## **Strategic Report**

The Board of Directors presents its strategic report on FxPro UK Limited (the "Company") for the year ended 31 December 2022.

#### **Principal activities**

The Company is an online financial services provider regulated by the Financial Conduct Authority ('FCA') and acts as the principal and market maker to its customers in Contracts for Difference ("CFDs") and financial spread betting on currency pairs, futures on indices, commodities and energy, as well as spot indices, shares and metals. The revenue of the Company derives from commission income received from an affiliated entity (FxPro Financial Services Limited).

#### Review of developments, position and performance of the Company's business

The revenue of the Company, for the year ended 31 December 2022 was £1,112,665 (2021: £900,365). The net loss of the Company for the year was £614,558 (2021: net loss £545,567). On 31 December 2022, the total assets of the Company were £4,334,166 (2021: £4,308,439) and its net assets decreased to £3,408,342 (2021: net assets £4,022,900) as a result of the loss incurred during the year. Cash and cash equivalents increased to £2,566,687 in 2022 (2021: £2,416,180).

The Company's Key Performance Indicators ("KPIs"), with which management monitors the business and its performance are the volume traded and profitability. Notional volume traded for the year ended 31 December 2022 increased by 8% to US\$41 billion, compared to US\$38 billion during the year ended 31 December 2021. As a result of the above, revenue for the year ended 31 December 2022 increased by 24% compared to the year ended 31 December 2021. The increase in revenue was mainly driven by the effect of Russian invasion in Ukraine, which caused significant market volatility and thus increased trading activity in 2022.

#### Principal risks and uncertainties

The Company's activities, as outlined above, expose it to a variety of financial, operational and systems, compliance, litigation and reputation risks. Each principal risk and how this is assessed and managed is outlined below with the exception of the financial risks and uncertainties which are outlined in Note 5 of the financial statements. Financial risk management and disclosures are also disclosed in Note 5 of the financial statements. The Company's capital requirements are calculated in accordance with the FCA regulations. The capital of the Company is monitored regularly in light of any potential changes within the business.

Operational and systems risk is the risk that derives from possible deficiencies relating to the Company's information technology and systems' control, as well as the risks of human error and natural disasters. The Company's systems are evaluated, maintained and upgraded continuously. Separation of power and authority regarding vital functions of the Company exists and the Board reviews any decisions made by management and monitors their activities.

## **Strategic Report (continued)**

#### Principal risks and uncertainties (continued)

The Company's operations are also closely dependent on information technology and any damage or failure of the systems would place the Company at significant risk. The Company has recovery programmes and backup systems in place in order to be able to carry on its core operations. The Company also mitigates any risk from failure of third party providers such as data suppliers, market information, telephone and internet access by ensuring it has multiple providers for each service. The Company also pro-actively improves and renews systems in order to ensure no failures or damages occur.

Compliance risk is the risk of financial loss, including fines and other penalties, which may arise from non-compliance with laws and regulations. The Company is authorised and regulated by the FCA. Any changes in the regulatory framework and directives relating to the Company's services and operations could expose the Company to considerable risk. This risk is limited to a significant extent due to the supervision applied by the Compliance function, the use of external compliance and regulatory advisors, as well as by the monitoring controls applied by the Company.

Litigation risk is the risk of financial loss, interruption of the Company's operations or any other undesirable situation that arises from the possibility of non-execution or violation of legal contracts and consequentially of lawsuits. The risk is mitigated through the contracts used by the Company to execute its operations. The Company obtains continuous legal advice on the preparation of its legal documents.

Reputation risk is the risk of loss of reputation arising from the negative publicity relating to the Company's operations (whether justified or unjustified) that may result in a reduction of its clientele, reduction in revenue and legal claims against the Company. The risk is mitigated by effectively managing information technology, compliance and regulatory risks.

A comprehensive business contingency and disaster recovery plan has been prepared with recovery procedures and actions to be followed in the case of damage to any vital part of the Company's structure.

#### Section 172 statement

Section 172 of the Companies Act 2006 requires a Director of a company to act in the way he or she considers, in good faith, would be most likely to promote the success of the company for the benefit of its members as a whole. In doing this, section 172 requires a Director to have regard, among other matters, to: the likely consequences of any decision in the long term; the interests of the company's employees; the need to foster the company's business relationships with suppliers, customers and others; the impact of the company's operations on the community and the environment; the desirability of the company maintaining a reputation for high standards of business conduct; and the need to act fairly with members of the Company.

The Directors of the Company acknowledge their duty to promote the success of the company for the benefit of shareholders as a whole, having regard to a number of broader matters including the likely consequences of decisions for the long term, the need to act fairly between members of the company, and the company's wider relationships including the regulator, the financial institutions it cooperates with. This is to ensure that any engagement with the Company's stakeholders is considered effective and will contribute in a sustainable way to the Company's long-term strategy. The means of communication to the stakeholders include but are not limited to regular meetings, communication and disclosures through the official website of the Company.

## **Strategic Report (continued)**

#### Section 172 statement (continued)

The Board is always alert in identifying and resolving any issues that might arise with customers, employees or any other stakeholder and receives regular updates from management to ensure that these issues will not negatively impact the Company.

#### Covid-19 pandemic

The measures relating COVID-19 pandemic were continuously revised (lifted or tightened) by the UK government during the year taking into consideration the epidemic status in the country. Management has taken and continues to take necessary measures to ensure minimum disruption and sustainability of the Company's operations and support the Company's employees and customers and no significant risk is considered to be present.

#### War between Russia and Ukraine

During 2021, the Russian economy continued to be negatively impacted by the ongoing political tension in the region and international sanctions against certain Russian companies and individuals, with the tension intensifying towards the end of 2021 as a result of further developments of the situation with Ukraine. From late February 2022 the conflict between Russia and Ukraine escalated further and the situation remains highly unstable. In response to the conflict, a number of sanctions have been imposed on Russian entities to restrict them from having access to foreign financial markets, including removing access of several Russian banks to the international SWIFT system.

The EU, UK and US (amongst others) have also imposed sanctions against the Russian central bank, restricting the access of the Russian state to foreign currency reserves, and introduced further asset freezes against designated individuals/entities and sectoral sanctions.

The situation is still evolving and further sanctions and limitations on business activity of companies operating in the region, as well as consequences on the Russian economy in general, may arise but the full nature and possible effects of these are unknown.

Nonetheless, the Company is not significantly impacted from the conflict, as its operations are not affected by the situation however management will continue monitoring the situation and take action if required.

#### **Banking sector**

Recent failures of certain banks, resulting in liquidity constraints and government intervention, acquisitions and subsequent developments have resulted in significant disruption in the banking sector. This is a volatile period and situation, however, the Company is not directly exposed to those banks as there are no arrangements with those parties. Management will continue to monitor the situation closely and take appropriate actions when and if needed.

On behalf of the Board

**Denis Sukhotin** 

Director

London, 11 April 2023

### **Directors' Report**

The Board of Directors presents its report together with the audited financial statements of the Company for the year ended 31 December 2022.

#### **General Information**

FxPro UK Limited (the "Company") is incorporated and domiciled in the England and Wales as a private company with limited liability under the UK Company Law. Its registered office is at 13-14 Basinghall Street, EC2V 5BQ, London. The Company is directly controlled by FxPro Group Limited, registered in Guernsey, which owns 100% of the Company's shares and is controlled by a number of individuals, none of whom has a controlling interest. The Company operates under the license no. 509956 granted by the UK Financial Services Authority ("FSA" now Financial Conduct Authority or "FCA").

#### **Branches**

The Company did not operate through any branches during the year ended 31 December 2022.

#### **Future developments of the Company**

The Board of Directors does not expect any significant changes or developments in the operations and financial position of the Company in the foreseeable future other than discussed elsewhere (Note 1 and Strategic Report).

The Company is expected to offer to its clients the dealing of physical shares in 2023.

#### Results and dividends

The Company's results for the year ended 31 December 2022 are shown on page 11. During the year 2022, the Company did not declare any dividends to its sole shareholder.

#### Capital management

The Company is required by the FCA to prepare an Internal Capital Adequacy and Risk Assessment ("ICARA") which replaced the Internal Capital Adequacy Assessment Process ("ICAAP").

As at the statement of financial position date the Company's regulatory capital resources were £3,408,342 (2021: £4,022,900) which comprise solely of issued share capital and retained earnings. The Company held adequate capital resources and did not breach any regulatory capital requirements during the year.

#### Remuneration policy

The Company employed 5 employees at the end of 2022 (2021: 6 employees).

The principles of the Company's remuneration policy adhere to the FCA's Remuneration Code which was introduced with effect from 1 January 2011. The Company's policy is to ensure that executive rewards are linked to performance, to provide an incentive to achieve the key business aims and deliver an appropriate link between reward and performance whilst ensuring base salary levels are not set at an artificially low level. The Company operates a discretionary bonus policy correlated, amongst others, to the annual profitability of the Company.

## **Directors' Report (continued)**

#### Share capital

The Company has 1,400,000 ordinary shares in issue as at 31 December 2022. No change in the authorised or issued share capital of the Company took place during the year ended 31 December 2022.

#### **Board of Directors**

The members of the Board of Directors who were in office during the year 2022 and at the date of this report are shown on page 1. All of them were members of the Board throughout the year 2022, except Mr Charalambos Psimolophitis, who resigned on 30 July 2022 and Mr Justin Noel Roland Megawarne who resigned on 15 December 2022. Mr Pavlos Argyrou and Mr Denis Sukhotin were appointed as Directors on 06 December 2022.

#### Events after the statement of financial position date

There were no post statement of financial position events that require adjustments or disclosure in these financial statements other than those noted in Note 22.

#### Statement of Directors' responsibilities in respect of the financial statements

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with UK-adopted international accounting standards.

Under Company Law, directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable UK-adopted international accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are also responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

## **Directors' Report (continued)**

#### **Directors' confirmations**

In the case of each director in office at the date the Directors' Report is approved:

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware; and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

#### **Independent Auditors**

The Independent Auditors, PricewaterhouseCoopers LLP, have expressed their willingness to continue in office. A resolution giving authority to the Board of Directors concerning their reappointment will be proposed at the Annual General Meeting.

#### On behalf of the Board

**Denis Sukhotin** 

Director

London, 11 April 2023

# Independent auditors' report to the members of FxPro UK Limited

## Report on the audit of the financial statements

#### **Opinion**

In our opinion, FxPro UK Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2022 and of its loss and cash flows for the year then ended;
- have been properly prepared in accordance with UK-adopted international accounting standards; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report and Financial Statements (the "Annual Report"), which comprise: the Statement of Financial Position as at 31 December 2022; the Statement of Comprehensive Income, Statement of Cash Flows and the Statement of Changes in Equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

#### Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the company's ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

#### Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as described below.

#### Strategic report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic report and Directors' Report for the year ended 31 December 2022 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic report and Directors' Report.

#### Responsibilities for the financial statements and the audit

#### Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' responsibilities in respect of the financial statements, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

#### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations related to corporation tax legislation, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the financial statements such as the Companies Act 2006. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to the recording of journals. Audit procedures performed by the engagement team included:

- Enquiries of management in relation to known or suspected instances of non-compliance with laws and regulation and fraud;
- Identifying and, where relevant, testing journal entries;
- · Review of correspondence with regulators in so far as it was related to the financial statements; and
- Incorporated unpredictability into the nature, timing and/or extent of our testing.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

#### Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

## Other required reporting

#### Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not obtained all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Craig McSherry

Craig McSherry (Senior Statutory Auditor) for and on behalf of PricewaterhouseCoopers LLP Chartered Accountants and Statutory Auditors London

#### Notes to the financial statements

#### 1 General information

#### **Country of incorporation**

FxPro UK Limited (the "Company") is incorporated and domiciled in the UK as a private company limited by shares with limited liability under the UK Company Law. Its registered office is at 13-14 Basinghall Street, EC2V 5BQ, London, UK.

#### **Principal activities**

The Company is an online financial services provider and acts as the principal and market maker to its customers in Contracts for Difference ("CFDs") and financial spread betting on currency pairs, futures on indices, commodities and energy, as well as spot indices, shares and metals. The revenue of the Company derives from commission income received from FxPro Financial Services Limited (entity under common control) and it is recognised by reference to the total trading volume.

The Company operates under the license no. 509956 granted by the UK Financial Services Authority (now "Financial Conduct Authority"). The Company's license is to hold and control client money and to act as principal on clients' trades as a matched principal broker.

The Company is expected to offer to its clients the dealing of physical shares in 2023.

#### Operating environment of the Company

For the assessment of the Management for the Covid-19, the war between Russia and Ukraine and the banking sector please refer to the Strategic Report.

#### 2 Basis of preparation

The financial statements of the Company have been prepared in accordance with UK-adopted International Accounting Standards and with the requirements of the Companies Act 2006 as applicable to companies reporting under those standards.

The principal accounting policies applied in the preparation of these financial statements are set out below in Note 3. These policies have been consistently applied to all the years presented, unless otherwise stated.

The financial statements have been prepared on a going-concern basis under the historical cost convention, as modified by the initial recognition of financial instruments based on fair value, and by revaluation of derivative financial instruments at fair value through profit or loss and financial assets at fair value through profit or loss.

The preparation of financial statements in conformity with UK-adopted international accounting standards requires the use of certain critical accounting estimates and requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 6.

#### 3 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### Revenue

#### Recognition and measurement

Revenue represents the amount of consideration to which the Company expects to be entitled in exchange for transferring the promised goods or services to the customer, excluding amounts collected on behalf of third parties (for example, value-added taxes); the transaction price.

The Company recognises revenue when the parties have approved the contract (in writing, orally or in accordance with other customary business practices) and are committed to perform their respective obligations, the Company can identify each party's rights and the payment terms for the goods or services to be transferred, the contract has commercial substance (i.e. the risk, timing or amount of the Company's future cash flows is expected to change as a result of the contract), it is probable that the Company will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer and when specific criteria have been met for each of the Company's activities as described below.

Revenue earned by the Company is recognised on the following bases:

#### (i) Trading revenue

Trading revenue arises from the provision of online financial services in the ordinary course of the Company's activities- clients' trading in CFDs and financial spread betting- whereby the Company acts as the counterparty to the trades undertaken by its clients, and from the transactions undertaken to hedge the risks associated with client trading.

Trading revenue includes gains and losses on trading in these financial instruments as well as swap interest income and commission charged on CFDs and financial spread betting. Open client positions and hedging positions are measured at fair market value. Gains and losses arising on this valuation as well as gains and losses realised on closed positions are recognised in revenue.

The Company acts as a matched principal broker to its clients' trades. All trades between the Company and its clients are hedged by entering into off-set trades between the Company and FxPro Financial Services Limited.

#### (ii) Commission income

The Company receives commission income, on a monthly basis, from FxPro Financial Services Limited based on the total trading volume of all its clients' trading activity. Revenue based on commission income is recognised at a point in time when the Company satisfies its performance obligations.

