## 1. ACCOUNTING POLICIES

**Accounting convention**

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Office equipment	- 15% on reducing balance
Computer equipment	- 25% on reducing balance

**Deferred tax**

Deferred tax is recognised in respect of all timing differences which have originated but not reversed at the balance sheet date.

Timing differences are differences between taxable profits and the results as stated in the financial statements which arise from

the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

Deferred tax is not recognised when fixed assets are revalued unless by the balance sheet date there is a binding agreement to sell the revalued asset and the resulting gain or loss has been recognised in the financial statements. Neither is deferred tax recognised when fixed assets are sold and it is more likely than not that the taxable gain will be rolled over, being charged tax only if and when the replacement assets are sold.

Deferred tax is measured at the average tax rates which are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws which have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on a non - discounted basis.

**Operating leases**

Rentals paid under operating leases are written off to the Profit and Loss Account when incurred.
