- These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime.

Approved by the Board on 3 August 2016

And signed on their behalf by:

P ANTONIADES, Director

Notes to the Abbreviated Accounts for the period ended 28 February 2016**1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015)

Turnover policy

Turnover represents the total invoice value, excluding Value Added Tax, of sales made during the year and derives from the provision of goods falling within the company's ordinary activities.

Other accounting policies**Deferred taxation**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exceptions:

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold;

Provision is made for deferred tax that would arise on remittance of the retained earnings of overseas subsidiaries, associates and joint ventures only to the extent that, at the balance sheet date, dividends have been accrued as receivable;

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Going concern

The accounts have been prepared on a going concern basis even though there is a deficit at the balance sheet date. The company has the financial support of the directors which they have indicated will continue in the future.

2 Called Up Share Capital

Allotted, called up and fully paid:

2016	2015
