balance sheet date.

Tangible fixed assets

Tangible fixed assets, other than freehold land, are stated at cost or valuation less depreciation and any provision for impairment. Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following basis:
