Company Information for the Year Ended 31Marc. 2023

DIRECTOR:

E H Schmitz

REGISTERED OFFICE:

Birchin Court 20 Birchin Lane London EC3V 9DJ

REGISTERED NUMBER:

07174519 (England and Wales)

Report of the Director for the Year Ended 31 March. 2023

The director presents his report with the financial statements of the company for the year ended 31 Dec. 2023.

PRINCIPAL ACTIVITY

The principal activity of the company in the year under review was the development of "Automated BESS Batterie Storage Systems" with five European patent claims for commercial use.

The financial report has remained unchanged since the years 2018/21. The director expects the company to return to profitability in this year 2023; as in the previous years, no sales were made in the financial year 2018/2023, the numbers have not changed or so slightly changed that it needs no correction. The German Patent Office was the first of 38 in the European Union to grant the patent. Thus, it is assumed that in 2023 initial sales will be generated in Germany. Since December 2018 >2023, talks have been held with international major investors. The festivities at the turn of the year 2020/2023 have interrupted the investor meetings. After resuming the talks, the first 1 EPC contracts 1 x 400 MW BESS power plant with an order volume of around € 0,63 billion have been signed, construction work is scheduled to begin in April 2023. The corona epidemi has brought projects that have already started to a standstill.

DIRECTOR

E. H. Schmitz held office during the whole of the period from 10 March 2022 to the date of this report.

This report has been prepared in accordance with the provisions of Part 15 of the Companies Act 2006 relating to small companies.

ON BEHALF OF THE BOARD:

E H Schmitz - Director

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

The principal accounting policies adopted in the preparation of the financial statements are set out below. The accounting policies have been consistently applied within the financial statements.

The financial statements for the year ended 31 March 2023 are the first financial statements that comply with FRS 102. The date of transition is 1 April 2014.

The transition to FRS 102 has resulted in a small number of changes in accounting policies to those used previously. The

company's functional currency is € Euro / £ Sterling and the presentation currency is € Euro.

Preparation of consolidated financial statements

The financial statements contain information about Bioenergon Green Energy Ltd as an individual company and do not contain consolidated financial information as the parent of a group. The company has taken the option under Section 398 of the Companies Act 2006 not to prepare consolidated financial statements.

The company and its subsidiary undertakings form part of a small-sized group.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant & machinery 15%

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Foreign currencies

Assets and liabilities in foreign currencies are translated into Euro at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into Euro at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and in hand.

Going concern

The financial statements are prepared on the basis of the going concern, which assumes that the company will be in operational existence for the foreseeable future. This depends upon continued support of the shareholders. The financial statements do not include any adjustments that would result if such support is withdrawn.

Notes to the Financial Statements - continued for the Year Ended 31 March 2023

2. ACCOUNTING POLICIES - continued

Financial instruments

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company's statement of financial position when the company becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets

Basic financial assets, which include trade and other receivables and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

Classification of financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Basic financial liabilities, including trade and other payables, bank loans, loans from fellow group companies and preference shares that are classified as debt, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade payables are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.