#### (iii) Income from inactive accounts

Income from inactive accounts consists of charges to clients for inactive accounts as per the terms described in the client agreement.

#### 3 Summary of significant accounting policies (continued)

#### Foreign currency translation

#### (i) Functional and presentation currency

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The financial statements are presented in Pound Sterling (£), which is the Company's functional and presentation currency.

#### (ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income within "other losses – net".

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on non-monetary items, such as equities held at fair value through profit or loss, are recognised in the statement of comprehensive income, as part of their fair value gain or loss.

#### **Current income tax**

The tax expense for the year comprises current tax only. The current income tax is based on the taxable profit for the year and is calculated on the basis of the tax laws enacted or substantively enacted at the statement of financial position date in the UK which is the country in which the Company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. If applicable tax regulation is subject to interpretation, it establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

#### **Dividend distribution**

Dividend distribution to the Company's shareholders is recognised as a liability in the Company's financial statements in the year in which the dividends are appropriately authorised and are no longer at the discretion of the Company. More specifically, interim dividends are recognised as a liability in the period in which these are authorised by the Board of Directors and in the case of final dividends, these are recognised in the period in which these are approved by the Company's shareholders.

#### 3 Summary of significant accounting policies (continued)

#### Plant and equipment

Plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributed to the acquisition of plant and equipment. Depreciation on plant and equipment is calculated using the straight-line method.

The annual depreciation rates are as follows:

	2022 %	2021 %
Office equipment	20	20
Furniture & Fittings	20	20
Computer hardware	33	33
Motor vehicles	33	33

Depreciation on leasehold improvements is recognised for the period of shorter of useful life and the term of the underlying lease.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each statement of financial position date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposal of plant and equipment are determined by comparing proceeds with carrying amount and are recognised in "other losses - net" in the statement of comprehensive income.

Expenditure for repairs and maintenance of plant and equipment is charged to the statement of comprehensive income of the year in which they were incurred. The cost of major renovations and other subsequent expenditure are included in the carrying amount of the asset or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

#### Leases

#### The Company is the lessee

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company, with limited exceptions as set out below.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, the Company's incremental borrowing rate is used, being the rate that the Company would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

#### 3 Summary of significant accounting policies (continued)

#### Leases (continued)

The Company is the lessee (continued)

Lease payments are allocated between principal and finance cost. The finance cost is charged to the statement of comprehensive income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the amount of the initial measurement of lease liability and any lease payments made at or before the commencement date less any lease incentives received.

Any remeasurement of the lease liability arising if the cash flows change based on the original terms and conditions of the lease results in a corresponding adjustment to the right-of-use asset. The adjustment can be positive or negative.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

In determining the lease term, management of the Company considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated). The lease term is reassessed if an option is actually exercised (or not exercised) or the Company becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and that is within the control of the Company.

Right-of-use assets are reviewed for impairment in accordance with the Company's accounting policy for impairment of non-financial assets.

As an exception to the above, payments associated with short-term leases and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

Right-of-use assets and associated lease liabilities are presented as separate lines on the face of the statement of financial position.

The Company is the lessor

#### Operating lease

Where the Company is a lessor in a lease which does not transfer substantially all the risks and rewards incidental to ownership to the lessee (i.e. operating lease), rental income is recognised as 'other income' on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognised as expense over the lease term on the same basis as lease income. The respective leased assets are included in the statement of financial position based on their nature. It is noted that the Company ceased to act as lessor during 2021 (Note 20(v)).

#### 3 Summary of significant accounting policies (continued)

#### Impairment of non-financial assets

Assets that are subject to depreciation or amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash generating units). Non-financial assets, that have suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

#### Financial assets - Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income (FVOCI) or through profit or loss (FVTPL)), and
- those to be measured at amortised cost (AC).

The classification and subsequent measurement of debt financial assets depends on: (i) the Company's business model for managing the related assets portfolio and (ii) the cash flow characteristics of the asset. On initial recognition, the Company may irrevocably designate a debt financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI, at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

For assets measured at fair value, gains and losses will be recorded in profit or loss.

For investments in equity instruments that are not held for trading, this will depend on whether the Company has made an irrecoverable election at the time of initial recognition to account for the equity investment at FVOCI.

#### Financial assets - Recognition and de-recognition

All purchases and sales of financial assets that require delivery within the time frame established by regulation or market convention ("regular way" purchases and sales) are recorded at trade date, which is the date when the Company commits to deliver a financial instrument. All other financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

#### Financial assets - Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at FVTPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in profit or loss. Fair value at initial recognition is best evidenced by the transaction price. A gain or loss on initial recognition is only recorded if there is a difference between fair value and transaction price which can be evidenced by other observable current market transactions in the same instrument or by a valuation technique whose inputs include only data from observable markets.

#### 3 Summary of significant accounting policies (continued)

#### Financial assets - Measurement (continued)

#### Debt instruments

The subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company classifies its debt instruments as follows:

• Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in the statement of comprehensive income. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in "other losses - net" together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of comprehensive income. The Company's financial assets measured at amortised cost comprise: cash and cash equivalents, receivables from related parties, amounts receivable from clients, margin accounts with brokers and other receivables.

#### Equity instruments

The Company subsequently measures all equity investments at FVTPL. Changes in the fair value of financial assets at FVTPL are recognised in "other losses - net" in the statement of comprehensive income. Impairment losses (and reversal of impairment losses) on equity investments measured at FVTPL are not reported separately from other changes in fair value.

#### Financial assets - impairment - credit loss allowance for Expected Credit Losses (ECL)

The Company assesses on a forward-looking basis the ECL for debt instruments measured at AC. The Company measures ECL and recognises credit loss allowance at each reporting date. The measurement of ECL reflects: (i) an unbiased and probability weighted amount that is determined by evaluating a range of possible outcomes, (ii) time value of money and (iii) all reasonable and supportable information that is available without undue cost and effort at the end of each reporting period about past events, current conditions and forecasts of future conditions.

The carrying amount of the financial assets is reduced through the use of an allowance account, and the amount of the loss is recognised in the statement of comprehensive income. Subsequent recoveries of amounts for which loss allowance was previously recognized are credited against the same line item.

The impairment methodology applied by the Company for calculating expected credit losses depends on the type of financial asset assessed for impairment. Specifically:

For amounts receivable from clients the Company applies the simplified approach permitted by IFRS 9, which uses lifetime expected losses to be recognised from initial recognition of the financial assets.

#### 3 Summary of significant accounting policies (continued)

## Financial assets – impairment – credit loss allowance for Expected Credit Losses (ECL) (continued)

For all other financial assets that are subject to impairment under IFRS 9, the Company applies the general approach – three stage model for impairment. The Company applies the three stage model for impairment, based on changes in credit quality since initial recognition. A financial instrument that is not credit-impaired on initial recognition is classified in Stage 1. Financial assets in Stage 1 have their ECL measured at an amount equal to the portion of lifetime ECL that results from default events possible within the next 12 months or until contractual maturity, if shorter ("12 Months ECL"). If the Company identifies a significant increase in credit risk ("SICR") since initial recognition, the asset is transferred to Stage 2 and its ECL is measured based on ECL on a lifetime basis, that is, up until contractual maturity but considering expected prepayments, if any ("Lifetime ECL"). Refer to Note 5, Credit risk section for a description of how the Company determines when a SICR has occurred. If the Company determines that a financial asset is credit-impaired, the asset is transferred to Stage 3 and its ECL is measured as a Lifetime ECL. The Company's definition of credit impaired assets and definition of default is explained in Note 5, Credit risk section.

