Financial assets

Initial recognition and measurement

Under IFRS 9, all financial assets are measured at amortised cost, fair value through profit or loss or fair value through OCI on the basis of the Company's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. The Company's financial assets include cash and cash equivalents. These assets are continued to be measured at amortised cost as they meet the condition for classification at amortised cost under IFRS 9.

Impairment

The impairment model requires the recognition of impairment provisions based on expected credit losses. It applies to financial assets classified at amortised cost, debt instruments at fair value through OCI, contract assets under IFRS 15, lease receivables, loan commitments and certain financial guarantee contracts.

The company regularly reviews its expected credit losses on amounts due from group undertakings, none (2021: none) have been recognised as they are immaterial.

1.2 PRINCIPAL ACCOUNTING POLICIES (Continued)

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortised cost using the effective interest (EIR) method, less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance revenue in the income statement. The losses arising from impairment are recognised in the income statement in other operating expenses.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the Consolidated Statement of Financial Position if, and only if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Derecognition of financial instruments

A financial asset or liability is generally derecognised when the contract that gives right to it is settled, sold, cancelled or expires.
