and are signed on behalf of the board by:

C S Dewar

Director

Company registration number: 07958759

Osper Ltd

Notes to the Financial Statements

Year ended 31 March 2021

1. General information

The company is a private company limited by shares, registered in England and Wales. The address of the registered office is Brent Hall, Warley Gap, Little Warley, Brentwood, CM13 3DP.

2. Statement of compliance

These financial statements have been prepared in compliance with Section 1A of FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland'.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis. The financial statements are prepared in sterling, which is the functional currency of the entity.

Government grants

Government grants are recognised in the profit and loss account so as to match them with the expenditure towards which they are intended to contribute. Any grants received in the current year that relate to following years are deferred.

Going concern

In my opinion, on the basis of information and enquiries that are pertinent to the company's circumstances and which I believe to be adequate, it is appropriate to continue to treat the company as a going concern. In particular I believe that adequate cash resources will be available to cover the company's requirements for working capital for at least twelve months from the date of signing the financial statements.

Judgements and key sources of estimation uncertainty

No significant judgements have had to be made by the directors in preparing these financial statements.

Employee benefits

Short term unused employee benefits are recognised and accrued for at the year end.

Revenue recognition

Turnover is measured at the fair value of the consideration received or receivable and represents amounts receivable for services rendered, stated net of discounts and of Value Added Tax.

Income tax

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, tax is recognised in other comprehensive income or directly in equity, respectively. Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Intangible assets

Intangible assets are initially recorded at cost, and are subsequently stated at cost less any accumulated amortisation and impairment losses.

Amortisation

Amortisation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful life of that asset as follows:

Intellectual Property	-	20% straight line
Development costs	-	33 % straight line

If there is an indication that there has been a significant change in amortisation rate, useful life or residual value of an intangible asset, the amortisation is revised prospectively to reflect the new estimates.

Research and development

Research expenditure is written off in the period in which it is incurred. Development expenditure incurred is capitalised as an intangible asset only when all of the following criteria are met: - It is technically feasible to complete the intangible asset so that it will be available for use or sale; - There is the intention to complete the intangible asset and use or sell it; - There is the ability to use or sell the intangible asset; - The use or sale of the intangible asset will generate probable future economic benefits; - There are adequate technical, financial and other resources available to complete the development and to use or sell the intangible asset; and - The expenditure attributable to the intangible asset during its development can be measured reliably. Expenditure that does not meet the above criteria is expensed as incurred.

Tangible assets

Tangible assets are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation and impairment losses.

Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Fixtures & Fittings	-	20% straight line
Office Equipment	-	33% straight line

Stocks

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the stock to its present location and condition.

Defined contribution plans

Contributions to defined contribution plans are recognised as an expense in the period in which the related service is provided.

4. Employee numbers

The average number of persons employed by the company during the year amounted to 5 (2020: 4).

5. Intangible assets

	Intellectual Property £	Development costs £	Total £