#### Financial assets - Reclassification

Financial instruments are reclassified only when the business model for managing those assets changes. The reclassification has a prospective effect and takes place from the start of the first reporting period following the change.

#### Financial assets - Write-off

Financial assets are written-off, in whole or in part, when the Company exhausted all practical recovery efforts and has concluded that there is no reasonable expectation of recovery. The write-off represents a derecognition event. The Company may write-off financial assets that are still subject to enforcement activity when the Company seeks to recover amounts that are contractually due, however, there is no reasonable expectation of recovery.

#### Classification as cash and cash equivalents

In the statement of cash flows, cash and cash equivalents include cash at banks. Cash and cash equivalents are carried at AC because: (i) they are held for collection of contractual cash flows and those cash flows represent SPPI, and (ii) they are not designated at FVTPL.

#### 3 Summary of significant accounting policies (continued)

#### **Dividend income**

Dividends are received from financial assets measured at FVTPL. Dividends are recognised within fair value changes in "other losses – net" in the statement of comprehensive income when the right to receive payment is established.

#### Financial liabilities - measurement categories

Financial liabilities are initially recognised at fair value and classified as subsequently measured at amortised cost, except for financial liabilities at FVTPL: this classification is applied to derivatives.

#### Trade and other payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade and other payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities. Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

#### **Derivative financial instruments**

Derivative financial instruments which include CFDs on foreign currency pairs, gold, stocks, indices and commodities, are initially recognised in the statement of financial position at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value.

#### Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

#### **Prepayments**

Prepayments are carried at cost less provision for impairment. A prepayment is classified as non-current when the goods or services relating to the prepayment are expected to be obtained after one year, or when the prepayment relates to an asset which will itself be classified as non-current upon initial recognition. Prepayments are written off to statement of comprehensive income when the goods or services relating to the prepayments are received. If there is an indication that the goods or services relating to a prepayment will not be received, the carrying value of the prepayment is written down accordingly and a corresponding impairment loss is recognised in the statement of comprehensive income for the year.

#### Share capital

Ordinary shares are classified as equity.

#### 3 Summary of significant accounting policies (continued)

#### **Provisions**

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount has been reliably estimated. Provisions are not recognised for future operating losses. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

#### **Fiduciary activities**

In order to render investment services to clients, the Company holds money on behalf of clients in a fiduciary activity and in accordance with the Client Asset ("CASS") Rules of the Financial Conduct Authority. The cash is kept in segregated bank accounts in the Company's name on behalf of its clients and these accounts are held by the Company in a fiduciary capacity and are not included as part of the Company's assets and liabilities in financial statements.

For the detailed analysis of clients' accounts with banks held in a fiduciary capacity refer to Note 21.

## 4 Adoption of new or revised standards and interpretations and new accounting pronouncements

#### (i) Adoption of new or revised standards and interpretations

During the current year the Company adopted all the new and revised UK adopted International Accounting Standards that are relevant to its operations and are effective for accounting periods beginning on 1 January 2022. This adoption did not have a material effect on the accounting policies of the Company.

#### (ii) New accounting pronouncements

At the date of approval of these financial statements a number of new standards, interpretations and amendments to existing standards are effective for annual periods beginning after 1 January 2022 and have not been applied in preparing these financial statements. None of these is expected to have a significant effect on the financial statements of the Company. These are set out below:

• Amendments to IAS 1 and IFRS Practice Statement 2: Disclosure of Accounting policies (issued on 12 February 2021 and effective for annual periods beginning on or after 1 January 2023). IAS 1 was amended to require companies to disclose their material accounting policy information rather than their significant accounting policies. The amendment provided the definition of material accounting policy information. The amendment also clarified that accounting policy information is expected to be material if, without it, the users of the financial statements would be unable to understand other material information in the financial statements. The amendment provided illustrative examples of accounting policy information that is likely to be considered material to the entity's financial statements. Further, the amendment to IAS 1 clarified that immaterial accounting policy information need not be disclosed. However, if it is disclosed, it should not obscure material accounting policy information. To support this amendment, IFRS Practice Statement 2, 'Making Materiality Judgements' was also amended to provide guidance on how to apply the concept of materiality to accounting policy disclosures.

## 4 Adoption of new or revised standards and interpretations and new accounting pronouncements (continued)

#### (ii) New accounting pronouncements (continued)

- Classification of liabilities as current or non-current Amendments to IAS 1 (issued on 23 January 2020 and effective for annual periods beginning on or after 1 January 2024). These narrow scope amendments clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Liabilities are non-current if the entity has a substantive right, at the end of the reporting period, to defer settlement for at least twelve months. The guidance no longer requires such a right to be unconditional. Management's expectations whether they will subsequently exercise the right to defer settlement do not affect classification of liabilities. The right to defer only exists if the entity complies with any relevant conditions as of the end of the reporting period. A liability is classified as current if a condition is breached at or before the reporting date even if a waiver of that condition is obtained from the lender after the end of the reporting period. Conversely, a loan is classified as non-current if a loan covenant is breached only after the reporting date. In addition, the amendments include clarifying the classification requirements for debt a company might settle by converting it into equity. 'Settlement' is defined as the extinguishment of a liability with cash, other resources embodying economic benefits or an entity's own equity instruments. There is an exception for convertible instruments that might be converted into equity, but only for those instruments where the conversion option is classified as an equity instrument as a separate component of a compound financial instrument.
- Classification of liabilities as current or non-current, deferral of effective date Amendments to IAS 1 (issued on 15 July 2020 and effective for annual periods beginning on or after 1 January 2024)\*. The amendment to IAS 1 on classification of liabilities as current or non-current was issued in January 2020 with an original effective date 1 January 2022. However, in response to the Covid-19 pandemic, the effective date was deferred by one year to provide companies with more time to implement classification changes resulting from the amended guidance.
- Amendments to IAS 8: Definition of Accounting Estimates (issued on 12 February 2021 and effective for annual periods beginning on or after 1 January 2023). The amendment to IAS 8 clarified how companies should distinguish changes in accounting policies from changes in accounting estimates.
- Disclosure of Accounting Policies Amendments to IAS 1 and IFRS Practice Statement 2 (effective for annual periods beginning on or after 1 January 2023) The IASB amended IAS 1 to require entities to disclose their material rather than their significant accounting policies. The amendments define what is 'material accounting policy information' and explain how to identify when accounting policy information is material. They further clarify that immaterial accounting policy information does not need to be disclosed. If it is disclosed, it should not obscure material accounting information. To support this amendment, the IASB also amended IFRS Practice Statement 2 Making Materiality Judgements to provide guidance on how to apply the concept of materiality to accounting policy disclosures.
- Definition of Accounting Estimates Amendments to IAS 8 (effective for annual periods beginning on or after 1 January 2023) The amendment to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors clarifies how companies should distinguish changes in accounting policies from changes in accounting estimates. The distinction is important, because changes in accounting estimates are applied prospectively to future transactions and other future events, whereas changes in accounting policies are generally applied retrospectively to past transactions and other past events as well as the current period.

## Adoption of new or revised standards and interpretations and new accounting pronouncements (continued)

#### (ii) New accounting pronouncements (continued)

The Company is currently assessing the impact of the amendments on its financial statements and as of the date of issue of these financial statements the impact of the amendments is unlikely to be significant.

\* Denotes standards, interpretations and amendments which have not yet been endorsed by the UK.

