Statement of directors' responsibilities in respect of the Directors' Report and the financial statements

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice).

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

Notes

(forming part of the financial statements)

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards and the Companies Act 2006 and under the historical cost accounting rules.

Under Financial Reporting Standard 1 (revised 1996) the company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the company in its own published consolidated financial statements.

The company has taken advantage of the exemption contained in FRS 8 and has therefore not disclosed transactions or balances with entities where 100% of the voting rights are held within the group.

Going concern

At 30 April 2015, the company was not dependent for its business and working capital requirements on any third parties. The company has secured projects in the current marketplace which are forecast to be profitable and which will underpin the business in the coming years.

Accordingly, the directors have concluded that Edenstone Homes (Western) Limited will continue in operational existence for the foreseeable future and for at least 12 months from the signing of these financial statements. For this reason, they consider it appropriate to continue to adopt the going concern basis of preparation.

Turnover

Turnover comprises the sales value of residential properties sold in the year, net of incentives offered on sale.

Turnover is recognised when unconditional exchange of contracts for each property sale takes place.

Interest

Finance costs that are directly attributable to the development of residential housing are capitalised within work in progress and expensed within cost of sales on the sale of each property included in the residential development. Other finance costs are expensed as incurred.

Notes (continued)

1 Accounting policies (continued)

Work in progress

Work in progress is stated at the lower of cost and net realisable value, and comprises land, site development and construction costs and finance costs.

Taxation

The charge for taxation is based on the result for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19. Deferred tax assets are recognised to the extent that they are regarded as recoverable. They are regarded as recoverable to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

2 Segmental information

Turnover is derived solely from the sale of residential property within the UK.
