**2. ACCOUNTING POLICIES**

**Basis of preparing the financial statements**

In preparing the financial statements, the directors are required to make an assessment of the ability of the company to continue as a going concern. The directors have considered all available evidence for the company which covers the 12 month period from the date of signing these financial statements. The directors have paid particular attention to likely cashflow requirements and the future availability of adequate cashflow to the company.

On the basis of this consideration, the directors are confident that the company has adequate resources to continue in operational existence and to meet its liabilities as they fall due for the foreseeable future. In reaching this conclusion they are satisfied that no material uncertainty exists. As a result of the above, the directors have concluded that it remains appropriate to adopt a going concern basis of preparation in these financial statements and that no material uncertainty exists in reaching this conclusion.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

**Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.