#### 5 Financial risk management

The ultimate responsibility for financial risk management resides with the Board of Directors. The Board sets the tone for a risk aware culture and formulates its strategy and risk appetite. Additionally, the Board ensures that the risk structure is appropriate for the Company's profile and size. The internal governance structure plays a significant role in the success of the risk management effort as it can promote accountability and transparency. It also defines the reporting lines and information flow within the Company. The primary objective of the Board of Directors is to oversee the overall management of all risks including market risk, credit risk and liquidity risk. It also has the responsibility to review and recommend the risk management policies and ensure infrastructure, resources and systems are in place for proper risk management.

#### (i) Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, fair value interest and cash flow interest rate risk and price risk), credit risk and liquidity risk.

#### Market risk

#### Foreign exchange risk

Foreign exchange risk, which arises primarily with respect to the Euro and US Dollar, derives from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Company's functional currency.

As at 31 December 2022, if the Euro had weakened/strengthened by 10% (2021: 8%) against to the Pound Sterling with all other variables held constant, post-tax loss for the year would have been £65,557 lower/higher (2021: £91,474 (loss, lower/higher)) mainly as a result of foreign exchange gains/losses on translation of Euro denominated balances.

As at 31 December 2022, if the US dollar had weakened/strengthened by 9% (2021: 2%) against to the Pound Sterling with all other variables held constant, post-tax loss for the year would have been £54,031 lower/higher (2021: £21,524 (loss, lower/higher)) mainly as a result of foreign exchange gains/losses on translation of US dollar denominated balances.

As at 31 December 2022, if the Australian Dollar had weakened/strengthened by 3% (2021: 1%) against to the Pound Sterling with all other variables held constant, post-tax loss for the year would have been £1,762 lower/higher (2021: £558 (loss, lower/higher)) mainly as a result of foreign exchange gains/losses on translation of AUD denominated balances.

- 5 Financial risk management (continued)
- (i) Financial risk factors (continued)
- Market Risk (continued)

#### Foreign exchange risk (continued)

As at 31 December 2022, if the Polish Zloty had weakened/strengthened by 1% (2021: 2%) against to the Pound Sterling with all other variables held constant, post-tax loss for the year would have been £612 lower/higher (2021: £1,733 (loss, lower/higher)) mainly as a result of foreign exchange gains/losses on translation of PLN denominated balances.

As at 31 December 2022, if the Swiss Franc had weakened/strengthened by 2% (2021: 1%) against to the Pound Sterling with all other variables held constant, post-tax loss for the year would have been £2,777 lower/higher (2021: £759 (loss, lower/higher)) mainly as a result of foreign exchange gains/losses on translation of CHF denominated balances.

Management monitors the exchange rate fluctuations on a continuous basis and acts accordingly.

#### Price risk

This is the risk that the fair value of a financial instrument will fluctuate due to changes in market prices other than due to currency or interest rate risk.

The Company acts as a matched principal broker with its clients, hence is not exposed to any related price risk as each transaction with its clients is fully hedged by off-set trades between the Company and FxPro Financial Services Limited (entity under common control).

The Company is also exposed to equity securities price risk because of investments held by the Company and classified on the statement of financial position as FVTPL (listed). The Company is not exposed to commodity price risk.

For details on which stock exchanges the equity securities are listed refer to Note 5 (iii) Fair Value Estimation.

#### Sensitivity

The table below summarises the impact on the Company's post-tax loss (2021: loss) for the year assuming that the prices of the securities held by the Company increased/decreased by 10% with all other variables held constant:

	Impact on post (2021: Ioss	
<b>V</b>	2022	2021
Year-end market value: Equity securities held for trading (Note 14)	106,484	83,664

To manage its price risk arising from investments in equity securities, the Company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Company's Board of Directors.

#### 5 Financial risk management (continued)

#### (i) Financial risk factors (continued)

#### Price Risk (continued)

#### Concentration Risk

As at 31 December 2022, the Company's most significant exposure to specific issuers in respect of the equity securities is as follows: 26% in Roblox Corp, 16% in Rolls-Royce Holdings Plc and 11% in Bayerische Motoren Werke AG (2021: 24% in Polymetal International Plc and 16% in Wise Plc).

As at 31 December 2022, the Company's most significant exposure to various sectors in respect of the equity securities is as follows: 27% in car manufacturers sector and 26% in video games developers sector (2021: 24% in precious metals and mining sector and 16% in transaction processing services sector).

As at 31 December 2022, the Company's most geographical exposure in respect of the equity securities is as follows: 26% in the United States of America, 16% in the United Kingdom and 11% in Germany (2021: 40% in the United Kingdom).

#### Cash flow and fair value interest rate risk

Cash flow interest rate risk arises from interest bearing assets held at variable interest rates and from interest charged on the derivative financial instruments that remain open overnight.

Interest charged on the derivative financial instruments (both assets and liabilities) that remain open overnight does not expose the Company to cash flow interest rate risk as each client's trade is fully hedged by off-set trades between the Company and FxPro Financial Services Limited (entity under common control).

Fair value interest rate risk arises from financial assets and liabilities held at fixed interest rates. No sensitivity analysis is presented for interest rate risk as the impact of reasonably possible market movements on the Company's post-tax loss (2021: loss) are not significant to the Company's financial performance and position.

#### Credit risk

Credit risk is the risk of loss that the Company would incur if the counterparty in a transaction failed to perform its contractual obligations.

Credit risk arises from cash and cash equivalents, receivables from related parties, amounts receivable from clients, other receivables, margin accounts with brokers and favourable derivative financial instruments.

#### (i) Risk management

For banks and financial institutions, only parties whom management has internally assessed as financially healthy and stable are accepted. The Company only uses banks with an investment grade rating. If there is no independent rating, management assesses the credit quality of the counterparty, taking into account its financial position, past experience and other factors. Transactions with customers are settled using major credit cards and banks or financial institutions specialising in online transferring of funds and transactions.

- 5 Financial risk management (continued)
- (i) Financial risk factors (continued)
- Credit risk (continued)
- (i) Risk management (continued)

The credit risk in respect of customers arises from a customer's trading position going into deficit through incurring a loss in excess of the required margin deposit. Since the Company will not demand these amounts from its customers, due to the negative balance protection policy it has in place, it will absorb all unexpected losses over and above the clients' deposited funds. In addition to clients' stop loss limits capabilities, the Company uses various tools and automations to reduce its exposure to this credit risk, including automatic stop outs well before margin levels are eliminated to prevent any open position going into deficit and protect the clients by minimising their losses and dynamic leverage which increases the margin required as open positions exposure increases.

The carrying amount of financial assets represents the maximum credit exposure without taking into account any balances held as required margin for open trading positions in CFDs. Such assets are held by the Company in a fiduciary capacity (Note 21).

(ii) Impairment of financial assets

The Company has the following types of financial assets that are subject to the expected credit loss model:

- Receivables from related parties, amounts receivable from clients, margin accounts with brokers and other receivables; and
- Cash and cash equivalents.

#### Financial assets at amortised cost

For the impairment policy for all other financial assets that are subject to impairment under IFRS 9, refer to Note 3.

Significant increase in credit risk. The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information. The following indicators are incorporated:

- internal credit rating
- external credit rating (as far as available)
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations
- actual or expected significant changes in the operating results of the counterparty

- 5 Financial risk management (continued)
- (i) Financial risk factors (continued)
- Credit risk (continued)
- (ii) Impairment of financial assets (continued)
- significant increases in credit risk on other financial instruments of the same counterparty
- significant changes in the expected performance and behaviour of the counterparty, including changes in the payment status of counterparty in the group and changes in the operating results of the counterparty.

