## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

---

### 1. General information

Armor Defense Limited is a private company limited by shares incorporated in England and Wales. The address of its registered office is 5 New Street Square, London, EC4A 3TW.

The comparative figures are for the period from 31 January 2021 to 31 December 2021 and therefore not entirely comparable.

The financial statements are presented in Sterling (£), which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £.

### 2. Accounting policies

#### 2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The following principal accounting policies have been applied:

#### 2.2 Going concern

The financial statements have been prepared on a going concern basis notwithstanding the fact that the company has a deficit on total equity at 31 December 2022 of £17,532,278 and made a loss for the year then ended of £2,351,699. The directors consider this basis to be appropriate as the company has received a letter of support from its parent undertaking, Armor Defense Inc. confirming its intention and ability to provide continued financial assistance to the company for the foreseeable future being a period of at least twelve months from the date of approval of these financial statements. Accordingly, the directors continue to adopt the going concern basis in preparing the financial statements.

#### 2.3 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Revenue is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. The following criteria must also be met before revenue is recognised:

##### Rendering of services

Revenue from a contract to provide services is recognised in the period in which the services are provided in accordance with the stage of completion of the contract when all of the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the company will receive the consideration due under the contract;
- the stage of completion of the contract at the end of the reporting period can be measured reliably; and
- the costs incurred and the costs to complete the contract can be measured reliably.

---

### 2. Accounting policies (continued)

#### 2.4 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

At each reporting date the company assesses whether there is any indication of impairment. If such indication exists, the recoverable amount of the asset is determined which is the higher of its fair value less costs to sell and its value in use. An impairment loss is recognised where the carrying amount exceeds the recoverable amount.

The company adds to the carrying amount of an item of fixed assets the cost of replacing part of such an item when that cost is incurred, if the replacement part is expected to provide incremental future benefits to the company. The carrying amount of the replaced part is derecognised. Repairs and maintenance are charged to profit or loss during the period in which they are incurred.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis:

Computer equipment	- 33%
--------------------	-------

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

---

### 2. Accounting policies (continued)

#### 2.5 Financial instruments

The company has elected to apply Sections 11 and 12 of FRS 102 in respect of financial instruments.

Financial assets and financial liabilities are recognised when the company becomes party to the contractual provisions of the instrument.

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

The company's policies for its major classes of financial assets and financial liabilities are set out below.

##### **Financial assets**

Basic financial assets, including trade and other debtors and cash and bank balances, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest for a similar debt instrument. Financing transactions are those in which payment is deferred beyond normal business terms or is financed at a rate of interest that is not a market rate.

Such assets are subsequently carried at amortised cost using the effective interest method, less any impairment.

##### **Financial liabilities**

Basic financial liabilities, including trade and other creditors and loans from fellow group companies, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument. Financing transactions are those in which payment is deferred beyond normal business terms or is financed at a rate of interest that is not a market rate.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

##### **Impairment of financial assets**

Financial assets measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the profit and loss account.

For financial assets measured at cost less impairment, the impairment loss is measured as the difference between the asset's carrying amount and the best estimate of the amount the company would receive for the asset if it were to be sold at the reporting date.

For financial assets measured at amortised cost, the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated cash flows discounted at the asset's original effective interest rate. If the financial asset has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount

# ARMOR DEFENSE LIMITED

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

---

### 2. Accounting policies (continued)

does not exceed what the carrying amount would have been had the impairment not previously been recognised. The impairment reversal is recognised in profit or loss.

#### **Derecognition of financial assets and financial liabilities**

Financial assets are derecognised when (a) the contractual rights to the cash flows from the asset expire or are settled, or (b) substantially all the risks and rewards of the ownership of the asset are transferred to another party or (c) despite having retained some significant risks and rewards of ownership, control of the asset has been transferred to another party who has the practical ability to unilaterally sell the asset to an unrelated third party without imposing additional restrictions.

Financial liabilities are derecognised when the liability is extinguished, that is when the contractual obligation is discharged, cancelled or expires.

#### **Offsetting of financial assets and financial liabilities**

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

### 2.6 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours.

### 2.7 Share capital

Ordinary shares are classified as equity.

### 2.8 Foreign currency translation

#### **Functional and presentation currency**

The company's functional and presentational currency is GBP.

#### **Transactions and balances**

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss except when deferred in other comprehensive income as qualifying cash flow hedges.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the profit and loss account within 'interest receivable and similar income' or 'interest payable and similar expenses'. All other foreign exchange gains and losses are presented in the profit and loss account within 'administrative expenses'.

# ARMOR DEFENSE LIMITED

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

---

### 2. Accounting policies (continued)

#### 2.9 Operating leases: the company as lessee

Rentals paid under operating leases are charged to the profit or loss account on a straight line basis over the lease term.

#### 2.10 Pensions

##### Defined contribution pension plan

The company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the company pays fixed contributions into a separate entity. Once the contributions have been paid the company has no further payment obligations.

The contributions are recognised as an expense in profit or loss when they fall due. Amounts not paid are shown in accruals as a liability in the balance sheet. The assets of the plan are held separately from the company in independently administered funds.

#### 2.11 Interest income

Interest income is recognised in profit or loss using the effective interest method.

#### 2.12 Finance costs

Finance costs are charged to profit or loss over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

#### 2.13 Commissions

Commissions paid to individuals in respect of sales contracts are recognised over the anticipated lifetime of the sales contract.

# ARMOR DEFENSE LIMITED

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

---

### 2. Accounting policies (continued)

#### 2.14 Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in the profit and loss account, except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

Current tax is the amount of income tax payable in respect of taxable profit for the year or prior years.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the company operates and generates income.

Deferred tax arises from timing differences that are differences between taxable profits and total comprehensive income as stated in the financial statements. These timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

### 3. Employees

The average monthly number of employees, including directors, during the year was 4 (2021 - 5).

### 7. Creditors: amounts falling due after more than one year

	2022 £	2021 £
Amounts owed to group undertakings	<u>18,237,407</u>	<u>15,955,948</u>

Amounts owed to group companies bear interest at a rate of 5% per annum, are unsecured and are payable in more than one year. The group interest expense for the year was £882,589 (period to 31 December 2021: £676,135).

### 8. Share capital

	2022 £	2021 £
<b>Allotted, called up and fully paid</b>		
6,001,000 (2021 - 6,001,000) Ordinary shares of £1.00 each	<u>6,001,000</u>	<u>6,001,000</u>

### 9. Commitments under operating leases

The company had no commitments under non-cancellable operating leases at the balance sheet date.

### 10. Cross guarantee

The assets of the company are secured by way of a fixed and floating charge in respect of a debt owed by the parent company to one of its lenders.

### 11. Parent undertaking

The smallest group for which consolidated financial statements are drawn up is headed by Armor Defense Inc., whose registered office is 2360 Campbell Creek Blvd, Suite 525, Richardson, Texas, 75082, USA. Consolidated financial statements are prepared but are not publicly available.

# ARMOR DEFENSE LIMITED

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

---

### 12. Related party transactions

The company has taken advantage of the exemption contained in FRS 102 section 33 "Related Party Disclosures" from disclosing transactions with entities which are a wholly owned part of the group.

### 13. Auditor's information

The auditor's report on the financial statements for the year ended 31 December 2022 was unqualified.

The audit report was signed on 4 January 2024 by Christopher Shepherd (senior statutory auditor) on behalf of Blick Rothenberg Audit LLP.

This document was delivered using electronic communications and authenticated in accordance with the registrar's rules relating to electronic form, authentication and manner of delivery under section 1072 of the Companies Act 2006.
