NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS YEAR ENDED 31 MARCH 2016

1. Accounting policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

1.2. Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax.

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

1.3. Going concern

The company meets its day to day working capital requirements with the support of its creditors. The directors have a reasonable expectation that this support will continue for the foreseeable future to enable the company to continue its operations. For this reason the directors continue to adopt the going concern basis in preparing the financial statements. The directors conclude that, after considering the foreseeable circumstances, the going concern basis is appropriate for a period of at least one year from the date they approve the financial statements.

2. Share capital