Macroeconomic information (such as market interest rates or growth rates) is incorporated as part of the internal rating model. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

Regardless of the analysis above, a significant increase in credit risk is presumed if a debtor is more than 30 days past due in making a contractual payment.

**Default**. A default on a financial asset is when the counterparty fails to make contractual payments within 90 days of when they fall due.

Write-off. For the write-off policy refer to Note 3.

The Company uses the following categories which reflect the credit risk and how the provision is determined for each of these categories. For counterparties which are externally rated, the Company uses external credit ratings.

A summary of the assumptions underpinning the Company's ECL model is as follows:

Category	Company definition of category	Basis for recognition of expected credit loss provision	Basis for calculation of interest revenue
Performing	Counterparties where credit risk is in line with original expectations	Stage 1: 12 month expected losses. Where the expected lifetime of an asset is less than 12 months, expected losses are measured at its expected lifetime.	Gross carrying amount
Underperforming	Counterparties for which a significant increase in credit risk has occurred compared to original expectations; a significant increase in credit risk is presumed if interest and/or principal repayments are 30 days past due (see above in more detail)	Stage 2: Lifetime expected losses	Gross carrying amount
Non-performing	Interest and/or principal repayments are 90 days past due e or it becomes probable a customer will enter bankruptcy	Stage 3: Lifetime expected losses	Amortised cost carrying amount (net of credit allowance)

- 5 Financial risk management (continued)
- (i) Financial risk factors (continued)
- Credit risk (continued)
- (ii) Impairment of financial assets (continued)

The following tables contain an analysis of the credit risk exposure of each class of financial instruments for which an impairment assessment is performed. The gross carrying amounts below also represent the Company's maximum exposure to credit risk on these assets as at 31 December 2022 and 31 December 2021.

#### Amounts receivable from clients

Company external credit rating	2022 £	2021 £
A1 (Moody's)	71	20

Amounts receivable from clients carry the credit risk of the banks that clients' cash is deposited and held by the Company in a fiduciary capacity, as these relate to profits from clients' trading in CFDs which as of the statement of financial position date the Company had not yet transferred from the clients' bank accounts. Amounts receivable from clients are transferred on a daily basis. Concentrations of credit risk with respect to receivables are limited due to the Company's policy to restrict any losses that a client can suffer from CFDs to the cash margin held for each client by the Company under fiduciary agreements. Due to this factor, management believes that no credit risk for collection losses is inherent in the Company's receivables from clients. The expected credit loss attached to these receivables is that of the client's designated banks and is estimated as immaterial.

#### Receivables from related parties

Company internal credit rating	2022 £	2021 £
Performing	27,472	326,667

The Company assessed the ECL for these balances and the identified impairment loss was immaterial.

The Company does not hold any collateral as security for any receivables from related parties.

#### Margin accounts with brokers

Company external credit rating	2022 £	2021 £
A- (Standard & Poor's)	122,098	-
BBB+ (Standard & Poor's)	-	276,320

The Company assessed the ECL for these balances and the identified impairment loss was immaterial.

The Company does not hold any collateral as security for any margin accounts with brokers.

- 5 Financial risk management (continued)
- (i) Financial risk factors (continued)
- Credit risk (continued)
- (ii) Impairment of financial assets (continued)

#### Other receivables

Company internal credit rating	2022 £	2021 £
Performing	132	

The Company assessed the ECL for these balances and the identified impairment loss was immaterial.

The Company does not hold any collateral as security for any other receivables.

#### Cash and cash equivalents

The Company assesses, on an individual basis, its exposure to credit risk arising from cash at bank. This assessment takes into account, ratings from external credit rating institutions and internal ratings, if external are not available.

Company external credit rating (Moody's)	2022 £	2021 £
AAA A (Moody's)	2,566,687	2,416,180

The Company assessed the ECL for these balances and the identified impairment loss was immaterial.

The Company does not hold any collateral as security for any cash and cash equivalents.

All bank balances were performing (Stage 1) as at 31 December 2022 and 31 December 2021.

No significant changes to estimation techniques or assumptions were made during the reporting period.

#### 5 Financial risk management (continued)

#### (i) Financial risk factors (continued)

#### • Liquidity risk

The finance department monitors rolling forecasts of the Company's liquidity requirements based on expected cash flows in order to ensure it has sufficient cash to meet its operational needs, under both normal circumstances and stressed conditions.

The table below analyses the Company's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position date to the contractual maturity date. Derivative financial liabilities are included in the analysis if their contractual maturities are essential for an understanding of the timing of the cash flows. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

	Less than 1 year £	Between 1 and 2 years £	Total £
31 December 2022	L	τ.	~
Trade and other payables (Note 19)	770,475	-	770,475
Lease liabilities	155,349	-	155,349
	925,824	•	925,824
	Less than 1 year £	Between 1 and 2 years £	Total £
31 December 2021	~	<b>~</b>	~
Trade and other payables (Note 19)	178,773	-	178,773
Lease liabilities	55,357	53,448	108,805
	234,130	<del></del> 53,448	287,578

Prudent liquidity risk management implies maintaining sufficient cash and cash equivalents to meet obligations as they fall due. Management maintains flexibility in funding by maintaining availability of cash and cash equivalent reserves.

#### (ii) Capital risk management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Company's capital requirements are calculated in accordance with the FCA regulations. The capital of the Company is monitored regularly in light of any potential changes within the business. The Company is required by the FCA to prepare an Internal Capital Adequacy and Risk Assessment ("ICARA") which replaced the Internal Capital Adequacy Assessment Process ("ICAAP"). As at the statement of financial position date the Company's regulatory capital resources were £3,408,342 (2021: £4,022,900) which comprise solely of issued share capital and retained earnings. The Company held adequate capital resources and did not breach any regulatory capital requirements during the year.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Company considers equity as shown on the face of the statement of financial position as capital.

#### 5 Financial risk management (continued)

#### (iii) Fair value estimation

The table below analyses financial instruments carried at fair value by valuation method. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Company's assets and liabilities that are measured at fair value:

At 31 December 2022	Level 1 £	Level 2	Total balance £
Assets Listed equity securities (Note 14) Derivative financial instruments (Note 5 (iv))	1,064,842	1,871,023 1,871,023	1,064,842 1,871,023 2,935,865
Liabilities Derivative financial instruments (Note 5 (iv))	<u> </u>	504,231	504,231
At 31 December 2021	· Level 1	Level 2 £	Total balance £
Assets Listed equity securities (Note 14) Derivative financial instruments (Note 5 (iv))	836,647 836,647	3,876,478 3,876,478	836,647 <u>3,876,478</u> 4,713,125
Liabilities Derivative financial instruments (Note 5 (iv))		238,734	238,734

The fair value of financial instruments traded in active markets is based on quoted market prices at the statement of financial position date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1. Instruments included in level 1 comprise equity securities listed on Stock Exchanges in Europe and the United States of America. Those investments are classified as financial assets at fair value through profit or loss.

The Company has no investments classified as level 3.

There were no transfers between Levels 1 and 2 during the years 2022 and 2021.

The carrying value of all financial assets and financial liabilities not carried at fair value, are assumed to approximate their fair values.

#### 5 Financial risk management (continued)

#### (iv) Offsetting financial assets and liabilities

Financial assets and liabilities are offset and the net amount reported in the statement of financial position where the Company currently has a legally enforceable right to offset the recognised amounts, and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

The following tables present the recognised financial instruments that are offset, or subject to enforceable master netting arrangements and other similar agreements, as at 31 December 2022 and 31 December 2021. The column 'net amount' shows the impact on the Company's statement of financial position if all set-off rights were exercised.

04 Danasan 0000	Gross amounts before offsetting in the statement of financial position (a)	Gross amounts set off in the statement of financial position (b)	Net amount after offsetting in the statement of financial position (c) = (a) - (b)
<u>31 December 2022</u>	£	£	£
ASSETS	4 074 000	4 074 000	
Derivative financial assets	1,871,023	1,871,023	•

	£	£	£
LIABILITIES Derivative financial liabilities	504,231	504,231	-
Advances of net unrealised revenue (1)	1,366,792	1,366,792	-
TOTAL LIABILITIES SUBJECT TO OFFSETTING, MASTER NETTING AND SIMILAR ARRANGEMENT	1,871,023	1,871,023	-
	Gross amounts	Gross amounts set	Net amount after
24 December 2024	before offsetting in the statement of financial position (a)	off in the statement of financial position (b)	offsetting in the statement of financial position (c) = (a) - (b)
<u>31 December 2021</u>	in the statement of financial position	statement of financial position	statement of financial position
31 December 2021  ASSETS Derivative financial assets	in the statement of financial position (a)	statement of financial position (b)	statement of financial position (c) = (a) - (b)
ASSETS	in the statement of financial position (a)	statement of financial position (b)	statement of financial position (c) = (a) - (b)
ASSETS Derivative financial assets  TOTAL ASSETS SUBJECT TO OFFSETTING, MASTER NETTING AND SIMILAR ARRANGEMENT	in the statement of financial position (a)	statement of financial position (b) £ 3,876,478	statement of financial position (c) = (a) - (b)
ASSETS Derivative financial assets TOTAL ASSETS SUBJECT TO OFFSETTING,	in the statement of financial position (a) £ 3,876,478	statement of financial position (b)  £  3,876,478  3,876,478	statement of financial position (c) = (a) - (b)
ASSETS Derivative financial assets  TOTAL ASSETS SUBJECT TO OFFSETTING, MASTER NETTING AND SIMILAR ARRANGEMENT  LIABILITIES	in the statement of financial position (a) £ 3,876,478	statement of financial position (b) £ 3,876,478	statement of financial position (c) = (a) - (b)

<sup>(1)</sup> Advances of net unrealised revenue relate to net unrealised revenue arising from the open positions with clients that the Company has withdrawn from client funds and recognised as a payable measured at amortised cost.

#### 5 Financial risk management (continued)

#### (iv) Offsetting financial assets and liabilities (continued)

The amount set off in the statement of financial position reported in column (b) is the lower of (i) the gross amount before offsetting reported in column (a) and (ii) the amount of the related instrument that is eligible for offsetting.

The Company has a service level agreement with FxPro Financial Services Limited according to which all trades between the Company and its clients are hedged by entering into off-set trades between the Company and FxPro Financial Services Limited and are settled on a daily basis. The Company reserves the right, at any time and at the Company's sole discretion, to set-off any unrealised losses incurred in respect of a clients' open positions against that client money held by the Company on behalf of that client in accordance with the agreement between the customer and the Company. The same right is applicable to FxPro Financial Services Limited as per the service level agreement on the same terms. This arrangement meets the criteria for offsetting and therefore, no derivatives and associated fair value balances are presented on the statement of financial position or statement of comprehensive income.

There were no other amounts subject to master netting and similar arrangements not set off in the statement of financial position.

#### 6 Critical accounting estimates and judgements

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

#### Critical judgments in applying the Company's accounting policies

#### Determination of the lease term

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

For leases of buildings the following factors are normally the most relevant:

- If there are significant penalties to terminate (or not extend), the Company is typically reasonably certain to extend (or not terminate).
- If any leasehold improvements are expected to have a significant remaining value, the Company is typically reasonably certain to extend (or not terminate).
- Otherwise, the Company considers other factors including historical lease durations and the costs and business disruption required to replace the leased asset.

As at 31 December 2022, potential future cash outflows of £159,019 (2021: £53,448) have been included in the lease liability because it is reasonably certain that the lease will not be terminated.

#### 7 Revenue

	2022 £	2021 £
Wages and salaries Social security costs Other pension costs	235,340 23,909 6,511	322,480 34,191 9,887
Total staff costs	265,760	366,558

The monthly average number of employees during the year ended 31 December 2022 was 6 (2021: 6).

#### 11 Income tax expense

	2022 £	2021 £
Current tax expense: Corporation tax		2,320

The tax on the Company's loss before tax cannot verify (2021: differs from) the theoretical amount that would arise using the applicable tax rates as follows:

	2022 £	2021 £
Loss before tax	(614,558)	(543,247)
Tax calculated at the applicable corporate tax rate of 19% (2021: 19%) Underprovision/(overprovision) of prior year expense Expenses not deductible for tax purposes Effect of unused tax losses for which no deferred tax asset was recognised	(116,766) - 4,749 112,017	(103,217) 2,320 9,395 93,822
Income tax expense	-	2,320

The effective tax rate for the year was 19% (2021: 19%).

Unused tax losses for which a deferred tax asset was not recognised amounted to £589,564 for the year ended 31 December 2022 (2021: £nil).

#### 12 Plant and equipment.

#### 13 Leases

This note provides information for leases where the Company is a lessee.

#### (i) The Company's leasing arrangements

The Company leases offices in London. Rental agreements are typically made for fixed periods but may have termination options together with a termination penalty. For the Company's rental agreements no extension option is available.

Lease addition with a commencement date of 29 September 2022 was recognised as per the new agreement signed on 11 July 2022.

#### (ii) Amounts recognised in the statement of financial position

The statement of financial position shows the following amounts relating to leases:

Dight of use spects	2022 £	2021 £
Right-of-use assets Buildings	182,409	102,745
Lease liabilities Current Non-current	155,349 -	53,879 52,887
Total	155,349	106,766

#### 13 Leases (continued)

#### (iii) Amounts recognised in profit or loss

The statement of comprehensive income shows the following amounts relating to leases:

	2022 £	2021 £
Depreciation charge of right-of-use assets Buildings	73,999	203,011
Interest expense (included in finance cost)	3,061	14,663

The total cash outflow for leases in 2022 was £108,142 (2021: £158,139).

#### 14 Financial assets

#### (a) Financial assets at amortised cost

	2022 £	2021 £
Amounts receivable from clients	71	20
Receivables from related parties (Note 20(vi))	27,472	326,667
Margin accounts with brokers	122,098	276,320
Other receivables	132	-
Total financial assets	149,773	603,007

#### (i) Fair value of financial assets at amortised cost

Due to the short-term nature of the current financial assets at amortised cost, their carrying amount is considered to be the same as their fair value.

As of 31 December 2022, all financial assets at amortised cost are at Stage 1 (2021: £603,007 Stage 1).

The maximum exposure to credit risk at the statement of financial position date is the carrying value of each class of financial assets mentioned above. The Company does not hold any collateral as security.

The carrying amounts of the Company's financial assets at amortised cost are denominated in the following currencies:

	2022 €	2021 £
Pound Sterling - functional and presentation currency	27,604	-
US Dollar	-	326,667
Euro	122,098	276,320
Other currencies	71	20
	149,773	603,007

Information about the current year impairment of amounts held with clients and the Company's exposure to credit risk can be found in Note 5.

#### 14 Financial assets (continued)

#### (b) Financial assets at fair value through profit or loss

	2022 £	2021 £
Listed equity securities – held for trading	1,064,842	836,647

Financial assets at fair value through profit or loss are presented within 'operating activities' as part of changes in working capital in the statement of cash flows.

For more information over the concentration risk as at 31 December 2022 and 31 December 2021, please refer to Note 5.

#### (i) Amounts recognised in profit or loss

Changes in fair values of financial assets at fair value through profit or loss are recognised in the statement of comprehensive income and are analysed as follows:

	2022	2021
	£	£
Financial assets at fair value through profit or loss – held for trading		
Net fair value losses (Note 9)	508,899	38,394

#### (ii) Fair value and risk exposure

Information about the methods used in determining fair value and sensitivity of the assets to price risk are provided in Note 5.

In addition, during the year there was a dividend income of £9,933 (2021: £4,157) from financial assets at fair value through profit or loss, which is included in "other losses - net" in profit or loss (Note 9).

The fair value of all equity securities is based on their current bid prices in an active market. For more information please refer to Note 5(iii).

#### 15 Non-financial assets

	2022 £	2021 £
Prepayments VAT refundable	47,724 60,069	116,113 14,318
Total non-financial assets	107,793	130,431

The fair value of the non-financial assets approximates their carrying amount.

The carrying amounts of the Company's non-financial assets are denominated Pound Sterling (functional and presentation currency).

#### 16 Derivative financial instruments

Derivative financial instruments are primarily open positions on contracts for differences (CFDs) in which the Company acts as the counterparty to positions held by the Company's customers at the year-end.

The notional exposure of the Company is as follows:

31 December 2022	Notional exposure long/(short) £
Commodities Currency pairs	(13,852,202) (2,646,686)
Equities & indices	(1,943,226)
31 December 2021	
Commodities	1,985,027
Currency pairs	(3,434,904)
Equities & Indices	1,344,261

Notional exposure represents the market value of the underlying financial instruments as at the reporting date. The notional exposure above arises after netting off long and short positions of the underlying financial instruments at the reporting date in each category of commodities, currency pairs and equities & indices. The fair value of these instruments is disclosed in Note 5 (iii).

The Company has a legal right to offset derivative financial instruments against advances from unrealised net trading revenues based on the terms of the client agreement and balances are settled on a net basis. Please refer to Note 5 (iv).

The maximum exposure to credit risk at the reporting date is the fair value of the derivative asset at the statement of financial position date.

#### 17 Cash and cash equivalents

Cash and cash equivalents include the following for the purposes of the statement of financial position and the statement of cash flows:

	2022 £	2021 £
Cash at bank	2,566,687	2,416,180
The cash and cash equivalents are analysed in the following of	currencies:	
	2022 £	2021 £
Pound Sterling - functional and presentation currency US Dollar Euro Other currencies	1,228,240 667,497 380,219 290,731	724,620 577,336 766,132 348,092
	2,566,687	2,416,180

#### 18 Share capital

Number of shares	Share Capital £	Total £
1,400,000	1,400,000	1,400,000
	shares	shares Capital £

The total authorised number of ordinary shares as at 31 December 2022 was 1,400,000 (2021: 1,400,000) with a par value of £1 per share. All issued shares are fully paid.

#### 19 Trade and other payables

	2022 £	2021 £
Financial liabilities at amortised cost		
Trade payables	14,054	62,971
Accrued expenses	91,550	59,238
Amounts payable to clients	101,243	55,295
Amounts payable to related parties (Note 20(vi))	562,386	-
Total financial liabilities within trade and other payables at amortised cost	769,233	177,504
National insurance and other taxes	1,242	1,269
Total trade and other payables	770,475	178,773

The fair value of trade and other payables which are due within one year approximates their carrying amount at the statement of financial position date.

#### 20 Related party transactions and ultimate parent undertaking

The Company is directly controlled by FxPro Group Limited, registered in Guernsey, which owns 100% of the Company's shares and is ultimately controlled by a number of individuals, none of whom has a controlling interest. The results of the Company are consolidated only in the consolidated financial statements of its parent entity whose registered office is at Sarnia House, Le Trouchot, St Peter Port, Guernsey, Channel Islands, GY1 1GR, where copies of the consolidated financial statements can be obtained.

The following transactions were carried out with related parties:

(i)	Sale of services		
` '		2022	2021
		£	£
Com	pany under common control:		
Com	mission income (Note 7)	1,099,867	874,093

The Company recognized a net loss from the off-set trading with FxPro Financial Services Limited of £2,269,821 for 2022 (2021: net loss of £3,639,209). For more details on the arrangement with FxPro Financial Services Limited that is based on the service line agreement, please refer to Note 5(iv).

#### Related party transactions and ultimate parent undertaking (continued) 20

(ii) Purchase of services		0004
	2022 £	2021 £
Company under common control: Service fee (Note 8)	30,000	30,000
Other related parties:		
Cleaning services (Note 8)	9,394	-
(iii) Key management personnel compensation		
The compensation of key management personnel is as follows:		
	2022	2021
	£	£
Salaries and other short-term employee benefits	184,423	187,500
(iv) Directors' remuneration		

The total remuneration of the Directors (included in key management personnel compensation above) was as follows:

	2022 £	2021 £
Salaries and other short-term benefits	67,500	67,500
	2022 £	2021 £
Highest paid director: Total amount of emoluments	40,000	40,000
(v) Other income		
Company under common control:	2022 £	2021 £
Rental income	-	36,440

The Company used to sub-lease part of the offices it leases out as lessee to BNKPro Ltd (previously FxPro Invest Ltd), which is an entity under common control, under an operating lease (which expired in March 2021) with rentals payable monthly recognized in the statement of comprehensive income as part of "other income".

#### 20 Related party transactions and ultimate parent undertaking (continued)

#### (vi) Year-end balances

	2022 £	2021 £
Year-end balances from related parties:		
Receivable from entities under common control (Note 14)	27,472	326,667
Derivative financial instruments with entities under common control (Note 5(iv))	504,231	238,734
	531,703	565,401
Year-end balances to related parties: Payable to entities under common control (Note 19)	562,386	
Derivative financial instruments with entities under common control (Note 5(iv))	1,871,023	3,876,478
	2,433,409	3,876,478

The above receivable and payable balances bear no interest, are not secured and are receivable/payable on demand.

#### 21 Fiduciary activities

In order to render investment services to clients, the Company holds clients' money in designated bank accounts for this purpose. The assets in these accounts are held by the Company in a fiduciary capacity and are not recognised in the statement of financial position. As at 31 December 2022 there were clients' accounts with banks held in a fiduciary capacity amounting to £8,191,041 (2021: £7,351,143). The client bank accounts are segregated from the bank accounts of the Company.

	2022 £	2021 £
Credit quality: A1	8,191,041	7,351,143
Currencies: Pound Sterling - functional and presentation currency Euro US Dollar	4,292,800 182,061 3,620,254	5,517,150 254,792 1,489,991
Other currencies	95,926	89,210
	8,191,041	7,351,143

#### 22 Events after the statement of financial position date

#### **Banking sector**

Recent failures of certain banks, resulting in liquidity constraints and government intervention, acquisitions and subsequent developments have resulted in significant disruption in the banking sector. This is a volatile period and situation, however, the Company is not directly exposed to those banks as there are no arrangements with those parties. Management will continue to monitor the situation closely and take appropriate actions when and if needed.

There were no other material events after the statement of financial position date, which have a bearing on the understanding of the financial statements.
